**The Technological Behaviour of Public Enterprises in Developing Countries** Jeffrey James, 2022-08-30 First published in 1989 The Technological Behaviour of Public Enterprises in Developing Countries presents essays based on original research work conducted for the International Labour Office to employ a wide variety of approaches and methodologies to analyse the technological choices made by public enterprises in Tanzania India Argentina and Brazil These empirical studies provide rich and detailed case study material on key issues such as the choice of technology and the acquisition of advanced technological capabilities The significance of the research findings in these areas and their policy implications are described in an introductory chapter and the volume as a whole is accessible and relevant to policy makers and academics who are concerned with industrial development in the developing world *Brazilian Multinationals* Afonso Fleury, Maria Tereza Leme Fleury, 2011-02-10 Since the 1950s subsidiaries of the most prestigious foreign multinationals have played a key role in Brazilian economic development thus creating a very competitive domestic market On top of this government interventions in the last few decades have been inconsistent and contradictory resulting in a series of economic crises Only the most resilient Brazilian firms have been able to survive and prosper in this challenging environment This book first published in 2011 analyzes a variety of leading Brazilian multinationals and examines their competencies and competitive strategies in a variety of different settings It develops an innovative analytical framework based on international business international operations management and international human resources management This framework is then applied not only to Brazilian multinationals but also firms from Latin America Russia India and China This provides novel insights into the rise of Brazilian multinationals and the increasingly important role played by emerging economy multinationals in the global economy **Technology and Innovation in the International Economy** Charles Cooper, 1994 The two major review essays Jeffrey James on microelectronic technology and Martin Fransman on biotechnology assess the impact of these new technologies on production trade employment and welfare in developing countries The Politics of Technology in Latin America Maria Ines Bastos, 2003-09-02 This collection sets out to explore technology policy in Latin America during the 1970s and 1980s It is based on country studies and industry studies in the main Latin American economies and examines the political turmoil surrounding protected industrialisation in these countries Uneven Development in the Third World A. Bhalla, 1996-11-26 The book defines uneven development in terms of development strategies and their outcomes Drawing on case studies from China and India three types of strategy are discussed heavy industrialisation sectoral regional balance and economic liberalisation Also three kinds of outcomes are examined growth of output and productivity income consumption and class inequalities in three spatial dimensions intra regional inter regional and rural urban Furthermore access to and utilisation of technology health and educational services are compared Globalization, Growth and Marginalization A.S. Bhalla, 1998-09-12 Globalization is defined in economic

terms to mean freer flows of trade foreign direct investment and finance and liberalization of trade and investment policies  
Impacts of globalization and information technology are examined in terms of growth and productivity poverty and income distribution and employment Experiences of Africa East and Southeast Asia South Asia and Latin America in the era of globalization are discussed It is argued that benefits of freer trade and capital flows need to be managed carefully in order to minimise the costs and maximise gains

**Report: New processes in mines other than coal mines, their effects on employment and training requirements and the need for employment and social policies to cope with these developments** ,1990

**Consumption, Globalization and Development** J. James,2000-04-19 This volume is concerned with the complexities of the relationship between globalization and different groups of consumers in developing countries Globalization it is argued can yield frustration and disappointment as well as welfare gains for consumers it may but does not necessarily displace local products and via the rapid recent expansion of the mass media it offers policy makers new opportunities to deal with acute social problems

Globalization, Information Technology and Development J. James,1999-02-24 Jeffrey James develops the insights of the often separate literatures on globalization and information technology and demonstrates their interdependence The central insight is that globalization is mainly a technological phenomenon driven by influences exerted on international trade and foreign investment by various forms of information technology Developing countries however are not sharing equally in the gains from globalization thus induced by the new technologies These gains tend to be concentrated among a narrow group of relatively advanced countries and moreover within some of those countries information technology appears to exacerbate existing income inequalities

**Macro Policies For Appropriate Technology In Developing Countries** Frances Stewart,2019-04-23 This book explores the effects of macro policies and determines which policies have best promoted appropriate technology in developing countries It explores the political economy of macro policies examining which groups in society are likely to benefit from alternative policies and technologies

*The State, Technology and Industrialization in Africa* J. James,1995-04-12 Industrialization in Africa has relied heavily on state institutions of various kinds and on the inflow of foreign capital especially foreign aid With particular reference to technology and on the basis of a wide range of case studies this book explains how these features of the African experience have jointly contributed not only to the many cases of failure in the public sector but also to a number of exceptional cases that can be regarded as success stories

**The Economics of Public Enterprise** V. V. Ramanadham,2019-02-11 Public enterprises have played a central part in the development of all mixed economies in the post war period but they are now in a

crisis phase Privatisation has pushed back the level of public enterprise almost throughout the world Where public enterprises remain they are being brought under significant reforms Originally published in 1991 this book presents a comprehensive critique of public enterprise analysing why its performance has fallen far short of expectations Part one is concerned with the establishment of public enterprises the case for them the circumstances in which they emerged the extra enterprise objectives attached to them and the decisions on their investment feasibility and capital structure Part two looks at the working of public enterprises the state of their financial performance the peculiarities of pricing the determination of targets which they should meet the continuous monitoring and evaluation of their operations Macro concerns are the focus of Part three Among the issues addressed are the level of indirect taxation and subsidisation implicit in the pricing structures of public enterprises the links between public enterprise and the public exchequer and the implications of their operations for distributional equity In Part four the extent to which privatisation can solve the problems of public enterprise is discussed The book ends with some broad conclusions on the future of public enterprise Throughout the approach is analytical but the arguments are supported by extensive examples from both developed and developing economies **Strengthening**

**Technological Capabilities** International Labour Office,1992 This book offers a review of ILO activities on technology reveals the challenges of endogenous capacity building in developing countries The book covers a range of areas including technology policy assessment evaluation of the impact of new technologies on employment working conditions and working environment *Chinese Firms and Technology in the Reform Era* Yizheng Shi,2012-11-12 In *Chinese Firms and Technology in the Reform Era* Yizheng Shi analyses the technological behaviour of state owned firms In particular he shows how they have imported utilised and assimilated foreign technology into their operations The author argues that despite being granted more autonomy and having to face increased competition Chinese firms are still not motivated to assimilate properly imported technology because of the absence of well delineated property rights *The Routledge Handbook of State-Owned Enterprises* Luc Bernier,Massimo Florio,Philippe Bance,2020-05-27 State owned enterprises make up roughly 10 percent of the world economy yet they are woefully understudied This handbook offers the first synthesis of the topic since the 1980s and offers a comprehensive reference for a generation The authors provide a detailed explanation of the theory that underpins the expansion of state owned enterprises in the 21st century Each chapter delivers an overview of current knowledge as well as identifying issues and relevant debates for future research The authors explain how state owned enterprises are used in both developed and developing countries and offer an insight into complex and fascinating organizations such as the German municipal conglomerates or the multinational companies owned by states New modes of governance and regulation have been invented to make sure they act in the public interest This handbook brings together a wealth of international scholars offering multiple theoretical perspectives to help shape a brave new world It will be of interest to teachers and students of Economics Public Administration and Business academics established researchers and

PhD students seeking rigorous literature reviews on specific aspects of SOEs as well as practitioners and decision makers in international organizations     **Journal of Economic Literature** ,1990     *Facing the Technological Challenge* ,1985
