This is a study of export controls high technology and information and US controls It looks at the impact of export controls on the United States on the Allies and on the Soviet bloc **National Security Affairs Conference : Long Range US-USSR**

Competition : National Security Implications ,1976 **U.S. National Security Export Controls** Arvind Parkhe,1990

Tech Wars: US-China Technology Competition and What it Means for Australia Brendan Thomas-Noone,2020-06-16
Technology is now the defining element of the Trump administration s self professed strategic competition with China Washington is highly attuned to the long term consequences and links between scientific progress technological adaptation and national power in burgeoning US China competition Policymakers are attempting to balance efforts to maintain the open and global foundations of US and allied research and development systems while deterring those that abuse its accessible and integrated nature While President Donald Trump has been highly inconsistent on technological issues Congress and the executive branch have slowly moved forward in executing the 2017 National Security Strategy and protecting what it termed the US National Security Innovation Base Congress and the Trump administration have embarked on a ponderous and at times heavy handed effort to protect America s technological advantage across multiple domains and through actions by several branches of government Congress has expanded the powers of the Committee of Foreign Investment to review non controlling investments in technology companies New export controls are being rolled out which feature vastly more expansive definitions of foundational and emerging technologies broadening their scope and potential reach The Department of Justice has launched a major criminal justice campaign labelled the China Initiative with the goal of prosecuting technology theft and enforcing existing regulations in every US state Draft bills indicate the likely expansion of Congressional reform to halting the flow of US government funds flowing to overseas partners also involved in joint high tech research and development R D with China affecting third parties like Australia Australia will be significantly affected by Washington s unravelling of the US China technological relationship owing to its deep enmeshment with America s scientific infrastructure To navigate these changes in the national interest Canberra must consider the following Australia will face growing pressure to limit its science and technology interaction with China in critical dual use fields in order to maintain technological collaboration with the United States in some emerging technologies and may even be required to adopt restrictive export control policies Australian research by universities defence industry business and government agencies will be seriously impacted by the United States expanded export control reform Canberra should continue to lobby US policymakers on

solutions such as providing exemptions under the National Technology and Industrial Base framework As the global technological ecosystem becomes more nationalised securitised and difficult to navigate for industry and governments alike Australia should implement a national research and development strategy that builds its own technological counterweight

Research on Industrial Security Theory Menggang Li,2013-12-09 This book offers a systematic discussion and explanation on what industrial security is what the influencing factors of industrial security are how industrial security should be evaluated and how early warnings should work from the viewpoint of developing countries Studying theories of industrial security is necessary for the development of industrial economics theory innovations in industrial economy studies and an important supplement to and improvement on the theories of industrial economics Also studying industrial security theories can offer valuable guidance for the practice of industrial economics and national industrial policy making

National security export controls United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Economic Policy and Trade,1988 **THE NEW GLOBAL ORDER** DR. CHARLES O. OGUTU,2025-09-26 The twenty first century has ushered in a decisive transformation in global politics The brief period of American dominance has given way to an uncertain and contested multipolar order The New Global Order International Relations and Security in the 21st Century offers a clear and authoritative analysis of this shift and its implications for states institutions and societies The book examines how power is redistributed among the United States China Russia and other emerging actors while highlighting the influence of middle powers and non state groups It explores the intersections of great power rivalry with transnational challenges such as climate change pandemics cyber conflict and migration showing how these forces shape opportunities and vulnerabilities in today s interconnected world Grounded in international relations theory yet attentive to real world policy debates the book combines regional studies with functional analysis to present a comprehensive understanding of twenty first century security Designed for scholars policymakers and engaged readers alike this volume equips audiences to interpret the shifting global landscape with clarity foresight and informed judgment *Arming our allies : cooperation and competition in defense technology*. United States. Congress. Office of Technology Assessment,1990

The Reagan Administration Helga Haftendorn,Jakob Schissler,2019-08-01 To celebrate the 270th anniversary of the De Gruyter publishing house the company is providing permanent open access to 270 selected treasures from the De Gruyter Book Archive Titles will be made available to anyone anywhere at any time that might be interested The DGBA project seeks to digitize the entire backlist of titles published since 1749 to ensure that future generations have digital access to the high quality primary sources that De Gruyter has published over the centuries *States, Firms, and Power* George E. Shambaugh,1999-08-12 States Firms and Power uncovers the workings behind frequently maligned and often misapplied economic sanctions and incentives that have emerged as the United States policy tools of choice Shambaugh uses a theory of economic statecraft to analyze the sources and limitations of power relations between states and firms The book features a

statistical analysis of 66 sanction episodes since 1949 including detailed case studies of U S sanctions in the energy computer and telecommunications industries in the 1980s and current U S sanctions against foreign companies conducting business in Cuba Iran and Libya Understanding when and why economic statecraft works provides insights into the nature and exercise of power in world politics that can in turn guide policy makers in their use of sanctions and incentives against friends foes and firms

Long Range US - USSR Competition Don O. Stovall,1976 **The Politics of Ballistic Missile**

Nonproliferation W. Bowen,2000-01-20 During the presidency of George Bush 1989 93 the proliferation of nuclear chemical and biological weapons and the ballistic missiles capable of delivering them rose greatly in significance as issues on the American security agenda In the missile field this became evident by the efforts of certain elements in the executive branch and several congressmen to improve domestic and international implementation of the Missile Technology Control Regime The Politics of Ballistic Missile Nonproliferation examines the political bureaucratic and systemic issues that interacted to determine the outcome of these efforts

