**Technological Capabilities and Learning in African Enterprises** Tyler Biggs, Manju Shah, Pradeep Srivastava, 1995-01-01      **Structural Aspects of Manufacturing in Sub-Saharan Africa** Tyler Biggs, Pradeep Srivastava, 1996-01-01 Urban Management Programme Paper No 20 Reviews the specific actions that municipalities and city governments may take in contributing to urban poverty reduction The paper highlights example of issues options and constraints that urban governments must address in fighting poverty It focuses on municipalities and other city level government entities as a critical institutional level of intervention Other language editions available French Stock No 13814 ISBN 0 8213 3814 5 Spanish Stock No 13813 ISBN 0 8213 3813 7      **Technologies for Rainfed Agriculture in Mediterranean Climates** Peter Oram, C. de Haan, 1995-01-01 This report describes the results of a survey of 1 000 multinational corporations undertaken in 1992 which asked about the importance of environmental issues in investment decisions The survey shows that most large corporations look systematically at environmental questions when they decide where to invest Environmental problems appear to have discouraged a number of investments across different industries and the question of liability for past pollution problems at industrial sites was the greatest concern for investors      **Medicinal Plants** John Lambert, Jitendra Srivastava, Noel Vietmeyer, 1997-01-01 The complex and important relationship between public expenditure and economic performance has been the subject of numerous econometric studies But the studies remain inconclusive some results have shown positive relationships while others are negative Thus there is no conventional wisdom backed by statistical evidence on this relationship nor is there any sort of clear theoretical underpinning that explains how the aggregate of government spending acts on the growth of total output This book studies the role of public expenditures in a noneconometric way by examining a number of specific instances of these expenditures and their direct effect on economic performance Specifically the authors presents scenarios from Botswana Ghana Guinea Kenya and Zambia and ask a series of questions to identify and illuminate the impact of these instances of public expenditure on a number of variables that help measure economic performance These examples are then used to make generalizations about the relationship between public spending and economic performance      **Africa Can Compete!** , 1996 All 15 new independent states established in the economic space of the former Soviet Union suffered big declines in output and trade after gaining independence This study summarizes cross country experience on the role of trade and payments policies in the linked contraction of output and trade by drawing on eight country case studies Estonia the Kyrgyz Republic Latvia Lithuania Moldova Russia Ukraine and Uzbekistan The results of the case studies show that trade reform and reorientation of trade toward the rest of the world have done much to arrest the decline in output usually associated with the transformation from plan to market Also available in English Stock no 13615 ISBN 0 8213 3615 0      **A Mining Strategy for Latin America and the Caribbean** , 1996-01-01 Technical papers that assess the current state of mining in parts of Latin America and propose a framework for growth in the
