However unlike inter-state wars international law has not traditionally regulated such conflicts How then can we explain the post 1945 emergence and evolution of international treaty rules regulating the conduct of internal armed conflict the Civil War Regime Negotiating Civil War combines insights derived from Realist Rationalist Liberal and Constructivist approaches to International Relations to answer this question revisiting the negotiation of the 1949 Geneva Conventions the 1977 Additional Protocols and the 1998 Rome Statute of the International Criminal Court This study provides a rigorous critical account of the making of the Civil War Regime Sophisticated and persuasive it illustrates the complex interplay of material ideational social and strategic factors in shaping these rules with important lessons for the making and unmaking of international law in a rapidly shifting international political economic and security environment Karachi in the Twenty-First Century Mansoor Bin Tahnoon Al Nehayan, 2016-02-22 The forces of globalisation are indiscriminate they enable those who pursue good and those who pursue evil The changes brought about by globalisation affect all segments of society all walks of life all political parties all religions all ethnic groups and all countries Sometimes they occur in the most unexpected ways and yield complex results

that appear to be mystifying and intractable at least on the surface This book describes how the forces of globalisation have descended upon Karachi and exacerbated local and regional problems to the point where the city is teetering on the brink of chaos Karachi is geographically politically and culturally situated in the context of modern Pakistan but is a global city affected by global forces many of which challenge the state s power and authority The lessons of Karachi are important for both its present and its future and they can serve as a cautionary tale for other global cities Karachi is vitally important to Pakistan While Islamabad is the country's capital Karachi is the most important financial centre in the country It is the centre of banking industry economic activity and trade Many of Pakistan's largest corporations are based in Karachi including entertainment arts fashion medical research the automotive industry shipping textiles advertising publishing and software development Karachi is also home to Pakistan's main seaport and two of the largest ports in the region the Port of Karachi and Port Bin Oasim Dynasties and Female Political Leaders in Asia Claudia Derichs, Mark R. Thompson, 2013 This book is the first comprehensive academic effort to examine the phenomenon of top female political leaders in Asia It portrays prime ministers presidents and opposition leaders but it is not a conventional biographical volume Rather it analyzes female politicians by means of case studies that are based on a common theoretical framework The case studies were conducted over three years of field research which included interviews with the female leaders themselves and members of their inner circle Each chapter explores the similarities but also points to the distinctiveness of each female leader arising from political and social systems cultural and religious conditions and economic parameters Series Political Science Perspectives Politikwissenschaftliche Perspektiven Vol 16 Furry Tales Fred Patten, 2019-09-26 Tales featuring anthropomorphic animals have been around as long as there have been storytellers to spin them from Aesop's Fables to Reynard the Fox to Alice in Wonderland The genre really took off following the explosion of furry fandom in the 21st century with talking animals featuring in everything from science fiction to fantasy to LGBTQ coming out stories In his lifetime Fred Patten 1940 2018 one of the founders of furry fandom and a scholar of anthropomorphic animal literature authored hundreds of book reviews that comprise a comprehensive critical survey of the genre This selected compilation provides an overview from 1784 through the 2010s covering such popular novels as Watership Down and Redwall along with forgotten gems like The Stray Lamb and Where the Blue Begins and science fiction works like Sundiver and Decision at Doona **Pakistan's Inter-Services Intelligence Directorate** Owen L. Sirrs, 2016-07-01 This book is the first comprehensive study of Pakistan's Inter Services Intelligence Directorate ISI The rise of Pakistan backed religious extremist groups in Afghanistan India and Central Asia has focused international attention on Pakistan's premier intelligence organization and covert action advocate the Inter Services Intelligence Directorate or ISI While ISI is regarded as one of the most powerful government agencies in Pakistan today surprisingly little has been written about it from an academic perspective This book addresses critical gaps in our understanding of this agency including its domestic security mission covert backing of the Afghan Taliban and its links to al

Oa ida Using primary source materials including declassified intelligence and diplomatic reporting press reports and memoirs this book explores how ISI was transformed from a small negligible counter intelligence outfit of the late 1940s into the national security behemoth of today with extensive responsibilities in domestic security political interference and covert action This study concludes that reforming or even eliminating ISI will be fundamental if Pakistan is to successfully transition from an army run national security state to a stable democratic society that enjoys peaceful relations with its neighbours This book will be of interest to students of intelligence studies South Asian politics foreign policy and international security in Nothing But!
