Technological Decisions And Democracy European Experiments In Public Participation:

Technological decisions and democracy Dorothy Nelkin,1977 *Public Participation in Science* Simon Joss,John Durant,1995 The call for increased public involvement in the formulation of science and technology policy has resulted in the consensus conference an initiative which involves lay people in the assessment of socially sensitive topics This book draws together the pioneering experiences of the Danish Dutch and British organisers of consensus conferences as well as offering a scheme developed at a multinational two day workshop in 1995 in London for producing comparable data for the evaluation of consensus conferences **Public Participation and Better Environmental Decisions** Frans H. J. M.

Coenen,2008-12-12 *Public Participation and Better Environmental Decisions* is about a specific promise that participation holds for environmental decision making Many of the arguments for public participation in inter national environmental policy documents are functional that is to say they see public participation as a means to an end Sound solutions to environmental problems require participation beyond experts and political elites Neglecting information from the public leads to legitimacy questions and potential conflicts There is a discourse in the literature and in policy practice as to whether decision making improves in quality as additional relevant information by the public is considered The promise that public participation holds has to be weighed against the limitations of public participation in terms of costs and interest conflicts The question that *Public Participation and Better Environmental Decisions* seeks to answer for academics planners and civil servants in all environmental relevant policy fields is What restricts and what enables information to hold the promise that public participation lead to better environmental decision making and better outcomes Elgar Encyclopedia of Science and Technology Studies Ulrike Felt,Alan Irwin,2024-10-03 This Encyclopedia provides a comprehensive overview of the expanding field of science and technology studies STS Covering key frameworks themes and topics Ulrike Felt and Alan Irwin bring together expert contributors to map the development of STS within its historical and intellectual context

Technological Decisions and Democracy Dorothy Nelkin,1977-10 Using data from European experiments permitting the public to help determine the usage of technological innovation Dorothy Nelkin provides information on a process involving difficult social choices She examines the question of whether the public should be entitled to a say in determining the impact of technological processes on their daily lives She details individual government efforts to promote broader public participation in decision making The book will be of value to all those concerned with the social and policy dimensions of science and technology Professor Nelkin s essay is written with the clarity and precision characteristic of her earlier writings Apart from its value as a summary of information not readi *Parliaments and Technology* Norman J. Science, Technology, and Society David D. Kumar, Daryl E. Chubin, 2012-12-06 David D Kumar and Daryl E Chubin We live in an information age Technology abounds information technology communication technology learning technology As a once popular song went Something's happening here but it's just not exactly clear The world appears to be a smaller less remote place We live in it but we are not necessarily closely tied to it We lack a satisfactory understanding of it So we are left with a paradox In an information age information alone will neither inform nor improve us as citizens nor our democracy society or institutions No improvement will take some effort It is a heavy burden to be reflective indeed analytical and disciplined but only constructively constrained by different perspectives The science based technology that makes for the complexity controversy and uncertainty of life sows the seeds of understanding in Science Technology and Society STS as it is known encompasses a hybrid area of scholarship now nearly three decades old As D R Sarewitz a former geologist now congressional staffer and an author put it After all the important and often controversial policy dilemmas posed by issues such as nuclear energy toxic waste disposal global climate change or biotechnology cannot be resolved by authoritative scientific knowledge instead they must involve a balancing of technical considerations with other criteria that are explicitly nonscientific ethics aesthetics equity ideology Trade offs must be made in light of inevitable uncertainties Sarewitz 1996 p 182

Low-carbon Energy Controversies Thomas Roberts, Paul Upham, Sarah Mander, Carly McLachlan, Philip Boucher, Clair Gough, Dana Abi Ghanem, 2013 Governments big business and communities are coming under increased pressure to develop low carbon energy supply technologies However public opposition to the development of the siting and implementation of the technology associated infrastructure often complicates progress This is sometimes labelled the not in my backyard or NIMBY attitude an unhelpful tag as conflicts over new development between governments local authorities business and communities are generally far more complex than NIMBY theory implies Furthermore within the context of the climate change debate a delicate balance has to be reached between local environmental protection and our need for reliable low carbon energy This comprehensive book builds on over 10 years of research conducted by the Tyndall Centre for Climate Change Research and uses a range of case studies from carbon capture and storage to on shore wind farms to explore the complex nature of disputes between a wide variety of stakeholder groups Topics covered include the importance of context the relationship between risk and trust sense of place and the role of the media An invaluable resource for researchers and readers in local or national government industry or community groups who wish to deepen their understanding of controversy around low carbon technology and how to overcome it

Policymaking Under Adversity Yehezkel Dror,2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror s Public Policymaking Reexamined by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners Between Understanding and Trust Meinolf

Dierkes,Claudia von Grote,2005-06-28 This is a welcome book The issues of public understanding of science open many questions What does understanding mean How does understanding translate into attitudes towards science and trust in scientists What is the role of the mass media The essays in this book shed light on such questions bringing insights from several disciplines They help to define a meaningful research agenda for the future Professor Dorothy Nelkin New York University **Gene Therapy: Prospective Technology assessment in its societal context** Jörg Niewöhner,Christof

Tannert,2011-08-19 This book presents work that has been conducted as part of the research project Discourse on ethical questions of biomedicine of the interdisciplinary Working Group Bioethics and Science Communication at the Max Delbrueck Center for Molecular Medicine MDC in Berlin Buch Germany This book offers ground breaking ideas on how the daily interworking of cutting edge biomedical research assess the broader social context and its communication to stakeholders and the public Editors cover three aspects Scientific Ethical and Legal and Perception and Communication This work establishes an international and interdisciplinary network of excellent researchers at the beginning of their careers who brilliantly integrate their work into the different perspectives on gene therapy from the natural and social sciences as well as

the humanities and law Discusses biological and cellular barriers limiting the clinical application of nonviral gene delivery systems Addresses such questions as Does patent granting hinder the development of Gene Therapy products Offers insight in the future of public perception of gene therapy in Europe Provides details on how to communicate risks in gene therapy
