Lone Star state is a narrative dominated by larger than life personalities and often contentious legends presenting interesting challenges for historians Perhaps for this reason Texas has produced a cadre of revered historians who have had a significant impact on the preservation some would argue creation of our state s past An anthology of biographical essays Writing the Story of Texas pays tribute to the scholars who shaped our understanding of Texas s past and ultimately the Texan identity Edited by esteemed historians Patrick Cox and Kenneth Hendrickson this collection includes insightful cross generational examinations of pivotal individuals who interpreted our history On these pages the contributors chart the progression from

Eugene C Barker's groundbreaking research to his public confrontations with Texas political leaders and his fellow historians. They look at Walter Prescott Webb's fundamental innovative vision as a promoter of the past and Ruthe Winegarten's efforts to shine the spotlight on minorities and women who made history across the state. Other essayists explore Llerena Friend delving into an ambitious study of Sam Houston. Charles Ramsdell courageously addressing delicate issues such as racism and launching his controversial examination of Reconstruction in Texas. Robert Cotner an Ohio born product of the Ivy League bringing a fresh perspective to the field and Robert Maxwell engaged in early work in environmental history.

Excerpt from *The History and Geography of Texas As Told in County Names*

Several county names stand out on the map of Texas that were hoary with age a century and a half before the word Texas began to develop into geographical significance. These names were probably here before Columbus discovered America. At any rate Coronado and the followers of De Soto found them here with a well established local identity within less than fifty years after that event. The history of the State begins with the year 1528 during that epoch making period when Henry VIII was laying his plans for a divorce from Catherine when Luther was translating the Bible into German several years before Calvin wrote his Institutes of the Christian Religion and before Michael Angelo painted his masterpiece in the Sistine Chapel at Rome. Queen Elizabeth had not been born and a quarter of a century had to come and go before Shakespeare first saw the light. Comparing it with some of the older dates in American history it was seventy nine years before the first settlement at Jamestown ninety two years before the Mayflower landed at Plymouth Rock and more than two hundred years before George Washington was born.
