The Evolving God In Jewish Process Theology Jewish Studies:

The Evolving God in Jewish Process Theology William E. Kaufman, 1997 *A History of Modern Jewish Religious Philosophy* Eliezer Schweid, 2025-01-20 Schweid concludes his history of modern Jewish thought by narrating two major progressions in Diaspora Jewish thought of the early twentieth century 1 the varied responses of ultra Orthodox Diaspora Jewish thinkers to the Holocaust Wasserman Shapira Ashlag Dessler Teichthal Rokea and Yosef Yitzhak Schneersohn and 2 the formative thinkers of the major movements in American Jewish thought Kohler Schechter Kaplan Herberg Strauss Soloveitchik and Heschel Religions in the Making John B. Cobb Jr., 2012-11-06 Whitehead had a place for God in his comprehensive cosmological vision and his theism has long attracted interest from some Christian theologians But Whitehead's ideas have much wider use Some Buddhists have found help in articulating their nontheistic vision and relating it to the current world of thought and action In this book religious writers in seven different traditions articulate how they can benefit from Whitehead's work So this volume demonstrates that various features of his thought can contribute to many communities According to his followers Whitehead shows that the deepest convictions and commitments of the major religious communities can be complementary rather than in conflict Readers of this book will see how that plays out in some detail A Whiteheadian Hindu can recognize the truth in a Whiteheadian Judaism and both can appreciate the insights of Chinese Whiteheadians committed to their classical thinking Perhaps a new day in interreligious understanding has come

The Legacy of Hans Jonas Hava Tirosh-Samuelson, Christian Wiese, 2008-06-25 An international interdisciplinary and interreligious retrospective examination of Hans Jonas 1903 1993 that engages his ideas in light of Existentialism utopian thought process philosophy and theology Zionism and environmentalism Studies in Jewish Theology Byron L. Sherwin, 2007 *Studies in Jewish Theology* invites the reader into the laboratory of a Jewish theologian as he confronts visceral issues that have confronted classical Jewish theology and that continue to challenge contemporary Jewish theological inquiry After offering an exposition of the nature of Jewish theology and demonstrating why and how it is crucial and relevant for understanding the nature and meaning of Judaism as a religious faith the author proposes a creative and compelling methodology for doing Jewish theology This methodology is then applied to various perennial issues of Jewish theological concern including the problem of evil the nature of God love and awe of God God's love and law theological foundations of the Jewish holydays philosophies of Jewish law and the application of Jewish theology to matters of social ethics and spirituality Attention then turns to a consideration of Jewish Christian theological dialogue where a Jewish theology of Christianity an explication of John Paul II's theology of Judaism and medieval Jewish and Christian views of original sin are presented Finally new perspectives on the work of contemporary Jewish theologians such as Solomon Schechter Abraham J Heschel Louis Jacobs and a survey of American Jewish theology are discussed A combination of erudite and accessible exposition of a wide variety of theological issues this volume collects seventeen studies written over three decades by an

eminent American Jewish theologian **The Cambridge Companion to American Judaism** Dana Evan Kaplan, 2005-08-08

This volume provides readers with a comprehensive introduction to the most important and interesting historical and contemporary facets of Judaism in America. Written by twenty-four leading scholars from the fields of religious studies, American history and literature, philosophy, art history, sociology, and musicology, the book adopts an inclusive perspective on Jewish religious experience. Three initial chapters cover the development of Judaism in America from 1654 when Sephardic Jews first landed in New Amsterdam until today. Subsequent chapters include cutting-edge scholarship and original ideas while remaining accessible at an introductory level. A secondary goal of this volume is to help its readers better understand the more abstract term of religion in a Jewish context. The Cambridge Companion to American Judaism will be of interest not only to scholars but also to all readers interested in social and intellectual trends in the modern world. Jewish Tradition

and the Challenge of Darwinism Geoffrey Cantor, Marc Swetlitz, 2008-09-15 Darwin's theory of evolution transformed the life sciences and made profound claims about human origins and the human condition, topics often viewed as the prerogative of religion. As a result, evolution has provoked a wide variety of religious responses ranging from angry rejection to enthusiastic acceptance. While Christian responses to evolution have been studied extensively, little scholarly attention has been paid to Jewish reactions. Jewish Tradition and the Challenge of Darwinism is the first extended meditation on the Jewish engagement with this crucial and controversial theory. The contributors to Jewish Tradition and the Challenge of Darwinism from several academic disciplines and two branches of the rabbinate present case studies showing how Jewish discussions of evolution have been shaped by the intersections of faith, science, philosophy, and ideology in specific historical contexts. Furthermore, they examine how evolutionary theory has been deployed when characterizing Jews as a race, both by Zionists and by anti-Semites. Jewish Tradition and the Challenge of Darwinism addresses historical and contemporary as well as progressive and Orthodox responses to evolution in America, Europe, and Israel, ultimately extending the history of Darwinism into new religious domains. Darwin in the Jewish Imagination Daniel R. Langton, 2025-10-09

