**Screen Time** Lisa Guernsey,2012-03-20 As a mother Lisa Guernsey wondered about the influence of television on her two young daughters As a reporter she resolved to find out What she first encountered was tired advice sensationalized research claims and a rather draconian mandate from the American Academy of Pediatrics no TV at all before the age of two But like many parents she wanted straight answers and realistic advice so she kept digging she visited infant perception labs and child development centers around the country She interviewed scores of parents psychologists cognitive scientists and media researchers as well as programming executives at Noggin Disney Nickelodeon Sesame Workshop and PBS Much of what she found flies in the face of conventional wisdom and led her to conclude that new parents will be best served by focusing on about educational media She examines how play and language development are affected by background and foreground television and how to choose videos that are age appropriate She explains how to avoid the hype of brain stimulation and focus instead on social relationships and the building blocks of language and literacy Along the way Guernsey highlights independent research on shows ranging from Dora the Explorer to Dragon Tales and distills some surprising new findings in the field of child development

**Global South Asia on Screen** John Hutnyk,2018-06-14 With importance for geopolitical cultural economy anthropology and media studies John Hutnyk brings South Asian circuits of scholarship to attention where alongside critical Marxist and poststructuralist authors a new take on film and television is on offer The book presents Raj era costume dramas as a commentary on contemporary anti Muslim racism a new political compact in film and television studies and the President watching a snuff film from Pakistan Hanif Kureishi s postcolonial fuck Sandwich sits alongside Salman Rushdie s Satanic Verses updated for the war on terror with low brow high brow versions of Asia that carry us up the Himalayas with magic

carpet TV nostalgia Maoists rage below and books go up in flames while News network phone ins end with executions on the Hanging Channel and arms trade and immigration paranoia thrives Multiplying filmi versions of Mela are measured against a transnational realignment towards Global South Asia in a contested and testing political future Each chapter offers a slice of historical study and assessment of media theory appropriate for viewers of Global South Asia seeking to understand why lurid exoticism and paralysing terror go hand in hand The answers are in the images always open to interpretation but Global South Asia on Screen examines the ways film and TV trade on stereotype and fear nationalism and desire politics and context and with this the book calls for wider reading than media theory has hitherto entertained **Richard Matheson on Screen**

Matthew R. Bradley, 2010-10-04 Though innumerable biographies have been written about novelists playwrights and poets screenwriters are rarely granted this distinction even ones as prolific and successful as Richard Matheson Beginning with The Incredible Shrinking Man in 1957 Matheson has occupied a unique position in writing for television and cinema for more than fifty years This biography documents his rise to prominence his literary influences and the role he played in the horror and science fiction renaissance The narrative examines each of Matheson's works in chronological order with an index indicating where each can be found from his early work in the 1950s through I Am Legend in 2007 **Byronic Heroes in**

**Screen** Kristen Lacefield, 2016-02-17 In 1991 the publication of Koji Suzuki's Ring the first novel of a bestselling trilogy inaugurated a tremendous outpouring of cultural production in Japan Korea and the United States Just as the subject of the book is the deadly viral reproduction of a VHS tape so too is the vast proliferation of text and cinematic productions suggestive of an airborne contagion with a life of its own Analyzing the extraordinary trans cultural popularity of the Ring phenomenon The Scary Screen locates much of its power in the ways in which the books and films astutely graft contemporary cultural preoccupations onto the generic elements of the ghost story in particular the Japanese ghost story At the same time the contributors demonstrate these cultural concerns are themselves underwritten by a range of anxieties triggered by the advent of new communications and media technologies perhaps most significantly the shift from analog to

digital Mimicking the phenomenon it seeks to understand the collection's power comes from its commitment to the full range of Ring related output and its embrace of a wide variety of interpretive approaches as the contributors chart the mutations of the Ring narrative from author to author from medium to medium and from Japan to Korea to the United States
