Testing Christianity's Truth-claims Gordon Russell Lewis, 1976-01-01 *Testing Christianity's Truth Claims* Gordon Russell Lewis, 1990 In this outstanding defense of Christianity the author compares and contrasts six methods of reasoning used by philosophers during the resurgence of evangelical beliefs in the latter half of the 20th century He looks at the empirical rational presuppositional mystical existential and verificational methods that stimulate critical thought about God as seen in the Jesus of history and in the teachings of Scripture Originally published in 1976 by Moody Press [Developing a Christian Apologetics Educational Program](#) Douglas E. Potter, 2010-02-18 Many are expressing concern about the future of Christian youth today What can we do to help ensure they will keep their evangelical faith once they graduate from high school Can Christian apologetics provide an educational solution *Developing A Christian Apologetics Educational Program* explores issues certain to be encountered by secondary school educators who want to teach apologetics as a distinct subject of study either as a part of a Christian institutional or home school curriculum This book helps the apologist and educator blend their skills to soundly integrate the two subjects A solution is sought by providing a background and rationale for implementing an age level appropriate apologetics course at this critical level of Christian education This book is designed as a text to supplement those used in Christian education or applied apologetics courses each chapter successively builds upon the other to help develop an educational philosophy that supports the inclusion of apologetics in the curriculum A model is explained and materials are given to support the development of a curriculum in Christian Apologetics Education at the secondary level Practical ideas are explored and a sample unit of instruction is supplied to help the educator develop an evangelical approach to education that is in the classical apologetic tradition **Christian Apologetics** Norman L. Christian Apologetics as Cross-Cultural Dialogue

Benno van den Toren,2011-10-27 A call for a new understanding of apologetics moving away from appeals to tran cultural rationality arguing for a new form of cross cultural dialogue *Reasons for Our Hope* H. Wayne House,Dennis W.

Jowers,2011-10-01 A sophisticated yet accessible introductory guide to an articulate and well informed defense of the Christian faith **Apologetics beyond Arguments** Emil Børty Nielsen, Christian apologetics is often seen as the art of defending the truth of the Christian faith through arguments As a result most books focus on debating evidence Apologetics Beyond Arguments breaks new ground by addressing a critical gap the lack of methodological reflection in the field This book presents a fresh meta apologetic framework redefining apologetics as the practice of Christian persuasion By doing so it opens the door to new insights and questions drawn from fields such as rhetoric psychology and ethics bridging the gap between sound arguments and effective persuasion Engaging Deconstructive Theology Ronald T. Michener,2016-04-29

Engaging Deconstructive Theology presents an evangelical approach for theological conversation with postmodern thinkers Themes are considered from Derrida Foucault Mark C Taylor Rorty and Cupitt developing dialogue from an open minded evangelical perspective Ron Michener draws upon insights from radical postmodern thought and seeks to advance an apologetic approach to the Christian faith that acknowledges a mosaic of human sources including experience literature and the imagination **Persuasive Apologetics** Jeffrey M. Robinson,2023-09-19 We cannot love others well without speaking the truth Loving our neighbors well includes engaging in robust conversations that destabilize false belief systems In addressing the mind will and emotions of actual complex people Christian believers must develop various approaches to meet diverse personalities and multiple connection points In Persuasive Apologetics pastor and professor Jeffrey M Robinson explores what s below the surface of intellectual sounding objections to Christianity He shows what it means to contend for the truth through real life examples of communicating with those who hold differing beliefs Robinson covers foundational and practical issues such as the importance of demeanor in being persuasive various apologetic approaches the influence of worldview presuppositions using undercutting defeaters to expose faulty thinking causes of nonbelief the historical Jesus compared with figureheads of competing belief systems the hope that Jesus offers Persuasive Apologetics will challenge serious seekers to peel back the layers of skeptical arguments and equip committed Christians looking to hone their

apologetics skills *Themelios*, 1984 **Taking Off Roofs and Building Bridges** Alan J. Pihringer, 2022-09-27 Why don't they believe the same things I do? Why don't they see things my way? We get frustrated when people hold differing opinions from ours or view life's major issues from conflicting angles. Their system of belief, their worldview seems foreign to us as they filter the events of this world in ways that we would never have imagined and then come to conclusions that we would never even consider. When other people's worldviews contradict ours, both of us cannot be right. Is there a way to account for the differences and determine if one is right and the other wrong? For the Christian, especially, can we defend the Christian worldview in a way that upholds our entire system of belief and then opens the door to share the gospel with those who believe differently from us? The method of worldview apologetics enables the Christian to expose the faults in other worldviews, demonstrate the truth of the Christian worldview, and build a bridge for others to hear the gospel of Jesus Christ. Both scholarly and practical worldview apologetics equips the Christian to assess and critique differing belief systems and fulfill the call to Great Commission outreach. *Evangelical Review of Theology, Volume 47, Number 1* Thomas Schirmacher, 2023-03-06 ERT publishes quality articles and book reviews from around the world, both original and reprinted from an evangelical perspective, reflecting global evangelical scholarship for the purpose of discerning the obedience of faith and of relevance and importance to its international readership of theologians, educators, church leaders, missionaries, administrators, and students. The journal is published as a ministry rather than as a commercial project seeking to be of service to the worldwide spread of the gospel and the building up of the church and its leadership in coordination with the World Evangelical Alliance's broader mission and activities. [Christian Apologetics](#) Douglas Groothuis, 2022-02-08 The Christian faith offers people hope. But how can we know that Christianity is true? How can Christians confidently present their beliefs in the face of doubts and competing views? In this second edition of a landmark apologetics text, Douglas Groothuis makes a clear and rigorous case for Christian theism, addressing the most common questions and objections raised regarding Christianity. *Classical Readings in Christian Apologetics* L. Russ Bush, 1983 This volume is a collection of selected readings that are of continuing significance for Christian apologetics. Dr. Bush has written a general introduction to the field of apologetics and an introduction to each apologist cited, and the work or works from which selections have been drawn. A brief bibliography is also given for each writer. Christians have always been called on to defend their beliefs, certainly no less today than at any other time in history. In this book, the outstanding apologists of previous centuries become models both in the content of their writing and in their methodology for Christians today. All those who love the Lord and His church and are concerned that many be made aware of the reasonableness of the Christian faith will find this book enlightening and exciting. *Encountering Religious Pluralism* Harold Netland, 2001-08-14 Harold Netland traces the emergence of the pluralistic ethos that challenges Christian faith and mission, interacting heavily with philosopher John Hick and providing a framework for developing a comprehensive evangelical theology of religions. *Evangelical Review of Theology, Volume 46, Number 4,*

The Truth About Truth Martin Nyanzu,2023-06-22 Truth is a bitter pill to swallow yet it delivers us from bondage and destruction It is often said truth hurts but does it or it is lies that hurt We are in a social conflict because the so called postmodern era allows for creation of meaning even if it defies reality Regardless of our perception about the nature of truth we will still seek it even if we claim it hurts because we can t live without it Martin Nyanzu examines the nature of truth what it means to say truth hurts and identifies some of the popular lies currently trending in our culture
