Texas Through Time Evolving Interpretations

Walter L. Buenger

Texas Through Time Evolving Interpretations:

Texas Through Time Walter L. Buenger, Robert A. Calvert, 1991 Historical interpretations shape a culture's understanding of itself its challenges its options New conditions within society along with new information and methods available to historians should call forth new interpretations of the past Thus history changes as time passes Yet Texas historians have had trouble discarding old understandings The contributors to this volume of Texas historiography explore this key question Why have historians not subjected the myths of the state to rigorous ongoing examination Why does the macho myth of Anglo Texas still reign This book is the first scholarly attempt to place the intellectual development of Texas history within the framework of current trends in the study of U S history Twelve eminent scholars have contributed evaluations of the historical literature in their respective fields of expertise from Texas Mexican culture and African American roles to agrarianism progressivism and the New Deal from perspectives on women to the urban experience of Sunbelt boom and near bust The cumulative effort describes and analyzes what Texas history is and how it got that way These stimulating critiques challenge the field to produce a new synthesis that moves away from the provincialism that has so often limited the intellectual directions of the state's historians and the actions of its political leaders **Beyond Texas Through Time**

Walter L. Buenger, Arnoldo De León, 2011-01-27 In 1991 Walter L Buenger and the late Robert A Calvert compiled a pioneering work in Texas historiography *Texas Through Time* a seminal survey and critique of the field of Texas history from its inception through the end of the 1980s Now Buenger and Arnoldo De León have assembled an important new collection that assesses the current state of Texas historiography building on the many changes in understanding and interpretation that have developed in the nearly twenty years since the publication of the original volume This new work *Beyond Texas Through Time* departs from the earlier volume's emphasis on the dichotomy between traditionalism and revisionism as they applied to various eras Instead the studies in this book consider the topical and thematic understandings of Texas historiography embraced by a new generation of Texas historians as they reflect analytically on the work of the past two decades The resulting approaches thus offer the potential of informing the study of themes and topics other than those specifically introduced in this volume extending its usefulness well beyond a review of the literature In addition the volume editors introduction proposes the application of cultural constructionism as an important third perspective on the thematic and topical analyses provided by the other contributors *Beyond Texas Through Time* offers both a vantage point and a benchmark serving as an important reference for scholars and advanced students of history and historiography even beyond the borders of Texas **Tejano West Texas** Arnoldo De León, 2015-07-24 Featuring a side of Tejano history too often neglected author Arnoldo De León shows that people of Spanish Mexican descent were not passive players in or worse absent from West Texas history but instead were active agents at the center of it The collection of essays in *Tejano West Texas* many never before published will correct decades of historiographical oversight by emphasizing the centrality of the Mexican

