Textbook In The Kaleidoscope A Critical Survey Of Literature And Research Of Education Texts:

Textbooks in the Kaleidoscope Egil Børre Johnsen, 1993 How are textbooks compiled Who decides what they should contain How are textbooks used by teachers and students How should they be used in the future This groundbreaking new book is an international survey of the recent literature and research on textbooks Looking at textbooks published in English French German and the Nordic languages the author discusses approaches methods and results in light of trends in general textbook theory He also applies perspectives derived from the philosophy of science education and linguistics to three main approaches process oriented use oriented and product oriented textbook research His results should prompt new thinking about several concepts that have traditionally dominated textbook research and the textbook genre **The Palgrave**

Handbook of Textbook Studies Eckhardt Fuchs, Annkatrin Bock, 2018-04-04 This volume examines the present status and future trends of textbook studies Cutting edge essays by leading experts and emerging scholars explore the field's theories methodologies and topics with the goal of generating debate and providing new perspectives The Georg Eckert Institute's unique transdisciplinary focus on international textbook research has shaped this handbook which explores the history of the discipline the production processes and contexts that influence textbooks the concepts they incorporate how this medium itself is received and future trends The book maps and discusses approaches based in cultural studies as well as in the social and educational sciences in addition to contemporary methodologies used in the field The book aims to become the central interdisciplinary reference for textbook researchers students and educational practitioners **The New Politics of the**

Textbook Heather Hickman, Brad J. Porfilio, 2012-10-29 In an era when corporate and political leaders are using their power to control every aspect of the schooling process in North America there has been surprisingly little research on the impact of textbook content on students The contributors of this volume and its partner The New Politics of the Textbook Problematizing the Portrayal of Marginalized Groups in Textbooks guide educators school administrators academics and other concerned citizens to unpack the political social and cultural influences inherent in the textbooks of core content areas such as math science English and social science They urge readers to reconsider the role textbooks play in the creation of students political social and moral development and in perpetuating asymmetrical social and economic relationships where social actors are bestowed unearned privileges and entitlements based upon their race gender sexuality class religion and linguistic background Finally they suggest ways to resist the hegemony of those texts through critical analyses critical questioning and critical pedagogies **Textbooks and Educational Media: Perspectives from Subject Education** Péter

Bagoly-Simó, Zuzana Sikorová, 2021-08-05 This book brings together empirical research and conceptual work on textbooks and education media from 13 countries and 17 disciplines Along with textbook production usage and development it also explores the interconnectedness of educational policy and teaching and learning materials Further the book offers insights into regional and local discourses e.g. specific theories of Portuguese and Spanish speaking countries as well as Nordic

countries contrasting their theories with international literature practices and solutions with regard to teaching selected subjects at the pre primary primary secondary and tertiary level This book also discusses the specific combinations of subjects e g Physics Biology Geography Swedish English and their subject specific education e g Physics Education or Didactics Lastly it examines the work of a number of early career researchers giving them a voice and bringing in fresh ideas currently being developed in various countries around the globe This proceedings volume will appeal to publishers subject educators in primary secondary and tertiary education and academic researchers from the fields of textbooks educational media and subject specific education Its international authorship and explicit focus on subject specific particularities of educational media provide a unique and comprehensive overview **The School Textbook** William E. Marsden,2013-01-11

A study of the school textbook grounded in historical and comparative perspectives The approach is broadly chronological revealing changes in the theory and practice of textbook production and use The book focuses largely on three associated subjects geography history and social studies **UNESCO Guidebook on Textbook Research and Textbook Revision** Falk Pingel,2010-01-01 *The SAGE Handbook of Communication and Instruction* Deanna L. Fassett,John T. Warren,2010-03-18

The SAGE Handbook of Communication and Instruction functions as a comprehensive resource for scholars graduate students and general readers interested in the intersections of communication and instruction irrespective of paradigm method or disciplinary background Each chapter selection in the Handbook roots contemporary work in disciplinary foundations and identifies avenues for future inquiry Features Benefits Compiles original research and reviews of research in the intersections of communication and instruction from key figures in the disciplines not only helping readers see present and future trajectories in this area of inquiry in foundational lines of research but also providing a sense of how this area has grown along a series of different theoretical and methodological approaches Helps readers identify avenues for research in consultation with both key figures and innovators in this area of inquiry Serves as the primary contemporary and multi paradigmatic guide to the study of the intersections of communication and instruction recognizing all paradigmatic approaches and methods as meaningful The Handbook will not only strengthen readers interest in and comfort with different paradigmatic approaches to communication and instruction but also make possible a generation of well rounded comprehensive and effective researchers capable of reading a broad array of work from a variety of approaches **The Educational Challenge of Cultural Diversity in the International Context** Christos Govaris, Stavroula Kaldi (ed.),2010

The book contributes to the promotion of intercultural scientific discourse concerning the issue of managing the worldwide common challenge of cultural diversity in different education systems Considering the diversity in the school student population as an educational challenge the aim of this volume is to present theoretical and research works associated to the scientific discourse about intercultural education and its importance to education on a national level and to the educational policies regarding school integration of pupils with immigrant background in different education systems The examples about

the effective management of diversity of student population on a national level and the open scientific questions that are presented can contribute to broaden our perspective regarding the width both of dimensions of this educational challenge and of the possibilities to manage the diversity of student population effectively

Representations of the World in Language Textbooks Karen Risager, 2018-01-08 This book presents a new and comprehensive framework for the analysis of representations of culture society and the world in textbooks for foreign and second language learning The framework is transferable to other kinds of learning materials and to other subjects The framework distinguishes between five approaches national studies citizenship education studies cultural studies postcolonial studies and transnational studies In a series of concrete analyses the book illustrates how one can describe and uncover representations of the world in textbooks for English German French Spanish Danish and Esperanto Each analysis is accompanied by suggestions of possible supplements and changes The book points to the need for language learning materials to deal seriously with knowledge about the world including its diversities and problems
