Technology In American Literature:

Technology in American Literature Kathleen N. Monahan, James S. Nolan, 2000-07-05 Is technology a boon to humanity providing us with the means to further the dignity and prosperity of the human race Or is it a deceptive lure that will draw society into a mind numbing state where our essence is stripped and we become machines ourselves This reader draws together works that explore both answers to the question of technology s beneficence Technology in American Literature is a great reference source for literature classes as well as for technological institutions seeking to introduce humanities into the curriculum The Fabrication of America Inger Hunnerup Dalsgaard, 2000 *The Influence of Machines and Technology on American Literature of the Late Nineteenth and Early Twentieth Centuries* Robert Kendall Dodge, 1967 **American Literature and Science** Robert Scholnick, 2014-07-11 Literature and science are two disciplines are two disciplines often thought to be unrelated if not actually antagonistic But Robert J Scholnick points out that these areas of learning up through the beginning of the nineteenth century were understood as parts of a unitary endeavor By mid century they had diverged but literature and science have continued to interact conflict and illuminate each other In this innovative work twelve leaders in this emerging interdisciplinary field explore the long engagement of American writers with science and uncover science s conflicting meanings as a central dimension of the nation s conception of itself Reaching back to the Puritan poet minister physician Edward Taylor who wrote at the beginning of the scientific revolution and forward to Thomas Pynchon novelist of the cybernetic age this collection of original essays contains essential work on major writers including Franklin Jefferson Poe Emerson Thoreau Twain Hart Crane Dos Passos and Charles Olson Through its exploration of the ways that American writers have found in science and technology a vital imaginative stimulus even while resisting their destructive applications this book points towards a reconciliation and integration within culture An innovative look at a neglected dimension of our literary tradition American Literature and Science stands as both a definition of the field and an invitation to others to continue and extend new modes of inquiry *The Assault on Progress* J. Adam Johns, 2008 A belief in progress is a fundamental ethos in American history and culture The Assault on Progress probes American literary works that challenge the prevailing notion of technology as a manifestation of progress J Adam Johns argues that the idea of technology as destiny has long been explored and undercut in American literary works and that literature remains a crucial site for ongoing debates in this area BOOK JACKET **The Continuum Encyclopedia of American Literature** Steven R. Kerkerling, 2003-12-11 John D Kerkerling s study examines the literary history of racial and national identity in nineteenth century America Kerkerling argues that writers such as DuBois Lanier Simms and Scott used poetic effects to assert the distinctiveness of certain groups in a diffuse social landscape Kerkerling explores poetry s formal properties its sound effects as they intersect with the issues of race and nation He shows how formal effects ranging from meter and rhythm to alliteration and melody provide these writers with evidence of a collective identity whether national or racial Through this shared reliance on formal literary effects national and racial identities Kerkerling shows are related elements of a single literary history This is the story of how poetic effects helped to define national identities in Anglo America as a step toward helping to define racial identities within the United States This highly original study will command a wide audience of Americanists *The Oxford*

Technology and Postmodern Subjectivity in Don DeLillo's Novels Randy Laist, 2010 More than any other major American author Don DeLillo has examined the manner in which contemporary American consciousness has been shaped by the historically unique incursion into daily life of information military and consumer technologies In DeLillo's fictions technological apparatuses are not merely set pieces in the characters' environments nor merely tools to move the plot along they are sites of mystery and magic whirlpools of space time and convex mirrors of identity Television sets filmic images automobiles airplanes telephones computers and nuclear bombs are not simply objects in the world for DeLillo's characters they are psychological phenomena that shape the possibilities for action influence the nature of perception and incorporate themselves into the fabric of memory and identity DeLillo is a phenomenologist of the contemporary technoscape and an ecologist of our new kind of natural habitat Through a close reading of four DeLillo novels *Technology and Postmodern Subjectivity in Don DeLillo's Novels* examines the variety of modes in which DeLillo's fictions illustrate the technologically mediated confluence of his human subjects and the field of cultural objects in which they discover themselves The model of interactionism between human beings and technological instruments that is implicit in DeLillo's writing suggests significant applications both to the study of other contemporary novelists as well as to contemporary cultural studies
