The Ethnic Imperative Examining The New White Ethnic Movement:

The Ethnic Imperative Howard F. Stein, Robert F. Hill, 1977 The New Ethnicity is characterized more by a cutting of roots than a cultivation of them particularly among descendants of recent European immigrants to America The authors hold that the American Dream including its melting pot imagery was sought by immigrants from Ireland or eastern central and southern Europe not imposed by xenophobic WASPs Thus The Ethnic Imperative is partly a rejoinder to apologists for the New White Ethnic movement partly a sympathetic critique of the movement and by extension of all movements premised on the biosocial nature of ethnicity Three centuries of Euro American history are reviewed in order to establish a psycho social base from which to view the New Ethnicity as what La Barre calls a crisis cult A distinction is made between current ideological ethnicity and the prior unselfconscious behavioral ethnicity The latter subsumes the preservation of intracultural values while the former involves a rejection of the American Dream The liberating American Dream is contrasted with the equally powerful and often constraining doctrine and practice of American Conformity The post World War II period of liberation for recent Americans is viewed psychoanalytically as the triumph of the son generation while the assassination of idealized leaders symbolized loss of faith in the American Dream Mounting rebelliousness by youths and Blacks led many white ethnics to embrace neo fundamentalisms and neo orthodoxies The traditional Southern ethos of localism and separatism with which the New White Ethnicity is often compared is shown as a recurring nationwide rationalization of caste or race position no matter how unrewarding that position may be La Barre calls it one downmanship Implicitly The Ethnic Imperative is a brief for the American Dream of E pluribus unum And as Weston La Barre says of the authors in his foreword their ideas will have a still wider bearing in the future world village *Ethnic Imperative* Howard F. Stein, 1977

Creating the New Right Ethnic in 1970s America Richard Moss, 2017-03-15 This work analyzes the New Ethnicity of the 1970s as a way of understanding America's political turn to the right in that decade An upsurge of vocal ethnic consciousness among second third and fourth generation Southern and Eastern Europeans the New Ethnicity simultaneously challenged and emulated earlier identity movements such as Black Power The movement was more complex than the historical memory of racist reactionary white ethnic leaders suggests The movement began with a significant grassroots effort to gain more social welfare assistance for near poor white ethnic neighborhoods and ease tensions between the working class African Americans and whites who lived in close proximity to one another in urban neighborhoods At the same time a more militant strain of white ethnicity was created by urban leaders who sought conflict with minorities and liberals The reassertion of ethnicity necessarily involved the invention of myths symbols and traditions and this process actually served to retard the progressive strain of New Ethnicity and strengthen the position of reactionary leaders and New Right politicians who hoped to encourage racial discord and dismantle social welfare programs Public intellectuals created a mythical white ethnic who shunned welfare valued the family and provided an antidote to liberal elitism and neighborhood

breakdown Corporations and publishers embraced this invented ethnic identity and codified it through consumption Finally politicians appropriated the rhetoric of the New Ethnicity while ignoring its demands The image of hard working self sufficient ethnics who took care of their own neighborhood problems became powerful currency in their effort to create racial division and dismantle New Deal and Great Society protections

Ethnicities and Global Multiculture Jan Nederveen Pieterse,2007-03-15 Arguing that ethnicity and multiculturalism are essential for understanding globalization Jan Nederveen Pieterse offers one of the first sustained treatments of the reach of these key forces beyond a limited national context He shows that multiethnicity preceded the nation state by millennia but argues that states feeling the threat to their national identities seek to control or suppress it Contemporary multiculturalism another attempt to regulate multiethnicity is a work in progress in which dramas of global inequality are played out This groundbreaking book adopts a kaleidoscopic and comparative historical perspective that intertwines strands of social science and western and non western research as a strategy to overcome the disciplinary and regional fragmentation of most discussions Moving beyond worn notions of ethnicity and multiculturalism Nederveen Pieterse proposes ethnicities and global multiculturalism as alternative wide angle perspectives on cultural diversity Global multiculturalism he convincingly demonstrates offers a fresh account of layered cultural dynamics amid accelerated globalization
