Steven Livingston, 2019-06-26 How terrorism is portrayed by the news media and thus perceived by the public is directly linked to government's foreign policy goals Steven Livingston demonstrates the complex interactions among the press the public and political actors in illuminating a policymaking process that relies on image management as one strategy in achieving policy objectives not just in combating terrorism but also in handling other foreign policy problems **Strategic**

Terror Beau Grosscup, 2013-07-18 Presenting a global history of aerial bombardment this book shows how certain European powers initiated aerial bombardment of civilians after World War I and how it was an instrument of choice in World War II Beau Grosscup shows that such methods used initially as a means of terrorizing native populations in Africa and the Middle East have become the primary form of terrorism in more recent decades While such strategic terror is not classed as terrorism in the West this reflects an unwillingness to confront the human costs and immorality of aerial bombardment Grosscup argues that if terrorism is to be diminished the role of aerial bombing in sustaining global violence must be recognized Inside Terrorism Bruce Hoffman, 2006 Defining terrorism The end of empire and the origins of contemporary terrorism The internationalization of terrorism Religion and terrorism Suicide terrorism The old media terrorism and public opinion The new media terrorism and the shaping of global opinion The modern terrorist mind set tactics targets tradecraft and technologies Terrorism today and tomorrow The Threat Of Terrorism Juliet Lodge, 2019-07-11 This book is concerned with terrorism in West European liberal democratic states and with the way in which they react as a group in the European Community to international terrorism It interprets terrorism as a means of attempting to effect political change by the indiscriminate use of violence Chronology of World Terrorism, 1901-2001 Henry E. Mattox, 2015-06-08 The attacks of September 11 2001 brought unprecedented attention to the problem of terrorism Yet the threat of terrorist acts has long been a specter in the lives of millions and the patterns and occurrences all too regular This chronology begins with President McKinley's assassination in September of 1901 and ends with the 9 11 attacks It details terrorist events both well known and obscure chosen as representative decade by decade of each particular period A concluding chapter examines changing trends in methods of attack and the effectiveness of various movements Appendices include a list of notable terrorist organizations international conventions governing terrorism and the U N Security Council resolution passed after the September 11 attacks **Military Law Review**, 1984 *State-sponsored Terrorism*, 1985 *War on terror'* Chris Miller, 2013-01-18 The term War on Terror WOT covers a mass of interlinked topics Here an outstanding group of authors and academics dissect them from ethical political legal economic and historical perspectives Drawn from the world famous Oxford Amnesty Lectures the essays are substantial contributions to their fields and of abiding relevance Here it is argued

that members of active terrorist groups should be pre emptively executed that there is no provision for WOT in international law that WOT is not cost efficient that war and terrorism can no longer be distinguished and that the term terrorist has been captured by a specific political constituency The arguments of the celebrated contributors from Ahdaf Soueif to Joanna Bourke are confirmed or contradicted by their respondents resulting in broad scholarly coverage of the issues The book concludes with a fatwa against terrorism WOT lies at the heart of current debate about immigration multiculturalism and foreign policy It is one of the determining debates in the politics of today This volume will be of interest to students of politics law and religion and to anyone concerned with current affairs It covers the politics of the Middle East and the Iraq War human rights in Islam and the West and the ethics of intervention This is a powerful contribution to an urgent debate The Faces of Terrorism Neil J. Smelser, 2010-10-24 Terrorism is the most clear and present danger we confront today yet no phenomenon is more poorly understood by policymakers the media and the general public The Faces of Terrorism is the first serious interdisciplinary examination of terrorism in all its facets What gives rise to it who are its proponents and how do they think and how and why does it work Neil Smelser begins by tackling the fundamental problem of defining what exactly terrorism is He shows why a precise definition has eluded us until now and he proposes one that takes into account the full complexities of this unconventional and politically charged brand of violence He explores the root causes and conditions of terrorism and examines the ideologies that inspire and fuel it throughout the world Smelser looks closely at the terrorists themselves their recruitment their motivations the groups they form their intended audiences and their uses of the media in pursuing their agendas He studies the target societies as well unraveling the complicated social and psychological impacts of having to cope with the ever present threat of a terrorist strike and responding when one occurs He explains what it means to live under constant threat of terrorism and addresses the thorny domestic and foreign policy challenges this poses Throughout Smelser draws from the latest findings in sociology political science anthropology economics psychology psychiatry and history The Faces of Terrorism provides the breadth of scope necessary to understand and ultimately eliminate this most pressing global threat
