A Companion to American Military History James C. Bradford, 2009-11-03 With more than 60 essays A Companion to American Military History presents a comprehensive analysis of the historiography of United States military history from the colonial era to the present. Covers the entire spectrum of US history from the Indian and imperial conflicts of the seventeenth century to the battles in Afghanistan and Iraq. Features an unprecedented breadth of coverage from eminent military historians and emerging scholars including little studied topics such as the military and music, military ethics, care of the dead and sports. Surveys and evaluates the best scholarship on every important era and topic. Summarizes current debates and identifies areas where conflicting interpretations are in need of further study. **Andrew Jackson Donelson** Richard Douglas Spence, 2017-10-02 This richly detailed biography of Andrew Jackson Donelson 1799-1871 sheds new light on the political and personal life of this nephew and namesake of Andrew Jackson. A scion of a pioneering Tennessee family, Donelson was a valued assistant and trusted confidant of the man who defined the Age of Jackson. One of those central but background figures of history, Donelson had a knack for being where important events were happening and knew many of the great figures of the age. As his uncle's secretary, he weathered Old Hickory's tumultuous presidency, including the notorious Petticoat War. Building his own political career, he served as US chargé d'affaires to the Republic of Texas, where he struggled against an enigmatic President Sam Houston, British and French intrigues, and the threat of war by Mexico to achieve annexation. As minister to Prussia, Donelson enjoyed a ringside seat to the revolutions of 1848 and the first attempts at German unification. A firm Unionist in the mold of his uncle, Donelson denounced the secessionists at the Nashville Convention of 1850. He attempted as editor of the Washington Union to reunite the Democratic party, and when he failed, he was nominated as Millard Fillmore's vice-presidential running mate on the Know Nothing party ticket in 1856. He lived to see the Civil War wreck the Union he loved, devastate his farms, and take the lives of two of his sons. *Nationalism and History Education* Rachel Hutchins, 2016-02-26 History education by nature transmits an official version of national identity. National identity is not a fixed entity, and controversy over history teaching is an essential part of the process of redefining and regenerating the nation. France and the United States have in particular experienced demographic and cultural shifts since the 1960s that have resulted in intense debates over national identity. This volume examines how each country's national history is represented in primary schools, social studies textbooks, and curricula, and how they handle contemporary issues of ethnicity, diversity, gender, socio-economic inequality, and patriotism. By analyzing each country separately and comparatively, it demonstrates how various groups, including academics, politicians, and citizen activists, have influenced education and how the process of writing and rewriting history perpetuates a nation. Drawing on empirical studies of the United States and France, this volume provides insight into broader nationalist processes and instructive principles for similar countries in the modern world. **Forthcoming Books** Rose Arny, 2004 **The New American Herbal: An Herb Gardening Book** Stephen Orr, 2014-09-30 A masterful gorgeously photographed A to Z introduction to the full spectrum of herbal plants.