American experience in the history of the region De Le n a true dean of Tejano history showcases the continued presence and contribution of Mexican Americans to West Texas This collection begins in the 1770s when settlers of Mexican descent first began migrating to Presidio and then to other sections of the Big Bend De Le n then turns his attention to the nineteenth century when Mexican immigrants and other Texans searched for work throughout the West Texas hinterland and his coverage continues onward through the twentieth century Mexican American and Texas history scholars will find Tejano West Texas to be an invaluable addition to the Tejano narrative *Tejano South Texas* Daniel D. Arreola,2010-01-01 On the plains between the San Antonio River and the Rio Grande lies the heartland of what is perhaps the largest ethnic region in the United States Tejano South Texas In this cultural geography Daniel Arreola charts the many ways in which Texans of Mexican ancestry have established a cultural province in this Texas Mexico borderland that is unlike any other Mexican American region Arreola begins by delineating South Texas as an environmental and cultural region He then explores who the Tejanos are where in Mexico they originated and how and where they settled historically in South Texas Moving into the present he examines many factors that make Tejano South Texas distinctive from other Mexican American regions the physical spaces of ranchos plazas barrios and colonias the cultural life of the small towns and the cities of San Antonio and Laredo and the foods public celebrations and political attitudes that characterize the region Arreola s findings thus offer a new appreciation for the great cultural diversity that exists within the Mexican American borderlands *Texan Identities* Light Townsend Cummins,Mary L. Scheer,2016-09-15 *Texan Identities* rests on the assumption that Texas has distinctive identities that define what it means to be Texan and that these identities flow from myth and memory Each contributor to this volume provides in some fashion an answer to the following questions What does it mean to be Texan What constitutes a Texas identity and how may such change over time What myths memories and fallacies contribute to making a Texas identity and how have these changed for Texas Are all the myths and memories that define Texas identity true or are some of them fallacious Is there more than one Texas identity Many Texans do believe the story of their state s development manifesting singular unique attributes which are prone to expression as stereotypical iconic representations of what it means to be Texan Each of the essays in this volume addresses particular events places and people in Texas history and how they are related to Texas identity myth and memory The discussion begins with the idealized narrative and icons revolving around the Texas Revolution most especially the Alamo The Texas Rangers in myth and memory are also explored Other essays expand on traditional and increasingly outdated interpretations of the Anglo American myth of Texas by considering little known roles played by women racial minorities and specific stereotypes such as the cattleman **Single Star of the West** Kenneth W. Howell,Charles Swanlund,2017-03-15 Does Texas s experience as a republic make it unique among the other states In many ways Texas was an accidental republic for nearly ten years until Texans voted overwhelmingly in favor of annexation to the United States after winning independence from Mexico *Single Star of the West* chronicles Texas s efforts to maneuver

through the pitfalls and hardships of creating and maintaining the accidental republic The volume begins with the Texas Revolution and examines whether or not a true Texas identity emerged during the Republic era Next several contributors discuss how the Republic was defended by its army navy and the Texas Rangers Individual chapters focus on the early founders of Texas Sam Houston Mirabeau B Lamar and Anson Jones who were all exceptional men but like all men suffered from their own share of fears and faults Texas s efforts at diplomacy and persistence and transformation in its economy also receive careful analysis Finally social and cultural aspects of the Texas Republic receive coverage with discussions of women American Indians African Americans Tejanos and religion The contributors also focus on the extent that conditions in the republic attracted political and economic opportunists some of whom achieved a remarkable degree of success Single Star of the West also highlights how the Texas Republic was established on American political ideology With the majority of the white settlers coming from the United States this will not surprise many scholars of the era In some cases the Texans successfully adopted American political and economic ideology to their needs while other times they failed miserably

Seeking Inalienable Rights Debra Ann Reid,2009 In essays scholars demonstrate that the history of Texans quests to secure inalienable rights and expand government protected civil rights has been one of stops and starts successes and failures progress and retrenchment The Path to a Modern South Walter L. Buenger,2010-06-28 The forces that turned Northeast Texas from a poverty stricken region into a more economically prosperous area Winner Texas State Historical Association Coral H Tullis Memorial Award for best book on Texas history 2001 Federal New Deal programs of the 1930s and World War II are often credited for transforming the South including Texas from a poverty stricken region mired in Confederate mythology into a more modern and economically prosperous part of the United States By contrast this history of Northeast Texas one of the most culturally southern areas of the state offers persuasive evidence that political economic and social modernization began long before the 1930s and prepared Texans to take advantage of the opportunities presented by the New Deal and World War II Walter L Buenger draws on extensive primary research to tell the story of change in Northeast Texas from 1887 to 1930 Moving beyond previous more narrowly focused studies of the South he traces and interconnects the significant changes that occurred in politics race relations business and the economy and women s roles He also reveals how altered memories of the past and the emergence of a stronger identification with Texas history affected all facets of life in Northeast Texas **Discovering Texas History** Bruce A. Glasrud,Light Townsend Cummins,Cary D. Wintz,2014-09-09 Discovering Texas History is a historiographical reference book that will be invaluable to teachers students and researchers of Texas history Chapter authors are familiar names in Texas history circles a who s who of high profile historians Conceived as a follow up to the award winning but increasingly dated A Guide the History of Texas 1988 Discovering Texas History focuses on the major trends in the study of Texas history since 1990 In part one topical essays address significant historical themes from race and gender to the arts and urban history In part two chronological essays