Darwin in the Jewish Imagination provides an overview of Jewish responses to Darwinian evolution, one of the most transformative and challenging ideas of the industrial age. Spanning a century of intellectual and cultural history, it examines how Jewish thinkers—traditionalists, reformers, secularists, mystics, and philosophers—grappled with the profound implications of evolutionary theory for their religious beliefs and cultural identities. The book offers close readings of key figures and debates from Europe to the United States, situating them within the broader contexts of the religion/science controversy, Jewish-Christian interfaith relations, and the intellectual challenges of modernity. A central theme is the panentheistic tendency evident in Jewish thought, reflecting a vision of God as intimately connected with the evolving universe and its natural laws. It explores how Jewish thinkers reinterpreted foundational concepts such as creation, divine action, and human morality in light of Darwin's ideas. This interdisciplinary work not only illuminates how Jewish thought adapted to evolutionary theory but also reveals the broader

cultural and theological exchanges shaping modern Judaism By examining these responses the book sheds light on how science and Jewish religion have engaged in an enriching dialogue with profound consequences for modern Jewish thought belief and identity **Arthur Green: Hasidism for Tomorrow** Hava Tirosh-Samuelson, Aaron W. Hughes, 2016-07-11 Arthur Green is Rector of the post denominational Rabbinical School and Irving Brudnick Professor of Jewish Philosophy and Religion at Hebrew College in Newton Massachusetts Originally ordained as a Conservative rabbi Green considers himself a neo Hasidic Jew identifying with none of the established Jewish denominations He combines historical knowledge of the Jewish mystical tradition with an original constructive theology Recognized as both a rabbi and a scholar Green has sought to make spiritual pursuit an essential part of committed Jewish life Through scholarship educational work and popular teaching he has contributed to the growth and vitality of Judaism in America and helped promote neo Hasidism as Jewish spirituality for the 21st century **The Blackwell Companion to Judaism** Jacob Neusner, Alan Avery-Peck, 2008-04-15 This Companion explores the history doctrines divisions and contemporary condition of Judaism Surveys those issues most relevant to Judaic life today ethics feminism politics and constructive theology Explores the definition of Judaism and its formative history Makes sense of the diverse data of an ancient and enduring faith **Saul Lieberman, (1898-1983), Talmudic Scholar** Saul Lieberman, 2002 Long acknowledged as one of the pre eminent scholars of his generation this book provides a sense of the multi faceted nature of Lieberman s greatness his method of establishing the correct reading of given rabbinic text his mastery of Greek and Latin in their historical and cultural contexts the incredible literary sophistication that Lieberman utilized in approaching ancient texts his salient contribution to medieval history and literature and his guidance in biblical exegesis **Creating Women's Theology** Monica A. Coleman, Nancy R. Howell, Helene Tallon Russell, 2011-09-22 Creating Women s Theology engages women s questions Can women from different religious traditions engage one theological approach Can one philosophical approach support feminist religious thought What kind of belief follows women s criticism of traditional Christianity Creating Women s Theology offers a portrait of how some women have found room for faith and feminism For the last twenty five years women religion scholars have synthesized process philosophy with their feminist sensibilities and faith commitments to highlight the value of experience the importance of freedom and the interdependence of humanity God and all creation Cutting across cultural and religious traditions process relational feminist thought represents a theology that women have created This volume offers an introduction to process and feminist theologies before presenting selections from canonical works in the field with study questions This volume includes voices from Christianity Judaism goddess religion the Black church and indigenous religions Creating Women s Theology invites new generations of undergraduate seminary and university graduate students to the methods and insights of process relational feminist theology **Louis Jacobs and the Quest for a Contemporary Jewish Theology** Miri Freud-Kandel, 2023-10-15 For Louis Jacobs the quest the process of engaging with and thinking about Jewish faith was a lifelong pursuit He offered a

model in the 1960s a period characterized by general religious crisis of an observant committed but intellectually curious Judaism that empowered individual seekers to address challenges to faith In Orthodox Judaism at the time a battle was under way for religious control Generating a widespread controversy in British Jewry known as the Jacobs Affair his thought offers a lens for examining the trajectory of Orthodoxy In a contemporary context marked by the changing cultural and intellectual concerns of a post secular age the focus of some of these debates over religious control has shifted Yet Jacobs emphasis on a personal quest is as relevant as ever perhaps more so This first book length analysis of his theology unpacks the building blocks of his thought It argues that despite its particularities and limitations his approach can provide a powerful model for contemporary religious seekers in the context of a growing impetus away from established denominationally bound forms of religion Many orthodox believers across a range of faiths continue to prefer the certainty of unquestionable religious truth claims rather than pursuing a subjective search for religious meaning For those seeking alternative models for the contemporary Jewish quest a reconsideration of Jacobs theology can offer valuable tools

conference of the Science and Religion Forum was convened to discuss some of the most pressing questions that arise from a consideration of providence Is a belief in providence compatible with freedom What of the suffering of non human creatures Should providence be thought of as general or as special intervention How might a belief in providence be squared with the challenges raised by scientific naturalism and the theory of evolution This book presents chapters that originated from that conference and explores a variety of responses to these critical questions Insights from both science and theology are drawn together by some of the leading thinkers in this field The result is a contribution to the theology of providence which will be of substantial value to all those interested in the conversation between science and religion **Theodicy** Dan

Cohn-Sherbok,1997 *When Judaism Meets Science* Roger L. Price,2019-04-22 This book seeks to confront the challenge that science presents to the traditional pillars of Judaism It identifies and analyzes a wide variety of issues including some contemporary sacred cows First the book considers what is fact and what is fiction in the primary stories contained in Judaism s foundational texts Then drawing on Jewish ethical teachings it seeks to determine how Judaism and science can inform each other with respect to a broad range of contemporary issues from abortion and allergies to vaccinations and violence with firearms Finally it peeks into the future to address issues that Judaism and science are just now beginning to discuss such as an exotheology for aliens on distant planets a Jewdroid who seeks acceptance in a shul and even the fate of the universe itself When Judaism Meets Science addresses readers of all persuasions regardless of denomination and whether a believer or not as the author builds a case with specific recommendations for the value of a reality based Judaism one grounded on both traditional ethics and empirical evidence that can resonate with the educated adults of Israel
