Webb, 2021-12-22 *Exhuming Loss* Layla Renshaw, 2016-06-16 This book examines the contested representations of those murdered during the Spanish Civil War of the 1930s in two small rural communities as they undergo the experience of exhumation identification and reburial from nearby mass graves Based on interviews with relatives of the dead community members and forensic archaeologists it pays close attention to the role of excavated objects and images in breaking the pact of silence that surrounded the memory of these painful events for decades afterward It also assesses the significance of archaeological and forensic practices in changing relationships between the living and dead The exposure of graves has opened up a discursive space in Spanish society for multiple representations to be made of the war dead and of Spain's traumatic past *Solving the West Georgia Murder of Gwendolyn Moore* Clay Bryant, 2021-07-26 On a sultry August morning in 1970 the battered body of a young woman was hoisted from a dry well just outside Hogansville Georgia Author and investigator Clay Bryant was there witnessing the macabre scene Then fifteen Bryant was tagging along with his father Buddy Bryant Hogansville chief of police The victim Gwendolyn Moore had been in a violent marriage That was no secret But her husband had connections to a political machine that held sway over the Troup County Sheriff's Office overseeing the case To the dismay and bafflement of many no charges were brought That is until Bryant followed his father's footsteps into law enforcement and a voice cried out from the well three decades later *Mass Graves, Truth and Justice* Ellie Smith, Melanie Klinkner, 2023-02-14 Across the world mass graves often containing a multitude of human remains are sites of human loss suffering and unimaginable acts of cruelty While no one mass grave or its investigation is the same all mass graves contain evidence that is essential to the realisation of justice and accountability goals for victims affected communities states in transition and the international community *Deformation of the Continental Crust* M.