cover the full span of Texas historiography from the Spanish era to the modern day In each case the goal is to analyze and summarize the subjects that have captured the attention of professional historians so that Discovering Texas History will take its place as the standard work on the history of Texas history **Lone Star Mind** Ty Cashion,2018-11-01 There is the story the Lone Star State likes to tell about itself and then there is the reality a Texas past that bears little resemblance to the manly Anglo myth of Texas exceptionalism that maintains a firm grip on the state s historical imagination Lone Star Mind takes aim at this traditional narrative holding both academic and lay historians accountable for the ways in which they craft the state s story A clear sighted far reaching work of intellectual history this book marshals a wide array of pertinent scholarship analysis and original ideas to point the way toward a new usable past that twenty first century Texans will find relevant Ty Cashion fixes T R Fehrenbach s Lone Star A History of Texas and the Texans in his crosshairs in particular laying bare the conceptual deficiencies of the romantic and mythic narrative the book has served to codify since its first publication in 1968 At the same time Cashion explores the reasons why the collective efforts of university trained scholars have failed to diminish the appeal of the state s iconic popular culture despite the fuller and more accurate record these historians have produced Framing the search for a collective Texan identity in the context of a post Christian age and the end of Anglo male hegemony Lone Star Mind illuminates the many historiographical issues besetting the study of American history that will resonate with scholars in other fields as well Cashion proposes that a cultural history approach focusing on the self interests of all Texans is capable of telling a more complete story a story that captures present day realities **The American South** William James Cooper (Jr.),Thomas E. Terrill,2009-01-16 In The American South William J Cooper Jr and Thomas E Terrill demonstrate their belief that it is impossible to divorce the history of the south from the history of the United States Each volume includes a substantial biographical essay completely updated for this edition which provides the reader with a guide to literature on the history of the South Coverage now includes the devastation of Hurricane Katrina in 2005 up to date analysis of the persistent racial divisions in the region and the South s unanticipated role in the 2008 presidential primaries

Mexicanos Manuel G. Gonzales,2000 A lively original interpretive history of Mexicans in the United States

Mexicanos, Second Edition Manuel G. Gonzales,2009-08-20 Newly revised and updated Mexicanos tells the rich and vibrant story of Mexicans in the United States Emerging from the ruins of Aztec civilization and from centuries of Spanish contact with indigenous people Mexican culture followed the Spanish colonial frontier northward and put its distinctive mark on what became the southwestern United States Shaped by their Indian and Spanish ancestors deeply influenced by Catholicism and tempered by an often difficult existence Mexicans continue to play an important role in U S society even as the dominant Anglo culture strives to assimilate them Thorough and balanced Mexicanos makes a valuable contribution to the understanding of the Mexican population of the United States a growing minority who are a vital presence in 21st century America **David Crockett in Texas** Allen J. Wiener,2024-10-23 presents a realistic profile based on a foundation

