The Spanish Church and the Papacy in the Thirteenth Century Peter Linehan,2005-11-24 Against the background of the struggle between Christianity and Islam for the control of the Spanish Peninsula this book examines the internal condition of the Spanish Church in the thirteenth century its relations with the Christian kings and with a succession of great popes Concentrating upon Aragon and Castile the author examines the reaction and resistance of the Church to the reforming decrees of the 1215 Fourth Lateran Council and illustrates the attempts made by the papacy to wrest control of the Church from the crown By using hitherto untouched Spanish sources as well as material from the Vatican Dr Linehan is able to throw new light on economic and social problems and to challenge effectively the conception that the Spanish Church was wealthy and influential As well as being important for scholars of medieval Spain this book provides essential comparative material for all historians of the medieval Church Historia de Los Bancos Modernos Sixto J. Quesada,1901 Identity Mediations in Latin American Cinema and Beyond Cecilia Nuria Gil Mariño,Laura Miranda,2019-09-12 The appearance of sound film boosted entertainment circuits around the world drawing cultural cartographies that forged images of spaces nations and regions By the late 1920s and early 30s film played a key role in the configuration of national and regional cultural identities in incipient mass markets Over the course of the twentieth and early twenty first centuries this transmedia logic not only went unthreatened but also intensified with the arrival of new media and the development of new technologies In this respect this book strikes a dialogue between analyses that reflect the flows and transits of music films and artists mainly in the Ibero American space although it also features essays on Soviet and Asian cinema with a view to exploring the processes of configuration of cultural identities As such this work views national borders as flexible spaces that permit an exploration of the appearance of transversal relations that are part of broader networks of circulation as well as economic social and political models beyond the domestic sphere **Los Programas de Enseñanza Bilingüe en el entorno escolar de Soria.
