Miseducation of the West Joe Kincheloe, Shirley R. Steinberg, 2004-06-30 The Miseducation of the West examines the ways in which educational institutions such as media and schools have shaped Western views of Islam The nature of these messages tells readers as much if not more about Western self images as they do about Islam and Islamic peoples Quickly emerging is a Western perspective on the other Westerners found easy justification for the colonial conquest of many Islamic lands In the 18th 19th and early 20th centuries England France and to a lesser extent Russia colonized much of the Muslim world with the United States entering the picture after World War II Economic colonialization the oil business interference with various governments and the way these events and people are represented in the formal curriculum of schools and the informal curriculum of the media are central dimensions of this work The contemporary expression of these stories involve the Bush administration s and its conservative allies efforts to teach the nation about the true meaning of 9 11 and Islamic terrorism In various reports conservative organizations with close ties to the Bush White House present forceful views of what historical concepts should be taught in U S schools As Joe L Kincheloe states in his thoughtful introduction these efforts represent a return to a 1954 view of America as the bearer of the democratic torch to the anti democratic forces of the world A critical education must counter such tendencies and work to conceptualize 9 11 in a variety of contexts The essayists in this book write with different voices from diverse viewpoints contributing to a discussion that will not end for years to come

Violent Non-State Actors Ersel Aydinli, 2016-06-10 Given the importance of violent non state actors VNSA and their evolving role in global politics dynamic frameworks of analysis are needed both to trace historical trajectories in the evolution of violent non state actorhood and to identify emerging patterns by examining modern day cases This book examines the defining characteristics and evolutionary dynamics of VNSAs and introduces a framework based on their

autonomy representation and influence providing a comparative analysis of the late 19th and early 20th centuries Anarchist movement and the modern day Jihadist network It explores the distinct characteristics of the Anarchists and Jihadists as VNSAs with global potential not just describing them but also seeking to understand what they are instances of With a longitudinal analysis the book also considers the types of changes that have occurred in the past 150 years and the possible role VNSAs may play in current and future power polity shifts away from states toward non state actors It concludes with both theoretical implications for the study of non state actors and transnational relations and practical implications for government agencies or private groups tasked with finding ways of countering such violent non state actors This important book will be of interest to students and scholars of international relations political science and terrorism security studies It will also be of interest to practitioners in the security services including think tank analysts and government security analysts

Act of Retribution J.P. Phillips, 2010-03-17 My quest for an answer to the riddle of President Kennedys assassination first began in April 1967 following a talk given by Warren Commission critic and best selling author Mark Lane at Michigan State University where I was a graduate student My search has lasted well over twenty years Gathering every scrap of information I could find on the assassination I have arrived at what I believe is the most credible thesis to date As a result of meticulous research I am able to identify probable suspects in what I have come to believe was a far reaching conspiracy which involved not only renegade elements from the CIA and organized crime figures but one which extended to the highest echelons of the U S government By pulling together existing knowledge of the assassination while introducing new evidence my book focuses primarily on six main principals persons of interest their motives and their activities in relation to the assassination and the links that connect them 1 LEE HARVEY OSWALD Accused by the Warren Commission In

1964 of being the sole assassin of President Kennedy 2 JACK RUBY Dallas night club owner who two days following the Presidents assassination shot and killed Oswald 3 CARLOS MARCELLO Reputed crime boss of the New Orleans Dallas Mafia during the time of the assassination 4 GENERAL CHARLES PEARE CABELL Deputy Director of the CIA from 1953 to 1962 when he was dismissed by President Kennedy along with other high ranking intelligence officials for the failure of the Bay of Pigs invasion 5 EARLE CABELL Younger brother of General Charles P Cabell who was Mayor of Dallas the day President Kennedy was assassinated 6 FRED KORTH Fort Worth businessman and banker who was Secretary of the Navy from 1962 to October 1963 when he was forced by President Kennedy to resign for his involvement in the TFX controversy As to the motives of those individuals involved in the Presidents murder I believe that the assassination was planned and carried out with a dual purpose in mind 1 as an act of vengeance by those ex high government officials who were dismissed by the President either for alleged wrongdoing as in the case of Fred Korth or for incompetence as in General Cabells case 2 to prevent the Presidents domestic and foreign policies particularly in reference to his stand on the Vietnam conflict from being implemented Viewed in this light the assassination of President Kennedy was an act of retribution by a group of mean spirited vengeance seeking individuals who acted in the misguided belief that by assassinating this president they were furthering the national interest Notwithstanding his immense popularity with the American people President Kennedy was perceived by his killers to be a clear and present danger to the country and to its interests at home and abroad for several reasons for his stand on civil rights and racial equality for his attempt to closely regulate the oil and gas industry for his desire to normalize relations with Cuba for his desire to ease tensions between the superpowers through a reduction in armaments for his crackdown on organized crime for his stated intention to withdraw U S forces from Vietnam Removing him from office by political murder therefore excused his killers in their own eyes from any wrongdoing for by killing this President they were convinced that they were acting in the national interest against the seemingly dangerous policies of a chief executive who if allowed to finish his presidency would lead the nation to ruin A wise mind will never censure anyone for having employed any extraordinary means for preserving a kingdom Believing like Machiavelli that they were acting to preserve and maint