of research that can only be described as exhaustive Given its balanced tone and exhaustive research this book actually has a chance to become the last word on an enigmatic subject Paul D Lack author of *Searching for the Republic of the Rio Grande Northern Mexico and Texas 1838 1840* challenges the mythology of the Alamo s most famous defender and nearly every Davy trope from fantastic tales circulated in Crockett s lifetime to Billy Bob Thornton s on screen fiddle playing in 2004 San Antonio Express News A stunning tour de force of research and analysis that illuminates the last three months of Davy s life Wiener s book will stand in the top rank He also adds important new speculation and analysis on those last thirteen days in the Alamo William C Davis author of *Lone Star Rising The Revolutionary Birth of the Texas Republic David Crockett in Texas His Search for New Land* by Allen J Wiener takes a fresh look at the well known figure from the perspective of his quest for land in Texas and the new start it promised for his family This retelling of what the author terms the last adventure in the life of a nineteenth century Tennessee frontiersman who became a national celebrity presents a picture of Crockett that contrasts with the popular image of the brash adventurer who sought glory on the battlefield as well as that of the bitter failed politician who came to Texas as a last resort Wiener presents a nuanced examination of Crockett s motivations that places them in the context of the full arc of his career and aspirations starting long before he ventured to the south side of the Red River Notably this book devotes a full chapter to the fate of Crockett s family after his death contributing perhaps the most complete account to date of the astute legal actions taken by Elizabeth Crockett to secure title to the land obtained by her late husband s enlistment in the Texian cause Uniquely to studies of Crockett Wiener presents Elizabeth Crockett as a shrewd businesswoman who ably managed her husband s various enterprises at home while he was off campaigning or serving in Washington DC David Crockett in Texas offers fascinating new evaluations of what we thought we already knew about one of the most studied and debated figures in Texas and American history

The History of Texas ,2014-01-28 The History of Texas is fully revised and updated in this fifth edition to reflect the latest scholarship in its coverage of Texas history from the pre Columbian era to the present Fully revised to reflect the most recent scholarly findings Offers extensive coverage of twentieth century Texas history Includes an overview of Texas history up to the Election of 2012 Provides online resources for students and instructors including a test bank maps presentation slides and more

Mexicanos, Third Edition Manuel G. Gonzales,2019-06-05 Responding to shifts in the political and economic experiences of Mexicans in America this newly revised and expanded edition of *Mexicanos* provides a relevant and contemporary consideration of this vibrant community Emerging from the ruins of Aztec civilization and from centuries of Spanish contact with indigenous people Mexican culture followed the Spanish colonial frontier northward and put its distinctive mark on what became the southwestern United States Shaped by their Indian and Spanish ancestors deeply influenced by Catholicism and often struggling to respond to political and economic precarity Mexicans play an important role in US society even as the dominant Anglo culture strives to assimilate them With new maps updated appendicxes and a new chapter providing an up to date

consideration of the immigration debate centered on Mexican communities in the US this new edition of Mexicanos provides a thorough and balanced contribution to understanding Mexicans history and their vital importance to 21st century America

At the Heart of Texas Richard B. McCaslin, 2014-04-01 History like that of Texas is rare Is it not discreditable to the people of Texas that they should leave the collection of material for the history of the State to the great endowed Northern libraries Let Texas arouse herself for very shame and begin at once the discharge of her filial duty So wrote George Pierce Garrison in the first issue of the Quarterly of the Texas State Historical Association published in July 1897 just months after the establishment of the organization on March 2 The state of Texas was just half a century old the city of Austin going back to the days of the Republic was a little older a few years past its half century and the University of Texas where Garrison was the history professor was not yet fourteen Earlier attempts to organize historical societies in Texas traced in the opening chapter illuminate the factors that came ultimately to be decisive in the success of the Association the wisdom in linking the organization with the University of Texas the inclusion of lay historians and the continued insistence on high academic standards And from the beginning the Association has established a tradition for publishing in the Quarterly in addition to the Anglo story the stories of the Indians the Spanish and the French According to author Richard B McCaslin It may be that the Association survived where its predecessors had not because Garrison who was as much a Progressive historian as any of his contemporaries understood the value of inclusiveness The text is organized in chronological chapters by the tenures of the seven directors George Garrison to Ron Tyler all of whom were professors in the UT history department Within the larger framework of the directors the programs and the publications McCaslin gives shape to the unique interaction of forces university political and the academic lay membership that has accorded the Association a character and suppleness that continues to ensure its long endurance The book is profusely illustrated and sidebars culled from past issues of the Quarterly complement the text Winner of the Award of Merit from the Philosophical Society of Texas *Come to Texas* Barbara J. Rozek, 2003 *Come to Texas* urged countless advertisements newspaper articles and private letters in the late nineteenth century Expansive acres lay fallow ready to be turned to agricultural uses Entrepreneurial Texans knew that drawing immigrants to those lands meant greater prosperity for the state as a whole and for each little community in it They turned their hands to directing the stream of spatial mobility in American society to Texas They told the Texas story to whoever would read it In this book Barbara Rozek documents their efforts shedding light on the importance of their words in peopling the Lone Star State and on the optimism and hopes of the people who sought to draw others Rozek traces the efforts first of the state government until 1876 and then of private organizations agencies businesses and individuals to entice people to Texas The appeals in whatever form were to hope hope for lower infant mortality rates business and farming opportunities education marriage and they reflected the hopes of those writing Rozek states clearly that the number of words cannot be proven to be linked directly to the number of immigrants Texas experienced a population increase of 672 percent between

