Broadwater, 2008-07-30 The author seeks to challenge the long held perceptions of the politics of the American Civil War He argues that the war was fought not to preserve the Union or free the slaves but rather to establish the political power of the Republican Party within the federal government The author argues further that Abraham Lincoln and the Republican Party manipulated events to bring about the Civil War in the first place and used the war as a pretext for the establishment of the modern central government **The American Antiquarian and Oriental Journal** ,1878 Loss of Innocence Melvin E. Matthews Jr., 2019-05-01 America was certainly the big winner of World War II being the last major country intact Euphoria hubris and a naive self confidence became hallmarks of the people This hubris was dented a bit in the 1950s when scandals erupted around the TV quiz shows that made everyone feel so smart and the U 2 spy incident of 1960 that revealed Americans were being lied to by the government The book argues that these two events began the credibility gap that engulfed the nation later in the 1960s and continues to haunt us to this day When the War ended the United States still had its economy infrastructure and industry intact Taking up where the British Empire left off the powerful new America expanded its influence around the globe Suddenly light years ahead of any competitor Americans abandoned themselves to a haze of consumerism and entertainment trusting that they were safe and could not be harmed The contestants on the big money quiz shows turned out to be fakes and the respected TV executives were also revealed to be liars and cheats Far worse was yet to come The United States government was caught in a lie regarding the CIA's U 2 reconnaissance planes overflying the Soviet Union On the eve of a crucial summit meeting in 1960 the USSR knocked Gary Powers out of the sky along with plenty of incriminating hardware and data Moscow delayed revealing what it knew and Washington spent ten days denying it was a spy plane then denying that President Eisenhower was aware of it The world was turning into a very scary place and soon American schoolchildren were being taught to duck under their desks if a bomb should strike Fear began to percolate into the heart of the nation **Cases Determined by the St. Louis, Kansas City and Springfield Courts of Appeals of the State of Missouri** Missouri.
