Technological Change:

Technological Change and Productivity Growth Albert N. Link, 2001 This volume reviews the literature on productivity growth and relates it to the production function approach to technological change

Economics and Technological Change Rod Coombs, Paolo Saviotti, Vivien Walsh, 1987 An area of neglect in much of current economic theory has been its lack of attention to the impact of technological innovation on the structure and behavior of firms and the market This book is a comprehensive study of the economic implications of technological change for three primary institutions the firm the market and the civil sector

Microdynamics of Technological Change Cristiano Antonelli, 2002-01-04 This volume presents a comprehensive assessment of the economic effects of the emerging information and communication technologies associated with a knowledge based economy and looks at how knowledge is increasingly treated as a product in its own right An original framework is developed to comprehend these fundamental shifts based on three bodies of knowledge the economics of path dependence and of historical time as they are elaborated in the economics of new technologies economic topology based on the methodology of network analysis the new economics of knowledge and the concept of localized technological change This book provides a unified analytical framework for the study of the transition of advanced economic systems towards a knowledge based economy

Technological Change Aurora Teixeira, 2012-04-11 Technological change is today central to the theory of economic growth It is recognised as an important driver of productivity growth and the emergence of new products from which consumers derive welfare It depends not only on the work of scientists and engineers but also on a wider range of economic and societal factors including institutions such as intellectual property rights and corporate governance the operation of markets a range of governmental policies science and technology policy innovation policy macroeconomic policy competition policy etc historical specificities etc Given that technology is explicitly taken up in the strategies and policies of governments and firms and new actors both in the national and international arenas become involved understanding the nature and dynamics of technology is on demand I anticipate that this book will decisively contribute in this regard

Technological Change Clotilde Coron, Patrick Gibert, 2020-06-16 Technological change is exciting as much as it is daunting The arrival of new digital tools affects consumption patterns types of employment and working conditions and can pose challenges to organizations and individuals alike Indeed although technological change is a factor for economic growth it can also be an amplifier or even a catalyst of inequality It is also a social change and interacts in complex ways technology is both the source and the consequence of social transformation To understand technological change and to harness its effects this book studies transformations at different levels societal organizational and individual In its analysis of the subject it also draws on a number of disciplines of the human and social sciences such as anthropology sociology and psychology

Innovation, Entrepreneurship, and Technological Change Albert N. Link, Donald S. Siegel, 2007-06-07 A comprehensive and integrative overview of the current thinking on innovation entrepreneurship and

technical change written from an economics perspective for academics graduate and advanced undergraduate students of Business Studies Economics Entrepreneurship and Innovation Studies *Society and Technological Change* Rudi

Volti,Jennifer Croissant,2024-03-19 Society and Technological Change continues to be the essential text for exploring the relationship between human societies and the ever evolving landscape of technology The ninth edition follows the historical trajectory of technological development and its profound impact on various aspects of human life from communication and healthcare to economic systems and governance At the same time it shows how these technologies have themselves been shaped by social economic cultural and political forces and that the study of technology is important not just for its own sake but also for what it tells us about the kinds of societies we make for ourselves With its engaging writing style and thought provoking content this new edition continues to be an indispensable resource for students scholars and anyone seeking a deep understanding of the intricate bond between society and technology in our ever evolving world **Technological**

Change and Skill Development in Arab Gulf Countries Samia Mohamed Nour,2013-12-02 This book discusses skill formation upskilling of workers and their interaction with technological change in Gulf countries Heavy dependence on oil the Dutch Disease and the high incidence of unskilled foreign workers have caused serious structural imbalances in the labour market in the Gulf The author shows that success of economic development strategies to address such imbalances are all contingent upon the development of adequate and appropriate skills in the region This book confirms the role and impact of the deficiencies in the educational system alongside the well established effects of the excessive use of uneducated foreign workers and lack of incentives in the labour market A comprehensive investigation of the skill problem and an elaborate in depth analysis to assess the causes consequences and relationships between poor skills and technological performance are highlights of this book This is an ideal resource for policy makers in the Gulf region and researchers of the topic

Technological Change and Manpower Development D K Bhattacharyya,2008 Manpower development and HR functions are now getting highly influenced by technological changes Successful technological change requires HR support although such support areas differ from organization to organization This book is an attempt to discuss all the aspects of manpower development issues in technological era This book provides a comprehensive text for HR students It addresses the organizations requirement to practice the technology management issues focusing more on human resource functions Some key areas explained in this book are training and development Compensation performance management new skill development issues management of change etc The book deals with some new age tools like Balance Scorecard HR Scorecard Competency Mapping and Knowledge Management Areas which are commonly used in this new age technology era to track measure and develop manpower to sustain in competition In the absence of a customised textbook in this area of study this book has been developed to understand intricate technological change issues especially those which influence HR functions and manpower development aspects *Upgrade Culture and Technological Change* Adam Richard

Rottinghaus,2021-12-30 This book explores the origin and future of upgrade culture a collection of cultural habits and orientations based on the assumption that new technologies will rapidly perpetually and inevitably emerge By analyzing discourses of technological change and the practices of marketing workers inside the consumer technology industry between the early 1980s and the late 2010s the book describes the genesis maintenance and future of upgrade culture Based on archival and popular sources first hand interviews with a range of industry professionals and participant observations at industry only events the book attends to issues both intimate to the culture of marketing work and structural to the organization of the consumer technology industry This book will have a broad appeal to social cultural theorists of technology marketing and consumerism as well as to scholars in business history communication cultural studies media studies sociology and anthropology The Introduction of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license <https://www.taylorfrancis.com/chapters/oa-monograph/10.4324/9781003193869-1/introduction-adam-richard-rottinghaus-context-ubx-refId/1bb75408b5c24a69bd20082a73a77920>