1860 and 1920 but she demonstrates that understanding the effort is itself important Using printed materials and private communications held in numerous archives as well as pictures of promotional materials she shows the energy and enthusiasm with which Texans promoted their native or adopted home as the perfect home for others Texas is indeed an immigrant state perhaps by destiny certainly Rozek demonstrates by design *The Texas State Constitution* Janice C. May, 2011 The Texas State Constitution provides an outstanding constitutional and historical account of the state's governing charter In addition to an overview of Texas constitutional history this volume provides an in depth section by section analysis of the entire constitution detailing the many significant changes that have been made since its initial drafting This treatment along with a table of cases index and bibliography provides an unsurpassed reference guide for students scholars and practitioners of Texas constitution Previously published by Greenwood this title has been brought back in to circulation by Oxford University Press with new verve Re printed with standardization of content organization in order to facilitate research across the series this title as with all titles in the series is set to join the dynamic revision cycle of The Oxford Commentaries on the State Constitutions of the United States The Oxford Commentaries on the State Constitutions of the United States is an important series that reflects a renewed international interest in constitutional history and provides expert insight into each of the 50 state constitutions Each volume in this innovative series contains a historical overview of the state's constitutional development a section by section analysis of its current constitution and a comprehensive guide to further research Under the expert editorship of Professor G Alan Tarr Director of the Center on State Constitutional Studies at Rutgers University this series provides essential reference tools for understanding state constitutional law Books in the series can be purchased individually or as part of a complete set giving readers unmatched access to these important political documents

The Texas Railroad Commission William R. Childs, 2005 Before OPEC took center stage one state agency in Texas was widely believed to set oil prices for the world The Texas Railroad Commission TRC evolved from its founding in 1891 to a multi divisional regulatory commission that oversaw not only railroads but also a number of other industries central to the modern American economy petroleum production natural gas utilities and motor carriers buses and trucks William R Childs's unprecedented study of the TRC from its founding until the mid twentieth century extends our knowledge of commission style regulation It focuses on the interplay between business and regulators between state and national regulatory commissions and among the three branches of government through a process of pragmatic federalism Drawing on extensive primary research Childs demonstrates that the alleged power of regulatory commissions has been more constrained than most observers have recognized As he shows the myth of power was devised by the agency itself as part of building a civil religion of Texas oil Together the myth and the civil religion enabled the TRC to convince Texas oil operators to follow production controls and thus stabilized the American oil industry by the 1940s The result of this fascinating study is a more nuanced understanding of federalism and of regulation the forces shaping it and its outcomes

If you ally compulsion such a referred **Texas Through Time Evolving Interpretations** book that will have enough money you worth, get the unquestionably best seller from us currently from several preferred authors. If you want to witty books, lots of novels, tale, jokes, and more fictions collections are plus launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all book collections Texas Through Time Evolving Interpretations that we will enormously offer. It is not re the costs. Its nearly what you craving currently. This Texas Through Time Evolving Interpretations, as one of the most energetic sellers here will categorically be along with the best options to review.
