The Evolution Of Spoken Hebrew In Prestate Israel 1881-1922:

The Oxford Handbook of Israeli Politics and Society Reuven Y. Hazan, Alan Dowty, Menachem Hofnung, Gideon Rahat, 2021 Few countries receive as much attention as Israel and are at the same time as misunderstood The Oxford Handbook of Israeli Politics and Society brings together leading Israeli and international figures to offer the most wide ranging treatment available of an intriguing country It serves as a comprehensive reference for the growing field of Israel studies and is also a significant resource for students and scholars of comparative politics recognizing that in many ways Israel is not unique but rather a test case of democracy in deeply divided societies and states engaged in intense conflict The handbook presents an overview of the historical development of Israeli democracy through chapters examining the country's history contemporary society political institutions international relations and most pressing political issues It outlines the most relevant developments over time while not shying away from the strife both in and around Israel It presents opposed narratives in full force enabling readers to make their own judgments Hebrew Popular Journalism Ouzi Elyada, 2019-06-04 The book examines the birth development and mode of operation of the Hebrew popular press that progressed in Ottoman Palestine between 1884 and the eruption of World War I in 1914 The inquiry yields a profile of the printers editors and journalists and examines the editors working patterns the gathering of journalistic information and distribution of the resulting product in the public sphere Addressing the fact that nearly all of the Hebrew press in the eighteenth and nineteenth centuries appealed to an elitist intellectual and affluent readership the book breaks new ground by showing that from the 1880s onward a popular press came into being in Palestine for the first time in the history of the Hebrew press The focus is on three popular newspapers that evolved in Jerusalem along the lines of the Western popular press While profiling the readership of the popular Hebrew press the book also investigates reading practices Analyzing the contribution of the press to the modernization of the Hebrew language this pioneering volume is a key resource for students and scholars of communication media and Hebrew studies and media and Jewish history *Historical Continuity in the Emergence of Modern Hebrew* Yael Reshef, 2019-11-13 Historical Continuity in the Emergence of Modern Hebrew offers a new perspective on the emergence processes of Modern Hebrew and its relationship to earlier forms of Hebrew Based on a textual examination of select case studies of language use throughout the modernization of Hebrew this book shows that due to the unconventional sociolinguistic circumstances in the budding speech community linguistic processes did not necessarily evolve in a linear manner blurring the distinction between true and apparent historical continuity The emergent language's standardization involved the restructuring of linguistic habits that had initially taken root among the first speakers often leading to a retreat from early contact induced or non classical phenomena Yael Reshef demonstrates that as a result superficial similarity to earlier forms of Hebrew did not necessarily stem from continuity and deviation from canonical Hebrew features does not necessarily stem from change *The First Jewish Environmentalist* Yuval Jobani, 2023 Aharon

David Gordon 1856 1922 is increasingly being recognized as the first Jewish environmentalist Long before global warming became a major threat Gordon warned against the mounting dangers of human assault on nature and urged us to open ourselves to nature and re attune with it The First Jewish Environmentalist introduces Gordon s ideas and sets them in their historical context shedding new light on the interconnections between religion culture education and the environment The book expands Gordon s canonical status beyond the realm of Hebrew culture and extracts from Gordon s philosophy empowerment and inspiration for seekers advocating the protection of our planet *Land and Desire in Early Zionism* Boaz Neumann,2011-05-10 A provocative look at the centrality of desire for the Land among early settlers in pre state Israel

Usage-Based Studies in Modern Hebrew Ruth A. Berman,2020-03-18 The goal of the volume is to shed fresh light on Modern Hebrew from perspectives aimed at readers interested in the domains of general linguistics typology and Semitic studies Starting with chapters that provide background information on the evolution and sociolinguistic setting of the language the bulk of the book is devoted to usage based studies of the morphology lexicon and syntax of current Hebrew Based primarily on original analyses of authentic spoken and online materials these studies reflect varied theoretical frames of reference that are largely model neutral in approach To this end the book presents a functionally motivated dynamic approach to actual usage rather than providing strictly structuralist or formal characterizations of particular linguistic systems Such a perspective is particularly important in the case of a language undergoing accelerated processes of change in which the gap between prescriptive dictates of the Hebrew Language Establishment and the actual usage of educated literate but non expert speaker writers of current Hebrew is constantly on the rise **Maimonides Review of Philosophy**