Censored 2004 Peter Phillips, Project Censored, 2003-10-07 The yearly volumes of Censored in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship The top stories are listed democratically in order of importance according to students faculty and a national panel of judges Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories *Superpatriotism* Michael Parenti, 2004-09 Explores the true meaning of patriotism by examining how political leaders and the media use fear to win support for military interventions and inflated arms budgets at the expense of projects that serve the real needs of humanity Nonviolence Senthil Ram, Ralph Summy, 2008 The so called war on terror has gone badly for the West playing

directly into the strategy of al Qaeda and the rest of the terrorist network Why did this happen Were there other approaches that might have been implemented with better prospects of success This edited collection of perspectives on the non violent counter to terrorism opens the topic to serious consideration The development of a non violent paradigm brings into sharp focus the deficiencies of present thinking and paves the way for comprehending how non violence might overcome those deficiencies and introduce viable alternatives Since there is a general ignorance about the history theory and operational dynamics of non violence these aspects are featured throughout the book and related to the special case of terrorism To understand empathetically the background and mind set of the opponent without condoning his actions to study his culture to avoid the strategic trap he has set to examine the different gender reactions of a Muslim Society to differentiate between non violent Islam and Islamic Terrorism to jettison the misinformed baggage we carry about violence to appreciate the positive role education and aesthetics can play and to investigate ways in which a non violent counter to terrorism might be staged including a Gandhian response These are just some of the tasks that the contributors have collectively pursued Their ideas excitingly open up a whole new set of possibilities for a more peaceful world

Critical Theories, Radical Pedagogies, and Global Conflicts Gustavo Fischman, 2005 We are living in a time of resurgent global conflicts and imperialistic tensions a time in which many children are being left behind by school systems that appear more concerned with developing accountability schemes and standardized models of testing than with defending the right of every child to have access to a good education The efforts of countless teachers activists and families

working and living in poor areas around the world are labeled as failures entirely discredited on the basis of their expendability in relation to capital gains or simply ignored In response to these oppressive and challenging conditions this book s contributors a group of committed educators and activists working in an ethos of solidarity across geopolitical and geographical borders have advanced arguments and strategies that link educational transformation to the larger struggle to transform oppressive social relations In a clear attempt to move beyond both nostalgia and romanticism Critical Theories Radical Pedagogies and Global Conflicts draws from a range of viewpoints conceptual and thematic transnational and crosscultural First World and Third World to articulate new directions for teachers and activists working to demonstrate that another education and indeed another world is possible Revolutionary Social Change in Colombia James J. Brittain,2009-12-09 Although they are one of the most powerful military forces in Latin American history little is known about the Revolutionary Armed Forces of Colombia People s Army FARC EP This book explains why this political military movement came into existence and assesses whether the methods employed by the insurgency have the potential to free those marginalised in Colombia By evaluating the FARC EP s actions ideological construction and their theoretical placement the book gauges how this guerrilla movement relates to revolutionary theory and practice and through what tangible mechanisms if any they are creating a new Colombia **The Assassinations** James DiEugenio,Lisa Pease,2003-02-01 Probing deep into four hidden histories the material released should dispel any notions of lone nuts or coincidence These articles cut a clear path through the thick jungle of disinformation that has grown around these events and expose the truly hideous teratomas that thrive and bloom under the canopy of national security New York Press *Censored 2008* Peter Phillips,Andrew Roth,Project Censored,2011-01-04 The yearly volumes of Censored in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship The top stories are listed democratically in order of importance according to students faculty and a national panel of judges Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories Propaganda, Communication and Empire Sumanth Inukonda,Oliver Boyd-Barrett,Lara Martin Lengel,2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state s role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9 11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework

that will problematize linear narratives that are mobilized in support of interventions The chapters in the final section represent specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest to students of propaganda studies media and communication studies US foreign policy and international relations Hollywood and the CIA Oliver Boyd Barrett, David Herrera, James Baumann, 2011-03 This book investigates representations of the Central Intelligence Agency CIA in Hollywood films and the synergies between Hollywood product U S military defense interests and U S foreign policy As probably the best known of the many different intelligence agencies of the US the CIA is an exceptionally well known national and international icon or even brand one that exercises a powerful influence on the imagination of people throughout the world as well as on the creative minds of filmmakers The book examines films sampled from five decades the 1960s 1970s 1980s 1990s and 2000s and explores four main issues the relative prominence of the CIA the extent to which these films appeared to be overtly political the degree to which they were favorable or unfavorable to the CIA and their relative attitude to the business of intelligence A final chapter considers the question do these Hollywood texts appear to function ideologically to normalize the CIA If so might this suggest the further hypothesis that many CIA movies assist audiences with reconciling two sometimes fundamental opposites often gruesome covert CIA activity for questionable goals and at enormous expense on the one hand and the values and procedures of democratic society on the other This interdisciplinary book will be of much interest to students of the CIA Intelligence Studies media and film studies US politics and IR Security Studies in general

The Terrorism Trap Harrison Akins, 2023-06-20 After two decades and trillions of dollars the United States fight against terrorism has achieved mixed results Despite the vast resources and attention expended since 9 11 terrorism has increased in many societies that have been caught up in the war on terror Why have U S policies been unable to stem the tide of violence Harrison Akins reveals how the war on terror has had the unintended consequence of increasing domestic terrorism in U S partner states He examines the results of U S backed counterterrorism operations that targeted al Qaeda in peripheral regions of partner states over which their central governments held little control These operations often provoked a violent backlash from local terrorist groups leading to a spike in retaliatory attacks against partner states Senior U S officials frequently failed to grasp the implications of the historical conflict between central governments and the targeted peripheries Instead they exerted greater pressure on partner states to expand their counterterrorism efforts This exacerbated the underlying conditions that drove the escalating attacks trapping these governments in a deadly cycle of tit for tat violence with local terrorist groups This process Akins demonstrates accounts for the lion s share of the al Qaeda network s global terrorist activity since 2001 Drawing on extensive primary sources including newly declassified documents dozens of in depth interviews with leading government officials in the United States and abroad and statistical analysis *The Terrorism Trap* is a groundbreaking analysis of why counterterrorism has backfired *Media and Terrorism* Des
