

Terrorism, Legitimacy, and Power

The Consequences of Political Violence

Edited and with an introduction by Martha Crenshaw

Essays by Irving Louis Horowitz, Yehezkel Dror, Conor Cruise
O'Brien, Paul Wilkinson, Robert Cox, and Anthony Quainton

Terrorism Legitimacy And Power

**Martha Crenshaw, Irving Louis
Horowitz**

Terrorism Legitimacy And Power:

Terrorism, Legitimacy, and Power Irving Louis Horowitz, 1986 **Terrorism, Legitimacy, and Power** Irving Louis Horowitz, 1983 *Terrorism, Legitimacy, and Power* Martha Crenshaw, 1986 **Evidence-Based Counterterrorism Policy** Cynthia Lum, Leslie W. Kennedy, 2011-11-06 In the past eight years there has been a massive increase in government spending on counterterrorism intervention development and implementation Given this increase there are two evidence based policy questions that are important to address Is there evidence that any of these programs are effective in other words can they be shown to be linked to reducing terrorism terrorist recruiting or to improving the response and management of terrorist events Do these interventions have secondary or collateral effects that may be costly harmful illegal beneficial or otherwise As Lum and Kennedy discovered in an evaluation research on counterterrorism interventions only a minuscule number of empirical studies of terrorism exist and there is an almost complete absence of evaluation research on counter terrorism strategies This is startling given the enormous increases in the development and use of counter terrorism programs as well as spending on counter terrorism activity Even more disconcerting was the nature of the evaluations we did find some programs were shown to either have no discernible effect on terrorism or lead to increases in terrorism The emphasis of the need for empirical research in evaluating interventions and informing policy cannot be overstated and is the primary goal of Evidence Based Counterterrorism Policy **Current Perspectives on International Terrorism** Robert O. Slater, Michael Stohl, 1988-01-01 **The Politics of Terrorism, Third Edition**, Michael Stohl, 2020-08-18 This book provides the reader with an introduction to the concept and practice of terrorism embedded within a firm understanding of politics and social structure It explores the major theories typologies strategies ideologies practices and responses to contemporary political terrorism **Terrorism in Context** Martha Crenshaw, 2010-11-01 **Terrorism in Ireland (RLE: Terrorism & Insurgency)** Yonah Alexander, Alan O'Day, 2015-04-17 When originally published in 1984 this book was the first detailed study of terrorism in Ireland It assesses the situation in Ireland after a decade or more of violence in the North and tests some of the assumptions about the nature of terrorism and discusses the problem in a geo political context The authors reflect a variety of disciplines and political outlooks and no single line of argument is offered They examine how the issue of terrorism has been dealt with by various governments the church the media and individuals The book reveals the complexity of the terrorist problem and dispels some of the myths that have grown up around Irish terrorism Terrorism, Legitimacy, and Power Martha Crenshaw, Irving Louis Horowitz, 1983 **Mass-Mediated Terrorism** Brigitte Nacos, 2016-02-05 With all new and expanded chapters the third edition provides an in depth look at how terrorists exploit mass media to get attention spread fear and anxiety among the targets of this sort of violence and threaten further attacks The traditional news media s appetite for shocking sensational and tragic stories has always resulted in over coverage of terrorist events and threats But today social media such as Twitter Facebook and YouTube allow terrorists to communicate

directly with huge audiences around the globe spreading their propaganda radicalizing and recruiting followers and providing know how to lone wolves On the other hand governments in democracies too utilize mass media to enlist public support for counterterrorist measures This volume will help readers to understand the centrality of media considerations in both terrorism and counterterrorism *Terrorism and Counterterrorism* Brigitte L Nacos, 2015-07-22 Focusing on the phenomenon of terrorism in the post 9 11 era Terrorism and Counterterrorism investigates this form of political violence in an international and American context and in light of new and historical trends In this comprehensive and highly readable text Brigitte Nacos a renowned expert in the field clearly defines terrorism s diverse causes actors and strategies outlines anti and counter terrorist responses and highlights terrorism s relationship with the media and the public Terrorism and Counterterrorism introduces students to the field s main debates and helps them critically assess our understanding of and our strategies for this complex and enduring issue **Handbook of Terrorist and Insurgent Groups** Scott N.

Romaniuk, Animesh Roul, Pamela Fabe, János Besenyő, 2024-10-24 Handbook of Terrorist and Insurgent Groups A Global Survey of Threats Tactics and Characteristics examines the most current and significant terrorist and insurgent groups around the world The purpose is to create a descriptive mosaic of what is a pointedly global security challenge The volume brings together conceptual approaches to terrorism insurgency and cyberterrorism with substantive and empirical analyses of individual groups organisations and networks By doing so not only does the coverage highlight the past present and future orientations of the most prominent groups but it also examines and illustrates their key characteristics and how they operate including key leaders and ideologues Highlighting specific individual groups the chapters collectively present a robust and comprehensive outlook on the current geography of terrorism and insurgency groups operating in the world today This comprehensive volume brings the collective expertise and knowledge of more than 50 academics intelligence and security officials and professionals together all of whom are considered subject experts in their respective areas of research and practice The volume is based on both desk based and fieldwork conducted by experts in these areas incorporating analyses of secondary literature but also the use of primary data including first hand interviews on the various groups regions of operation their tactics and how their ideologies motivate their actions **Rebels and Conflict Escalation** Isabelle

