

IS THERE A DIFFERENCE BETWEEN TERRORISTS & FREEDOM FIGHTERS?

- ✓ Freedom fighters are fighters in wars of national liberation against foreign occupiers or against oppressive domestic regimes they seek to overthrow.
- ✓ Freedom fighter activity is typically confined to third-world dictatorships or one-party states, while terrorists operate mostly against liberal Western democracies.

Politics & Power Warren Kidd, Karen Legge, Philippe Harari, 2017-09-16 Political organizations govern the way we live and have the power to make decisions on behalf of entire societies But what political issues are important to our study of sociology and why Do we really need to understand politics in order to fully understand society And can individuals in society

affect political change This student focused book gives readers a clear introduction to the key ideas themes and debates in political sociology Combining accessible explanations with critical analysis the book explores the ideas of classical and contemporary sociologists It maps out how they have been developed reinterpreted and evaluated in response to changes in society In particular the text also Defines explores and assesses what is meant by power Assesses the modern political landscape of UK society and the ideologies of different political parties Looks at voting patterns in the UK and asks what this tells us about society Explores issues of globalization and nationalization and how they have shaped modern day societies As part of the Skills Based Sociology series Politics and Power is filled with a variety of tasks activities and exam practice questions that encourage students to take an active role in their learning Promoting critical thinking skills alongside development of knowledge this book is the perfect starting point for students learning about power and politics in society

From the Terrorists' Point of View Fathali M. Moghaddam, 2006-06-30 Presenting a picture of the world giving rise to Islamic terrorism From the Terrorists Point of View argues that terrorism arises from a deep and pervasive identity crisis in Islamic societies The account presented in these 10 chapters is shaped by the author's first hand experiences of life in the Islamic world as well as his more than quarter century of research on the psychology of conflict and radicalism Moghaddam shows us why individuals who are recruited into terrorist organizations are convinced it is the only viable alternative They believe there are no effective legal means of expressing their grievances and participating in decision making so they become socialized to see terrorist organizations as legitimate The organizations they join train them to adopt an us vs them categorical view seeing all members outside their group including civilians as among the evil enemy ranks Looking at the perspective of the terrorist groups themselves Moghaddam explains why current U S policy focusing almost exclusively on individual terrorists and their eradication will achieve only short term gains He argues that the more effective long term policy against terrorism is prevention That he writes requires cultivation and nourishment of contextualized democracy through culturally appropriate avenues Only allowing people a greater voice and creating mobility opportunities for them will ensure that they do not feel a need to climb the staircase to terrorism *Religion and Contemporary Politics* Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South

America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography

Understanding Theologocracy P.K. Sasidharan, 2020-02-14 Understanding Theologocracy is a collection of nine essays plus an introductory chapter The essays are independent studies on different conceptual issues involved in the ways of understanding religious and spiritual practices in general The term theologocracy has been coined by the author to characterise the working of religion and spirituality in the modern secularised world Theologocracy thus signifies a rule of theology as something different from the rule of theocracy Unlike the case of theocracy where political rule is controlled directly by particular religion in the secular socio political scenario religiosity spirituality takes a formal backseat for an indirect control of the secular world through the promotion of theological interests It tries to argue that theologocratic ways are found even in the case of secularism as it is operating in the modern liberal democracy Theologocracy is a situation where different theologies are seen operating simultaneously for controlling the socio political power in favour of different theological religious communities In a typical theocracy there will be a single religion to control political power whereas in a secular democracy many religious and related forces interests take control of power directly and indirectly It is to characterise such an indirect or disguised operation of different theological and religious community interests that the term theologocracy has been framed Secularism seen as a disguised theocracy crypto theocracy has been proved to be logically inconceivable and historically unavailable A race for supremacy or superiority of theological ideals and promises seems to be the basic level from which every thelogocratic religion operates Since the urge for power and supremacy is so peculiar to every thelogocratic religiosity no domain of human imagination is free from the imprints of theologocracy especially the domain of so called secular socio political processes A theoretical analysis of the political nature of religious and spiritual practices is a running theme for the different essays of this book
