Terror Dot Gov:

Terror-dot-gov Harold Jaffe, 2005 As in Harold Jaffe's two previous docufiction collections *False Positive* and *15 Serial Killers* the author of *Terror Dot Gov* selects then treats his texts such that the reader is incapable of distinguishing between fact and fiction That ambiguity permits Jaffe to cunningly tease out the contradictions and subtexts of official news or information and torque it into what it so often is fundamentally jingoism xenophobia and propaganda Jaffe's subject in *Terror Dot Gov* is not the everywhere represented illicit terrorism so much as licit institutionalized terrorism and he assaults his subject from multiple angles razor sharp satire precisely cadenced rhetoric faux reportage and unsituated dialogues Jaffe's term referring to his trademark talking heads with perfect pitch The result is virtuosic and paradoxical a prodigious display of firepower in the cause of peace *Terrorism and Homeland Security* Paul Viotti, Michael Opheim, Nicholas Bowen, 2008-06-17 Despite the fact that the Department of Homeland Security DHS has been active since November of 2002 the American homeland is still not secure from terrorist attack What passes as DHS strategy is often just a list of objectives with vague references to the garnering of national resources and the marshalling of support from other nations Drawi

The First Responder's Field Guide to Hazmat and Terrorism Emergency Response, 2006-09 *Terrorism* Diana Miller, 2002 This book presents articles analyses and Congressional testimony which has been carefully edited excerpted and indexed with regard to actual and potential terrorist attacks Excerpts are also presented from reports issued well before 11 September 2001 which predicted the country's vulnerability and which were promptly buried in the graveyard of unread and unacted upon reports Questions are raised whether the dozens of federal agencies charged with aspects of homeland security can ever be coordinated by anyone without seriously reshuffling various government agencies which may turn out to be more difficult than eliminating terrorism *Global Terrorism Threat Assessment 2025* Alexander Palmer, Riley McCabe, Daniel Byman, Skyeler Jackson, 2025-07-24 Terrorism remains a threat to U S citizens assets and interests despite the national security community's decreasing focus on counterterrorism In 2025 domestic terrorism represents a greater threat to the United States than do international terrorist organizations Most domestic terrorist attacks in the United States are carried out by lone actors or small groups who believe in a wide range of ideologies such as white supremacy partisan extremism and Salafi jihadism In the Middle East the Al Qaeda core Al Qaeda in the Arabian Peninsula and the Islamic State remain committed to conducting attacks against the U S homeland as well as U S interests although all three are weaker than they were during their heydays Israel has degraded Hezbollah's and Hamas's capabilities while the Houthis have become a more active regional threat Africa remains the most active theater for Salafi jihadist organizations but the continent's groups are mostly tertiary priorities for the United States with the exception of East Africa's Al Shabaab This report consists of three regional assessments of the threat from terrorist groups and movements in the United States the Middle East including Afghanistan and Africa The purpose of this assessment is to help U S national security policymakers

intelligence and law enforcement professionals and military decision makers prioritize among different terrorist threats

Terrorist Organizations and Weapons of Mass Destruction Alethia H. The Psychology of Strategic

Terrorism Ben Sheppard, 2009 This new volume explores terrorism and strategic terror examining how the public responds to terrorist attacks and what authorities can do in such situations The book uses a unique interdisciplinary approach which combines the behavioural sciences and international relations in order to further the understanding of the terror generated by strategic terror The work examines five contemporary case studies of the psychological and behavioural effects of strategic terror from either terrorist attacks or aerial bombardment It also looks at how risk communication and public health strategies can amplify or reduce psychological and behavioural responses and considers whether behavioural effects translate into political effects and what governments can do to relieve this Ultimately the study argues that the public is not prone to panic but can change their behaviours to reduce their perceived risk of being exposed to a terrorist attack This book will be of much interest to students of terrorism studies homeland security social psychology and politics in general

NATO AND TERRORISM Catastrophic

Terrorism and First Responders: Threats and Mitigation Friedrich Steinhäusler, Frances Edwards, 2007-05-22 September 11 2001 in the U S March 11 2004 in Madrid just two examples of a series of major terror attacks against NATO member states on both sides of the Atlantic We now know that international terrorism is capable of transboundary planning and military

style execution of attacks resulting in several thousand dead and wounded In the future even larger terror attacks can no longer be ruled out including the deployment of weapons of mass destruction This new form of catastrophic terrorism poses a major challenge to the first responder community in their search and rescue operations since these new threats represent an unprecedented risk for their health possibly even questioning their own survival Since the first responders are the first line of defence of every community in the aftermath of such a terror attack it is essential for every community to ensure that its first responders are able to provide their valuable services even in such extreme situations In this important new book a group of experts represents the current knowledge on the various terrorism threats to first responders resulting from the novel use of conventional weapons as well radiological nuclear biological and chemical weapons Also the current situation in selected countries of different sizes and practical experience with terrorism countermeasures Austria Israel Slovenia Russia U S is reviewed focusing on the national operational logistics and the individual needs for improving the present situation Finally this book offers innovative solutions to strengthen the level of protection of the first responders culminating in fifty one practically applicable recommendations Fighting Terror Online Martin Charles Golumbic,2007-11-24 This book presents the position that the online environment is a significant and relevant theater of activity in the fight against terror It identifies the threats the security needs and the issues unique to this environment The book examines whether the characteristics of this environment require new legal solutions or whether existing solutions are sufficient Three areas of online activity are identified that require reexamination security monitoring and propaganda

Science and Technology of Terrorism and Counterterrorism, Second Edition Mark A. Prelas,Dabir S. Viswanath,Sudarshan K. Loyalka,2010-08-10 Traditionally resources on terrorism and counterterrorism tend to focus on the social behavioral and legal aspects of the subject with minimal emphasis on the scientific and technological aspects Taking into account these practical considerations the second edition of Science and Technology of Terrorism and Counterterrorism discusses the nature of terrorism and the materials used by terrorists It describes how intelligence professionals and law enforcement personnel can detect and destroy these materials and how they can deal with terrorist groups This volume begins by introducing the shift in analysis of terrorist attacks after September 11 2001 and summarizes selected case studies It discusses the origin and nature of terrorism and the factors involved in diplomacy Covering a broad range of topics the book examines Aerosol dispersion of toxic materials Bioterrorism and the manufacture detection and delivery of biological agents Agricultural terrorism Nuclear terrorism and nuclear weapons systems threats and safeguards Chemical terrorism including manufacture detection delivery and decontamination Cyber terrorism Personal protective equipment The role of government at federal state and local levels The role of international agencies and their resources capabilities and responsibilities The National Infrastructure Protection Plan As terrorist activities increase globally it is critical that those charged with protecting the public understand the myriad of ways in which terrorists operate While we cannot predict where when and how terrorists will strike our vigilance in staying

abreast of the terrorist threat is the only way to have a fighting chance against those who seek to destroy our world