Duyvesteyn, 2021-06-10 Violence during war often involves upswings and downturns that have to date been insufficiently explained Why does violence at a particular point in time increase in intensity and why do actors in war decrease the level of violence at other points Duyvesteyn discusses the potential explanatory variables for escalation and de escalation in conflicts involving states and non state actors such as terrorists and insurgents Using theoretical arguments and examples from modern history this book presents the most notable causal mechanisms or shifts in the shape of propositions that could explain the rise and decline of non state actor violence after the start and before the termination of conflict This study critically reflects on the conceptualisation of escalation as linear rational and wilful and instead presents an image of rebel

escalation as accidental messy and within a very limited range of control **After Bali: The Threat Of Terrorism In Southeast Asia** Kumar Ramakrishna, See Seng Tan, 2003-12-23 This book critically analyses the specific threat of terrorism in Southeast Asia since the Bali blasts of 12 October 2002 and the US led war on Iraq It offers a comprehensive and critical examination of the ideological socioeconomic and political motivations trans regional linkages and media representations of the terrorist threat in the region assesses the efficacy of the regional counter terror response and suggests a more balanced and nuanced approach to combating the terror threat in Southeast Asia The contributors include leading scholars of political Islam in the region renowned terrorism and regional security analysts as well as highly regarded regional journalists and commentators This represents a formidable and unequalled combination of expertise **The Blackwell Dictionary of Modern Social Thought** William Outhwaite, 2008-04-15 Modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences Provides an authoritative overview of the main themes of social thought Long essays and entries give full coverage to each topic Covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics New edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text Conflict After the Cold War Richard K. Betts, 2015-09-16 Edited by one of the most renowned scholars in the field Richard Betts Conflict After the Cold War assembles classic and contemporary readings on enduring problems of international security Offering broad historical and philosophical breadth the carefully chosen and excerpted selections in this popular reader help students engage key debates over the future of war and the new forms that violent conflict will take Conflict After the Cold War encourages closer scrutiny of the political economic social and military factors that drive war and peace Violence in Canada Jeffrey Ross, 2017-09-29 Many people consider Canada particularly in comparison to its southern cousin as a peaceable kingdom However as the historical record demonstrates Canadians have never been a thoroughly non violent people Violence in Canada highlights from an interdisciplinary perspective the major areas and contexts where violence takes place Consisting of thirteen contributions the book forms an indispensable guide to the subject All of the authors are experts in their field many with international reputations and are drawn from the fields of sociology political science history and criminology The foreword by Ted Robert Gurr author of Violence in America is followed by an historical analysis of violence on the Canadian western frontier Other scholars describe contemporary violence by and against indigenous peoples women children and the elderly in labor related disputes homicide police and prison violence terrorism and discuss government responses and policy implications Each chapter specifically addresses the sociological and political dimensions of violence The authors make ample use of statistics and empirical research Jeffrey Ian Ross s introduction outlines the sociopolitical dynamics of violence and his summary chapter offers directions for future research When the book was first published in 1995 it was widely praised by scholarly journals and has

since become a standard text in the study of violence and modern Canadian cultural studies The book is all the more valuable as its new introduction places its findings in the context of research that has been produced since the original publication Violence in Canada will be of interest to sociologists criminologists and political scientists Jeffrey Ian Ross is an associate professor in the Division of Criminology Criminal Justice and Social Policy and fellow with the Center for Comparative and International Law University of Baltimore His work has appeared in many academic journals and chapters in academic texts as well as articles in popular magazines in Canada and the United States He is the author co author editor or co editor of eight books Ted Robert Gurr is Distinguished University Professor at the University of Maryland Among his books are Why Men Rebel and Violence in America Confronting the Chaos Sean M Maloney,2009-07-01 How exactly do you stabilize a country that has been at war for nearly thirty years Challenging the Chaos is the first book to look at the Provincial Reconstruction Teams the Embedded Training Teams Strategic Advisory Team Afghanistan and other little known units that helped the Afghan people establish a government after the Taliban fell With the historical and political odds stacked against them the men and women of these vital organizations worked shoulder to shoulder with Afghans at all levels of society and at great personal risk in a lethal and unforgiving environment Their efforts helped stave off another Afghan civil war and successfully prevented the Taliban from exploiting the chaos left in the wake of their 2001 02 collapse Challenging the Chaos is a personal story written by a Canadian military historian who observed these efforts as they unfolded in 2004 05 Sean Maloney takes us on a journey from exotic and poppy laden Badkashan province in the north into international intrigue in the capital Kabul and then to Kandahar province in the south where the threat of IED attacks lay around the corner on a daily basis This work details the operations of the Provincial Reconstruction Teams PRTs which played a vital role in stabilizing Afghanistan after the Taliban were removed from power It provides understanding about how the international effort in Afghanistan and the enemy has evolved since 2003 so we can succeed in Afghanistan Afghanistan is not Iraq and it is dangerous to template one war onto the other The war in Afghanistan is unique as is our response to the insurgency Afghanistan its people and its insurgent s needs to be understood on their own terms and not in relationship to the American experience in Iraq The United State s closest ally in Afghanistan next to the Afghan people is Canada and Canada has played a key role in the effort this goes unrecognized by American politicians and the American people even while Canadian soldiers are working fighting and dying alongside American soldiers The SAGE Encyclopedia of Terrorism, Second Edition Gus Martin,2011-06-15 This thoroughly updated edition with expanded coverage explores the impact of terrorism on economics public health religion and pop culture and also includes details of ethical issues and debates relating to terrorism The Politics of Terror Erica Chenoweth,Pauline L. Moore,2018 Bringing together both classic and contemporary research The Politics of Terror provides a systematic introduction to the theory politics and practice of terrorism The text is framed around a set of empirical theoretical and methodological puzzles that arise in the study of terrorism challenging students to think

critically about key issues in the field
