Japanese Cinema and Punk Mark Player, 2025-05-15 In Japanese Cinema and Punk Mark Player examines how the do it yourself ethos of punk empowered a new generation of Japanese filmmakers during a period of crisis and change in Japan's film industry Drawing on rare materials and first hand interviews with key figures from the jishu eiga self made film tradition including Ishii Gakuryu formerly Ishii Sogo Yamamoto Masashi Tsukamoto Shin ya and Fukui Shozin Player explores how punk's bricolage style was leveraged to create exciting intermedial film aesthetics These aesthetics were influenced by rock music graffiti art street performance handmade animation television and other mass media By considering the practical phenomenological and political ramifications of combining diverse media elements Player offers in depth analyses of films such as Burst City 1982 Robinson's Garden 1987 Tetsuo The Iron Man 1989 and more He further traces the changing sociocultural position of Japan's punk generation throughout the 1980s from its euphoric early 80s peak to the growing disillusionment caused by its mainstream co-optation and convergence

Collaborative and Distributed Processes in Contemporary Music-Making Richard Glover, Lauren Redhead, 2020-04-09 This volume represents the second proceedings of the Royal Musical Association's RMA Music and as Process Study Group It is not surprising that a large number of the contributors to the Music and as Process Study Group are active practitioners in the performance and composition of contemporary music The collaborations documented here represent the bringing together of disciplines joint work between practitioners who contribute their own specific areas of expertise to a composite creative activity and work that crosses disciplines in order to make a critical comment in each of them In this collection these three types of collaborative work describe an increasing amount of contemporary music practice In addition to the increasing involvement of practice in research the understanding and prevalence of practice methodologies in the form of practice research has also

increased in musicology This volume reflects these concerns through contributions from authors who are all active practitioners in their respective fields of music performance composition improvisation and conducting The diversity of these contributions shows the variety of processes and practices that are currently being undertaken by proponents of the field of contemporary music These essays provide a snapshot of the current collaborative and distributed processes that are employed by today's contemporary music practitioners The chapters contained in this volume reveal the varied nature of the approaches to creativity in music making and the ways that these are distributed across its practitioners during each stage of the development of musical works

Historical Dictionary of Horror Cinema Peter Hutchings,2017-11-22 Horror is one of the most enduring and controversial of all cinematic genres Horror films range from subtle and poetic to graphic and gory but what links them together is their ability to frighten disturb shock provoke delight irritate and amuse audiences Horror's capacity to take the form of our evolving fears and anxieties has ensured not only its notoriety but also its long term survival and international popularity This second edition has been comprehensively updated to capture all that is important and exciting about the horror genre as it exists today Its new entries feature the creative

personalities who have developed innovative forms of horror and recent major films and cycles of films that ensure horror's continuing popularity and significance. In addition, many of the other entries have been expanded to include reference to the contemporary scene, giving a clear picture of how horror cinema is constantly renewing and transforming itself. The Historical Dictionary of Horror Cinema traces the development of the genre from its beginnings to the present. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries. The entries cover all major movie villains, including Frankenstein and his monsters, the vampire, the werewolf, the mummy, the zombie, the ghost, and the serial killer; film directors, producers, writers, actors, cinematographers, make-up artists, special effects technicians, and composers who have helped shape horror history; significant production companies; major films that are milestones in the development of the horror genre; and different national traditions in horror cinema, as well as popular themes, formats, conventions, and cycles.

Organization-Representation John Hassard, Ruth Holliday, 1998-02-10. The representation of organizations and working life in the popular media signifies but also helps shape contemporary practice and institutions. Organization Representation unravels the complex social relationship between organization and its representation, offering new insights into the interaction between the popular images we create and receive and the power relations that govern society, working life, and culture. Representations in Hollywood movies, ethnographic and documentary films, children's literature, and the popular and quality press replicate the power structures they supposedly describe and consequently help shape contemporary realities. This volume offers rich insights into the relations between culture, power, and work. It goes beyond such purely ontological questions to show convincingly that a critical analysis of the relationship between popular culture and the nature of organizational life enhances our understanding of both.

The A to Z of Horror Cinema Peter Hutchings, 2009-09-02. Horror is one of the most enduring and controversial of all cinematic genres. Horror films range from the subtle and the poetic to the graphic and the gory, but what links them all is their ability to frighten, disturb, shock, provoke, delight, irritate, amuse, and bemuse audiences. Horror's capacity to serve as an outlet to capture the changing patterns of our fears and anxieties has ensured not only its notoriety but also its long-term survival and its international popularity. Above all, however, it is the audience's continual desire to experience new frights and evermore horrifying sights that continue to make films like *The Exorcist*, *A Nightmare on Elm Street*, *Halloween*, *Night of the Living Dead*, *The Texas Chainsaw Massacre*, *Psycho*, *Ringu*, and *The Shining* captivate viewers. *The A to Z of Horror Cinema* traces the development of horror cinema from the beginning of the 20th century to the present day. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries. Entries cover all the major movie villains, including Frankenstein and his monster, the vampire, the werewolf, the mummy, the zombie, the ghost, and the serial killer; the film directors, producers, writers, actors, cinematographers, make-up artists, special effects technicians, and composers who have helped to shape horror history; significant production companies; and the major films that have come to stand as milestones in the development of the horror

genre and the different national traditions in horror cinema as well as horror's most popular themes formats conventions and cycles

The Solaris Effect Steven Dillon, 2010-01-01 What do contemporary American movies and directors have to say about the relationship between nature and art How do science fiction films like Steven Spielberg's A.I. and Darren Aronofsky's represent the apparent oppositions between nature and culture wild and tame Steven Dillon's intriguing new volume surveys American cinema from 1990 to 2002 with substantial descriptions of sixty films emphasizing small budget independent American film Directors studied include Steven Soderbergh Darren Aronofsky Todd Haynes Harmony Korine and Gus Van Sant as well as more canonical figures like Martin Scorsese Robert Altman David Lynch and Steven Spielberg The book takes its title and inspiration from Andrei Tarkovsky's 1972 film Solaris a science fiction ghost story that relentlessly explores the relationship between the powers of nature and art The author argues that American film has the best chance of aesthetic success when it acknowledges that a film is actually a film The best American movies tell an endless ghost story as they perform the agonizing nearness and distance of the cinematic image This groundbreaking commentary examines the rarely seen bridge between select American film directors and their typically more adventurous European counterparts Filmmakers such as Lynch and Soderbergh are cross cut together with Tarkovsky and the great French director Jean Luc Godard in order to test the limits and possibilities of American film Both enthusiastically cinephilic and fiercely critical this book puts a decade of U.S. film in its global place as part of an ongoing conversation on nature and art