Cryptography's Role in Securing the Information Society Committee to Study National Cryptography Policy,Computer Science and Telecommunications Board,Division on Engineering and Physical Sciences,National Research Council,1996-11-12 For every opportunity presented by the information age there is an opening to invade the privacy and threaten the security of the nation U S businesses and citizens in their private lives The more information that is transmitted in computer readable form the more vulnerable we become to automated spying It s been estimated that some 10 billion words of computer readable data can be searched for as little as 1 Rival companies can glean proprietary secrets anti U S terrorists can research targets network hackers can do anything from charging purchases on someone else s credit card to accessing military installations With patience and persistence numerous pieces of data can be assembled into a revealing mosaic Cryptography s Role in Securing the Information Society addresses the urgent need for a strong national policy on cryptography that promotes and encourages the widespread use of this powerful tool for protecting of the information interests of individuals businesses and the nation as a whole while respecting legitimate national needs of law enforcement and intelligence for national security and foreign policy purposes This book presents a comprehensive examination of cryptography the representation of messages in code and its transformation from a national security tool to a key component of the global information superhighway The committee enlarges the scope of policy options and offers specific conclusions and recommendations for decision makers Cryptography s Role in Securing the Information Society explores how all of us are affected by information security issues private companies and businesses law enforcement and other agencies people in their private lives This volume takes a realistic look at what cryptography can and cannot do and how its development has been shaped by the forces of supply and demand How can a business ensure that employees use encryption to protect proprietary data but not to conceal illegal actions Is encryption of voice traffic a serious threat to legitimate law enforcement wiretaps What is the systemic threat to the nation s information infrastructure These and other thought

provoking questions are explored *Cryptography's Role in Securing the Information Society* provides a detailed review of the Escrowed Encryption Standard known informally as the Clipper chip proposal a federal cryptography standard for telephony promulgated in 1994 that raised nationwide controversy over its Big Brother implications The committee examines the strategy of export control over cryptography although this tool has been used for years in support of national security it is increasingly criticized by the vendors who are subject to federal export regulation The book also examines other less well known but nevertheless critical issues in national cryptography policy such as digital telephony and the interplay between international and national issues The themes of *Cryptography's Role in Securing the Information Society* are illustrated throughout with many examples some alarming and all instructive from the worlds of government and business as well as the international network of hackers This book will be of critical importance to everyone concerned about electronic security policymakers regulators attorneys security officials law enforcement agents business leaders information managers program developers privacy advocates and Internet users

Conflict and Cooperation in National Competition for High-Technology Industry National Research Council, Kiel Institute for World Economics, Hamburg Institute for Economic Research, Board on Science, Technology, and Economic Policy, 1996-10-15 This unique volume contains a powerful set of recommendations on issues at the center of international discussions on investment trade and technology policy They take into account the globalization of industrial activity and the special characteristics of high technology industries while recognizing the continued policy role of national governments The book identifies the rationale for promotional measures for high technology industries delineates sources of friction among the leading industrial countries and proposes policies to enhance international cooperation and strengthen the multilateral trading regime This volume also examines the factors driving collaboration among otherwise competing firms and national programs highlights the need to develop principles of equitable public and private international cooperation and emphasizes the linkage between investment government procurement and other trade policies and prospects for enhanced international cooperation

International Antitrust Law and Policy: Fordham Competition Law 2014 Barry E. Hawk, 2015-03-01 This volume contains articles and panel discussions delivered during the Forty first Annual Fordham Competition Law Institute Conference on International Antitrust Law Policy About the Proceedings Every October the Fordham Competition Law Institute brings together leading figures from governmental organizations leading international law firms and corporations and academia to examine and analyze the most important issues in international antitrust and trade policy of the United States the EU and the world This work is the most definitive and comprehensive annual analysis of international antitrust law and policy available anywhere The chapters are revised and updated before publication where necessary As a result the reader receives up to date practical tips and important analyses of difficult policy issues The annual volumes are an indispensable guide through the sea of international antitrust law The Fordham Competition Law Proceedings are acknowledged as simply the most definitive US EC annual

analyses of antitrust competition law published Each annual edition sets out to explore and analyze the areas of antitrust competition law that have had the most impact in that year Recent hot topics include antitrust enforcement in Asia Latin America competition enforcement in the areas of telecommunications media and information technology All of the chapters raise questions of policy or discuss new developments and assess their significance and impact on antitrust and trade policy

US-China Strategic Competition S. Mahmud Ali, 2015-05-14 This book examines the nature and consequences of strategic competition between the US and China which affects the global security landscape and the emerging security architecture across the broader Asia Pacific region The author illustrates the evolution of Sino US security interactions from the anti Soviet alliance to temporary marginalization to eventual strategic competition and examines cases that could potentially escalate into greater conflicts The analysis offers tantalizing glimpses into both the dangers and promising opportunities presented by this strategic fork in the road making it of great interest to researchers and scholars in the fields of international relations and security studies

Balancing the National Interest National Academy of Sciences, National Academy of Engineering, Institute of Medicine, Committee on Science, Engineering, and Public Policy, Panel on the Impact of National Security Controls on International Technology Transfer, 1987-02-01 The U S national security export controls system which was instituted to impede Soviet acquisition of high technology from the West is both necessary and appropriate *Balancing the National Interest* provides a thorough analysis of this controls system examining the current system of laws regulations international agreements and organizations that control the international transfer of technology through industrial channels Foreign Affairs calls it the best on the subject to have been published in the 40 years that the United States has exercised controls on exports that might add to Soviet power
