Religious minorities have long been the target of a range of different forms of persecution such as hate crimes threats attacks on places of worship and forced conversion Nevertheless in recent years there has been rising hostility against India s religious minorities particularly since the current right wing BJP government promoting Hindu nationalism took power at the national level after its election in May 2014 In particular communal violence disproportionately affects India s religious minorities especially Muslims but also Christians and Sikhs While often instrumentalized for political gains communal violence draws on and exacerbates a climate of entrenched discrimination against India s religious minorities with far reaching social economic cultural and political dimensions Such violence is frequently met with impunity and in certain instances direct complicity from state actors ranging from inciting violence through hate speech to refusing to properly investigate communal incidents after they have occurred The aim of this short briefing is to contextualise these recent developments drawing attention to the ways communal violence is linked to wider discrimination against religious minorities and infringes upon their enjoyment of minority rights
