Mythologies and Philosophies of Salvation in the Theistic Traditions of India Klaus K. Klostermaier,2006-01-01 Based on exhaustive reference to primary source material this volume explores the relationships between religious mythologies and religious philosophical system within the theistic traditions in India Not content merely to explore these relationships the author further examines the relevance of mythology and philosophy in a discussion of salvation salvation understood in its sociological eschatological and philosophical senses The treatment of myth and philosophy is comprehensive in scope pulling together a great variety of sources and commentary and illuminating them for the Western reader This study will be of interest both to students of Indian religions and to students of comparative religion interested in creating a context for the discussion of Eastern and Western religions *The Indian Historical Quarterly* ,1927

Hinduism Axel Michaels,2021-08-10 Hinduism is currently followed by one fifth of humankind Far from a monolithic theistic tradition the religion comprises thousands of gods a complex caste system and hundreds of languages and dialects Such internal plurality inspires vastly ranging rites and practices amongst Hinduism s hundreds of millions of adherents It is therefore not surprising that scholars have been hesitant to define universal Hindu beliefs and practices In this book Axel Michaels breaks this trend He examines the traditions beliefs and rituals Hindus hold in common through the lens of what he deems its identificatory habitus a cohesive force that binds Hindu religions together and fortifies them against foreign influences Thus in his analysis Michaels not only locates Hinduism s profoundly differentiating qualities but also provides the framework for an analysis of its social and religious coherence Michaels blends his insightful arguments and probing questions with introductions to major historical epochs ample textual sources as well as detailed analyses of major life cycle rituals the caste system forms of spiritualism devotionism ritualism and heroism Along the way he points out that Hinduism has endured and repeatedly resisted the missionary zeal and universalist claims of Christians Muslims and Buddhists He also

contrasts traditional Hinduism with the religions of the West where the self is preferred to the not self and where freedom in the world is more important than liberation from the world Engaging and accessible this book will appeal to laypersons and scholars alike as the most comprehensive introduction to Hinduism yet published Not only is Hinduism refreshingly new in its methodological approach but it also presents a broad range of meticulous scholarship in a clear readable style integrating Indology religious studies philosophy anthropological theory and fieldwork and sweeping analyses of Hindu texts **Textual Sources for the Study of Hinduism** Wendy Doniger,1988 **Bharata Manisha Quarterly** ,1975 *Directory of Doctoral Dissertations on Sanskrit of Indian Universities* Vempaṭi Kuṭumbaśāstrī,K. Venkateswara Sarma,2007 **Selected Studies of Jan Gonda, Volume 6 Selected Studies, part 1** Gonda,2025-02-03 The print edition is available as a set of two volumes 9789004094468 **Annals of the Bhandarkar Oriental Research Institute, Poona** Bhandarkar Oriental Research Institute,1984 Vedic Bibliography Ramchandra Narayan Dandekar,1973 **Power and Secularization** Giacomo Marramao,2025-03-04 This book offers a genealogical understanding of the condition of our time by reconstructing the complex story of the transition from the cyclical time of the classic era to the linear and infuturant time of the modern world Time is therefore understood not as a simple vector but as a trans political form par excellence which involves the fundamental philosophical and political categories of the modern constellation beginning with the concepts of progress revolution liberation and alternative Arguing that the process of secularization in its broadest sense is dependent on the modern notion of cumulative and irreversible time together with the temporalization of history Power and Secularization constitutes a conceptual history that will appeal to scholars of social and political theory and philosophy with interests in intellectual history and the genealogical method