and Religion Volume 3, 2024 ,2024-09-09 The Maimonides Review of Philosophy and Religion is an annual collection of double blind peer reviewed articles that seeks to provide a broad international arena for an intellectual exchange of ideas between the disciplines of philosophy theology religion cultural history and literature and to showcase their multifarious junctures within the framework of Jewish studies Contributions to the Review place special thematic emphasis on scepticism within Jewish thought and its links to other religious traditions and secular worldviews The Review is interested in the tension at the heart of matters of reason and faith rationalism and mysticism theory and practice narrativity and normativity doubt and dogma **Translating Fictional Dialogue for Children and Young People** Martin B. Fischer,Maria Wirf

Naro,2012-09-01 Literary and multimodal texts for children and young people play an important role in their acquisition of language and literacy and they are a flourishing part of publishing and translating activities today This book brings together twenty one papers on the particular aspect of the translation of feigned orality As the link between the literary and the multimodal text fictional dialogue is the appropriate place for evoking orality lending authenticity and credibility to the narrated plot and giving a voice to fictitious characters This is illustrated with examples from narrative and dramatic texts as well as films cartoons and television series in their respective modes of mediation translating interpreting dubbing and

subtitling The findings are of interest from the scholarly point of view of contrastive linguistics for the professional practice of translating interpreting dubbing and subtitling and in the educational context **Lingua Ex Machina** Ido

Ramati, 2025-02-11 An investigation of the connections between the parallel rise of modern Hebrew and modern media After lying dormant for two millennia as a mainly written language Hebrew awoke from its literary slumber to become a living modern vernacular This revitalization is unique and unprecedented in world history and its success has been studied in fields from linguistics to cultural history However the role of modern technologies in mediating this revival has not yet been considered What happens when an ancient language meets modern technology *Lingua Ex Machina* explores such a moment in its investigation of the role media technologies including typewriters phonographs and computers played in the revitalization and modernization of Hebrew from the end of the nineteenth century into the present day Ido Ramati examines the role sound recording technologies played in shaping the reemergence of modern Hebrew speech reveals how the Hebraized typewriter pushed for the modernization of writing in Hebrew and ultimately argues that these media whose development and adoption paralleled the revitalization of Hebrew were an active force in shaping the language as a modern communicative medium This case study of Hebrew furnishes researchers with a rare opportunity to investigate the complex relation between language its speakers and technology at a decisive moment and sheds new light on the study of media technologies and their theoretical lingual and social implications **On Revival** Roni Henig, 2024-11-12 A critique of the

discourse of language revival in modern Hebrew literature *On Revival* is a critique of one of the most important tenets of Zionist thinking Hebrew revival or the idea that Hebrew a largely unspoken language before the twentieth century was revitalized as part of a broader national revival which ultimately led to the establishment of the Israeli nation state This story of language revival has been commemorated in Israeli popular memory and in Jewish historiography as a triumphant transformation narrative that marks the success of the Zionist revolution But a closer look at the work of early twentieth century Hebrew writers reveals different sentiments Roni Henig explores the loaded figurative discourse of revival in the work of Hebrew authors and thinkers working roughly between 1890 and 1920 For these authors the language once known as the holy tongue became a vernacular in the making Rather than embracing revival as a neutral descriptive term Henig takes a critical approach employing close readings of canonical texts to analyze the primary tropes used to articulate this aesthetic and political project of reviving Hebrew She shows that for many writers the national mission of language revival was entwined with a sense of mourning and loss These writers perceived and simultaneously produced the language as neither dead nor fully alive Henig argues that it is this figure of the living dead that lies at the heart of the revival discourse and which is constitutive of Jewish nationalism *On Revival* contributes to current debates in comparative literary studies by addressing the limitations of the national language paradigm and thinking beyond concepts of origin nativity and possession in language Informed by critical literary theory including feminist and postcolonial critiques the book challenges Zionism s

monolingual lens and the auto Orientalism involved in the project of revival questioning charged ideological concepts such as native speaker and mother tongue
