The Eternal Frontier:

The Eternal Frontier Tim Flannery, 2018-11-20 A comprehensive history of the continent full of engaging and attention catching information about North America's geology climate and paleontology The Washington Post Book World Here the rock star of modern science tells the unforgettable story of the geological and biological evolution of the North American continent from the time of the asteroid strike that wiped out the dinosaurs 65 million years ago to the present day Jared Diamond Pulitzer Prize winning author of *Guns Germs and Steel* Flannery describes the development of North America's deciduous forests and other flora and tracks the migrations of various animals to and from Europe Asia and South America showing how plant and animal species have either adapted or become extinct The story spans the massive changes wrought by the ice ages and the coming of the Native Americans It continues right up to the present covering the deforestation of the Northeast the decimation of the buffalo and other consequences of frontier settlement and the industrial development of the United States This is science writing at its very best both an engrossing narrative and a scholarly trove of information that will forever change your perspective on the North American continent The New York Review of Books

The Eternal Frontier Tim Flannery, 2002 A paleontologist offers an ecological tour of North America from the asteroid strike that killed the dinosaurs sixty five million years ago to the present

Eternal Frontier James H. Schmitz, 2002-09-01 Ape Man Space Man Earth's colonists have spread throughout the cosmos and have almost divided into two separate species One is the Swimmers who have adapted to living in zero gravity and regard themselves as the next step in evolution and those who prefer to live on the surface of a planet as little better than apes The latter group the Walkers are not about to say farewell to the planets they grew up on and think the Swimmers are not so much advanced as deranged Crowell born a Swimmer but now a Walker by choice is caught in the middle as the two sides seem headed for war Then he discovers the true cause of the altercation a hidden alien race moving behind the scenes to provoke a war so that they can pick up the pieces after the two sides have obliterated each other And if Crowell cannot head off the war and convince both sides of the existence of the real enemy both branches of the human race may be headed for untimely extinction This full length novel and much more fill a huge volume from the master of science fiction adventure At the publisher's request this title is sold without DRM Digital Rights Management Much has been made of the sense of wonder that science fiction evokes and believe me there was nothing to evoke that sense quite like the worlds of James Schmitz Thank you James Schmitz wherever you are And thank you Eric Flint and Jim Baen for bringing his Right Stuff back again Mercedes Lackey Take my advice and buy TWO copies of this book You'll want to lend it to friends and trust me on this I have years of experience to back up the observation once people get their hands on a Schmitz book they don't let go Janet Kagan Hugo winner and author of *Uhura's Song*

Developing Ecological Consciousness Christopher Uhl, 2003 A second edition of this textbook is now available Developing Ecological Consciousness offers an ecology based

wonder filled initiation to the Universe and the Planet Earth It examines the ways in which humans are damaging the Earth and their own bodies and spirits The book presents paradigms values and tools essential for both planetary and personal transformation

Historic Native Peoples of Texas William C. Foster, 2009-02-17 An incredibly detailed account of Indigenous lifeways during the initial rounds of European exploration in south central North America Several hundred tribes of Native Americans were living within or hunting and trading across the present day borders of Texas when Cabeza de Vaca and his shipwrecked companions washed up on a Gulf Coast beach in 1528 Over the next two centuries as Spanish and French expeditions explored the state they recorded detailed information about the locations and lifeways of Texas s Native peoples Using recent translations of these expedition diaries and journals along with discoveries from ongoing archaeological investigations William C Foster here assembles the most complete account ever published of Texas s Native peoples during the early historic period AD 1528 to 1722 Foster describes the historic Native peoples of Texas by geographic regions His chronological narrative records the interactions of Native groups with European explorers and with Native trading partners across a wide network that extended into Louisiana the Great Plains New Mexico and northern Mexico Foster provides extensive ethnohistorical information about Texas s Native peoples as well as data on the various regions animals plants and climate Accompanying each regional account is an annotated list of named Indigenous tribes in that region and maps that show tribal territories and European expedition routes A very useful encyclopedic regional account of the Europeans and Native peoples of Texas who encountered one another during the relatively unexamined two hundred years before the Spanish occupation of Texas and the French establishment of Louisiana Southwestern Historical Quarterly

Wisdom for a Livable Planet Carl N. McDaniel, 2011-04-15 The author profiles the work of eight visionaries who have dedicated their lives to various environmental issues Each story provides a portrait of an individual s valiant and inspiring campaign to improve the conditions for life on our planet Taken together the work of these people points the way toward creating an ecologically centered civilization in which a brighter future for all life including human is possible Terri Swearingen takes on one of the world s largest hazardous waste incinerators burning toxic waste next door to an elementary school Stephen Schneider establishes the scientific basis for climate change Herman Daly advocates a dynamic steady state economy that respects the laws of nature and human behavior David Orr champions educational reform to make universities a place where students learn how to be environmentally aware citizens Werner Fornos works toward empowering every person with the knowledge and means to decide when and how many children to have Helena Norberg Hodge champions local living with appropriate technologies to enhance our spiritual and ecological well being Wes Jackson promotes sustainable agriculture based on local ecology and community values Dave Foreman leads the effort to rewild almost half of North America with wolves mountain lions jaguars falcons and others to restore functional ecosystems and preserve biodiversity
