interpretation Moxey draws attention to a vital aspect of the cultural importance of history *Poetry, Politics, and Culture* Harold Kaplan, 2017-07-05 A salient feature of modern poetics is its direct connection with cultural history and politics Among the great American poets of the twentieth century Wallace Stevens and William Carlos Williams offer a significant contrast with T S Eliot and Ezra Pound Where the latter advocated a theocentric or reactionary response to the cultural crises of modernity the former affirmed an essentially humanist and democratic social and aesthetic ethos In *Poetry Politics and Culture* Harold Kaplan offers a penetrating comparative study of these representative and distinctively influential poets All four poets wrote in an atmosphere of cultural crisis following World War I caught as they were between outmoded belief systems and various forms of artistic and political nihilism While each believed in poetry as a source of cultural values and beliefs they nevertheless experienced loss of confidence in their own vocation in a world characterized by scientific rationalist thinking and the mundane struggle for survival For each therefore the poetic imagination was a means of restoring order or building a new civilization out of chaos In trying to define a revitalized culture the four exemplified the perennial quarrel between Europe and America

literary and cultural theory at all levels      **Reaganism in Literary Theory** Jeremiah Bowen, 2020-07-15 Reaganism is a discourse of devotion and disqualification combining a neoliberal negative theology of the market with a neoconservative demonization of opponents Reagan's personality cult shelters the aggressivity of a war of all against all by representing the market as a moralistic standard of perfection a representation of goodness and freedom In literary theory and criticism a homologous valuative system centered itself on the canon representing culture as a study of perfection Paul de Man argued for the displacement of this positive moralistic reference but his proposals ultimately replace it with a negative moralistic reference to literariness De Man's premises have been perpetuated in subsequent theory by persistent misrecognitions of dialectic as suspicious hermeneutics of materialism as reference to materiality and of demands for democratic equity as identity politics Tracing this motivated reasoning through misreadings of Eve Sedgwick's critique of conspiracy theory and Edward Said's secular criticism we are led back to the unexamined premises of Paul de Man's negative moralism and the opportunistic competition of academic careerism
