Constructing Test Items Steven J. Osterlind, 2012-12-06 [A Practical Guide to Teacher Education Evaluation](#) Jerry B. Ayers, Mary F. Berney, 2012-12-06 J T Sandefur Western Kentucky University American's ability to compete in world markets is eroding The productivity growth of our competitors outdistances our own The capacity of our economy to provide a high standard of living for all our people is increasingly in doubt As jobs requiring little skill are automated or go offshore and demand increases for the highly skilled the pool of educated and skilled people grows smaller and the backwater of the unemployable rises Large numbers of American children are in limbo ignorant of the past and unprepared for the future Many are dropping out not just out of school but out of productive society These are not my words They are a direct quote from the Executive Summary of the Carnegie Forum Report on Education and the Economy entitled A Nation Prepared Teachers for the 21st Century p 2 1986 This report was motivated by four purposes 1 To remind Americans

yet again of the economic challenges pressing us on all sides 2 To assert the primacy of education as the foundation of economic growth equal opportunity and a shared national vision 3 To reaffirm that the teaching profession is the best hope for establishing new standards of excellence as the hallmark of American education and 4 To point out that a remarkable window of opportunity lies before us in the next decade to reform education an opportunity that may not present itself again until well into the next century

Psychological Testing Robert M. Kaplan, Dennis P. Saccuzzo, 1993 This accessible and engaging book for undergraduates is less cluttered with details than other books for the course and students like to read it It offers an up to date analysis of the most widely used tests in educational industrial clinical and health settings The Third Edition features a significant increase in the number of test profiles sample items and figures while it addresses timely and controversial topics

such as nationalized testing test bias and cross cultural issues Kaplan and Saccuzzo cover the technical principles of test evaluation and construction in a concise comprehensible manner using practical examples from real life Assuming no theoretical background and little knowledge of statistics the book provides thorough coverage of basic statistical concepts while ensuring an understanding of important principles *Testing Testing* F. Allan Hanson, 2023-04-28 This book is about how our addiction to testing influences both society and ourselves as socially defined persons The analysis focuses on tests of people particularly tests in schools intelligence tests vocational interest tests lie detection integrity tests and drug tests Diagnostic psychiatric tests and medical tests are included only tangentially A good deal of the descriptive material will be familiar to readers from their personal experience as takers and or givers of tests But testing as with much of ordinary life has implications that we seldom pause to ponder and often do not even notice My aim is to uncover in the everyday operation of testing a series of well concealed and mostly unintended consequences that exercise far deeper and more pervasive influence in social life than is commonly recognized This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993 **Classroom**
