The Economics of Knowledge, Innovation and Systemic Technology Policy Francesco Crespi, Francesco Quatraro, 2015-05-15 There is wide consensus on the importance of knowledge for economic growth and local development patterns This book proposes a view of knowledge as a collective systemic and evolutionary process that enables agents and social systems to overcome the challenges of the limits to growth It brings together new conceptual and empirical contributions analysing the relationship between demand and supply factors and the rate and direction of technological change It also examines the different elements that compose innovation systems The Economics of Knowledge Innovation and Systemic Technology Policy provides the background for the development of an integrated framework for the analysis of systemic policy instruments and their mutual interaction the socio political and economic conditions of the surrounding environment These aspects have long been neglected in innovation policy as policymakers academics and the business community have mostly emphasized the benefits of supply side strategies However a better understanding of innovation policies grafted on a complexity based approach calls for the appreciation of the mutual interactions between both supply and demand aspects and it is likely to improve the actual design of policy measures This book will help readers to understand the foundations and working of demand driven innovation policies by stressing the importance of competent and smart demand

Multinational Enterprises in Asian

Development Premachandra Athukoralge, 2007-01-01 A remarkable product of analytical formulation data disaggregation and methodological rigour Anthony P D Costa Pacific Affairs Cross border investment is a key driver of the globalisation process and multinational enterprises a key driver of productivity growth This new book offers a comprehensive and informed evaluation of the role of multinationals in the world's fastest growing region The book will not only be of interest to researchers and students but also to analysts in the policy making community David Greenaway University of Nottingham UK This volume offers a wealth of information and insights into the roles of multinational enterprises in shaping recent economic developments in East and South Asia These direct investments which are now the dominant source of finance for the developing regions globally are generally welcomed today though this was untrue earlier However the cases in this volume draw out ways and contexts in which the greatest advantage may be sought from these capital inflows Robert E B Lucas Boston University US Foreign direct investment by MNCs once considered the bane of developing countries is today a leading indicator of their relative success The reality is more complicated however as this fresh assessment of the role of MNCs in Asia explains clearly and persuasively This study is a major contribution to literature on the role of MNCs in developing countries drawing heavily on the author's own original research on foreign direct investment in several Asian countries What is the role of MNCs in developing countries and how has it changed over the past two decades What are the cost and benefits to host developing countries of MNCs direct investment What measures should developing countries take to attract MNCs This book provides clear and convincing answers to these questions based on the kind of rigorous empirical analysis for which the author is renowned James Riedel The Johns Hopkins University School of Advanced International Studies US This book takes a fresh look at unresolved issues associated with the role of multinational enterprises and foreign direct investment in economic development in light of the experiences of developing countries in Asia Each chapter presents a self contained treatment of a specific theme relating to the developmental implications of MNEs encompassing the current state of the debate and relevant theory and policy implications The key aspects of MNE development interface covered in the

book include expansion of manufacturing exports global integration through international fragmentation of production research and development productivity growth susceptibility to and recovery from financial crises macroeconomic adjustment and international competitiveness and economic transition from plan to market Multinational Enterprises in Asian Development will prove a valuable reference tool for academics researchers and students focusing on trade development and international business Professional economists and policy makers wishing to broaden their understanding of the role of MNEs as an integral part of the international development policy will also find much to interest them in this book Science and Technology Policy in Africa Jeggan Colley Senghor, 2000 **A.I.D.
