Uses of Technology in Primary and Secondary Mathematics Education Lynda Ball, Paul Drijvers, Silke Ladel, Hans-Stefan Siller, Michal Tabach, Colleen Vale, 2018-05-14 This book provides international perspectives on the use of digital technologies in primary lower secondary and upper secondary school mathematics. It gathers contributions by the members of three topic study groups from the 13th International Congress on Mathematical Education and covers a range of themes that will appeal to researchers and practitioners alike. The chapters include studies on technologies such as virtual manipulatives, apps, custom built assessment tools, dynamic geometry, computer algebra systems and communication tools. Chiefly focusing on teaching and learning mathematics, the book also includes two chapters that address the evidence for technologies' effects on school mathematics. The diverse technologies considered provide a broad overview of the potential that digital solutions hold in connection with teaching and learning. The chapters provide both a snapshot of the status quo of technologies in school mathematics and outline how they might impact school mathematics ten to twenty years from now.

The Routledge Handbook of Media and Technology Domestication Maren Hartmann, 2023-06-28 This Handbook offers a comprehensive overview of media domestication, the process of appropriating new media and technology, and delves into the theoretical, conceptual and social implications of the field's advancement. Combining the work of the long established experts in the field with that of emerging scholars, the chapters explore both the domestication concept itself and domestication processes in a wide range of fields, from smartphones used to monitor drug use to the question of time in the domestication of energy buildings. The international team of authors provide an accessible and thorough assessment of key issues, themes and problems with and within domestication research, and showcase the most important developments over the years. This truly interdisciplinary collection will be an important resource for advanced undergraduates, postgraduates and academic scholars in media communication and cultural studies, sociology, anthropology, cultural geography, design studies and social studies of technology. Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license.
