Text and Texture Sara E. Stoddard, 1991 *Introduction to Systemic Functional Linguistics* Suzanne Eggins, 2004-01-01
Introduction to systemic functional linguistics explores the social semiotic approach to language most closely associated with the work of Michael Halliday and his colleagues *Text and Texture* Sara E. Stoddard, 1991 **Discourse Analysis** Brian Paltridge, 2021-10-21
Outlining the core methodological and theoretical premises this book presents the essential approaches that you need to know when doing discourse analysis for the first time Chapters cover discourse and society discourse and pragmatics discourse and genre discourse and conversation discourse grammar corpus approaches multimodal discourse and critical discourse analysis Encompassing the latest trends and developments this third edition includes A new chapter on discourse and digital media New topics including English as a lingua franca linguistic landscapes and translanguaging Updated examples from a variety of global perspectives and contexts ranging from North America to East Asia Updated discussion questions throughout Each chapter also features exercises discussion questions and lists of further reading Alongside online resources with lecture slides extended readings and enhanced bibliographies this is the only book you need for doing discourse analysis *Coherence in Spoken and Written Discourse* Wolfram Bublitz, Uta Lenk, Eija Ventola, 1999
Until very recently coherence unlike cohesion was widely held to be a rather mystical notion However taking account of new trends representing a considerable shift in orientation this volume aims at helping relieve coherence of its mystifying aura The general bibliography which concludes the book bears witness to this intriguing development and the rapidly changing scene in coherence research Preceding this comprehensive up to date Bibliography on Coherence are 13 selected papers from the 1997 International Workshop on Coherence at the University of Augsburg Germany They share a number of theoretical and methodological assumptions and reflect a trend in text and discourse analysis to move away from reducing coherence to a product of formally represented cohesion and or semantically established connectivity Instead they start from a user and context oriented interpretive understanding and rely on authentic data throughout in relating micro linguistic to macro linguistic issues The first group of papers looks at the re creation of coherence in inter alia reported speech casual conversation argumentative writing news reports and conference contributions The second group describes the negotiation of coherence in oral examinations text summaries and other situations that require special efforts on the part of the recipient to overcome misunderstandings and other disturbances The third group discusses theoretical approaches to the description of coherence **Register Variation in the New Testament Petrine Texts** Chiaen Liu, 2022-02-07 This book examines the nature of the early church from a Petrine perspective employing an analysis of register to implement a more synthetic study of relevant texts in the New Testament Liu utilises a type of discourse analysis that provides a framework for classifying grammatical and lexical information so that the reader can better understand the social function of not only Peter's speeches in Acts but also the two epistles attributed to him Liu's original and detailed study looks at the content and structure of the

texts to enhance our understanding of the early church with particular attention paid to the dichotomy between Petrine and Pauline Christianity and their competing pictures of Christian origins This book will interest all scholars and students who wish to extend their understanding of both the historical and literary Peter **The Return of the King** Michael K. Snearly,2015-11-19 The clear structure of psalm groups in Psalms 107 150 can be interpreted as signaling a renewed hope in the royal Davidic promises Each psalm group of Book V is organized around a theme or key word that is related to the royal Davidic hope in the earlier sections of the Psalter Psalms 107 118 Psalm 119 Psalms 120 137 Psalms 138 145 Psalms 146 150 These words and themes figure prominently at the major seam psalms of the Psalter Psalms 1 2 and 89 Thus the content and subject matter at the end of the Psalter is integrally related to the content and subject matter at the beginning The editorial critical method used by Snearly is an extension of the method used by David M Howard Jr in The Structure of Psalms 93 100 Snearly also draws from recent insights in the fields of poetics and text linguistics in order to establish a linguistically based foundation for reading the Psalter as a unified text The methodology emphasizes parallel features with special focus on key word links This method advances editorial criticism by not only discerning links within a group but also showing that those links do not occur with the same frequency outside of the group The Power of Discourse Moira Chimombo,Robert L.