Technological Change & Labour Relations Muneto Ozaki,1992 A study which looks at the reciprocal influence of technological change and labour relations and includes case studies from six industrialized market economy countries as well as a comparative chapter The book focuses on the introduction of microelectronic technology in machinery manufacturing banking and printing to examine how workers participated in the changeover and how labour relations in the enterprises studied were affected by the new technology

Technological Change and Organizational Action Juha Laurila,David Preece,2003-09-02 This book brings together a comprehensive collection of empirically grounded and theoretically informed research projects from studies of organizational practice which explore a number of technological changes

Technological Change and Skill Development in Sudan Samia Mohamed Nour,2013-02-01 With the ongoing restructuring in Sudan structural issues such as the need for skill development and interaction with technological change need an in depth analysis that this book offers The central themes of this book are required skill formation upskilling of the workers and their interaction with technological change in lieu of a deficient educational system and its implications An empirical investigation of the causes and consequences of low skill and technology indicators using a primary survey at macro and micro levels is undertaken This is followed by an examination of the interaction between the low skill and technology indicators the relationships between skill upskilling and technology indicators skills mismatch the uses and impacts of ICT and differences at firm as well as industry level as well as knowledge transfer effects A set of recommendations towards the need for implementation of consistent policies increasing incentives and collaboration between public and private institutions completes the book

Finance and Technological Change E. Santarelli,1995-11-15 A pioneering and valuable study linking finance to innovative activity not only is the theoretical framework sound thought provoking and creative but amply supported through systematic empirical testing David B

Audretsch Wissenschaftszentrum Berlin für Sozialforschung This book broadens the economic explanation of technological change by assuming that development and diffusion of new technologies are closely related to the financial arrangements and institutions which prevail in any given historical period To support his hypothesis the author combines theoretical prescriptions with empirical evidence the interdependences between technology and finance suggested in the first part of the book are therefore analysed from a historical perspective and a theoretical model is then applied to explain how R D is funded by new and already established firms in the data processing industry The book concludes with a survey of policy interventions towards various sources of innovation financing *Knowledge Flows, Technological Change and Regional Growth in the European Union* Małgorzata Runiewicz-Wardyn, 2013-06-14 The book provides conceptual and empirical insights into the complex relationship between knowledge flows and regional growth in the EU The author critically scrutinizes and enhances the RIS Regional Innovation System approach discussing innovation as a technological institutional and evolutionary process Moreover she advances the ongoing discourse on the role of space and technological proximity in the process of innovation and technological externalities The book closes with an investigation of the role of technological change and knowledge spillovers in the dynamic growth and catching up of EU regions **Technological Change In The German Democratic Republic** Raymond Bentley, 2019-07-11 Focusing on East Germany's capacity to innovate and diffuse technology this book sheds light on the technological gap that has developed between the two Germanies Dr Bentley compares the sophistication of GDR and FRG technology in different industrial branches evaluates the strengths and weaknesses of the GDR's research and development system compares the R D effort of the two Germanies and discusses the government policies that affected technological change in GDR industry from 1945 to 1975 He identifies and analyzes hindrances to research innovation and diffusion in the fields of planning organization economic stimulation and ideology and looks at the formation of interest groups He also compares evidence from the GDR with data from other countries including the USSR **Handbook on the Economic Complexity of Technological Change** Cristiano Antonelli, 2011-01-01 This comprehensive and innovative Handbook applies the tools of the economics of complexity to analyse the causes and effects of technological and structural change It grafts the intuitions of the economics of complexity into the tradition of analysis based upon the Schumpeterian and Marshallian legacies The Handbook elaborates the notion of innovation as an emerging property of the organized complexity of an economic system and provides the basic tools to understand the recursive dynamics between the emergence of innovation and the unfolding of organized complexity In so doing it highlights the role of organizational thinking in explaining the introduction of innovations and the dynamics of structural change With a new methodological approach to the economics of technological change this wide ranging volume will become the standard reference for postgraduates academics and practitioners in the fields of evolutionary economics complexity economics and the economics of innovation **Technological Change In Agriculture** D. Hogg, 2000-02-11 Why do modern agricultural

techniques which are environmentally damaging continue to be used This path breaking book seeks the answer to that question in an understanding of evolution of agricultural research in its cultural context *The Endogenous Energy-Saving Technological Change in China's Industrial Sector* Xubo He,2022-11-29 As improving energy efficiency and increasing energy R it established a mathematical model for the endogenous energy saving technological advancement of the industrial sector based on heterogeneous R it estimated the energy saving technological progress rate of 37 Chinese industrial sub sectors from 1980 to 2010 fourth it has empirically examined the relationship between the heterogeneous R D investment in China s industrial sector and its energy saving technological advancement rate *Technological Change and the Evolution of Corporate Innovation* Birgitte Andersen,2001-01-01 Birgitte Andersen revisits in a modern context the ideas of Kuznets on technological growth paths but emphasises the structural variety in patenting where earlier authors focused on aggregate trends This is an important contribution for scholars interested in the interface between the recent history of technology and evolutionary economics John Cantwell Rutgers University US
