Technology The Labor Process And The Working Class Essays:

Technology, the Labor Process, and the Working Class, 1976 *Capitalism, Technology, Labor* Greg Albo, Leo Panitch, Alan Zuege, 2020-08-04 The Socialist Register has been at the forefront of intellectual enquiry and strategic debate on the left for five decades This expertly curated collection analyzes technological innovation against the backdrop of the recurrent crises and forms of class struggle distinctive to capitalism As we enter what some term the fourth industrial revolution and both mainstream commentators and the left grapple with the implications of rapid technological development this volume is a timely and crucial resource for those looking to build a political strategy attentive to sweeping changes in how we produce goods and live our lives

Labor Literature, 1977 *Technocapitalism* Luis Suarez-Villa, 2012-08-03 A new version of capitalism grounded in technology and science is spawning new forms of corporate power and organization that will have major implications for the twenty first century Technological creativity is thereby turned into a commodity in new corporate regimes that are primarily oriented toward research and intellectual appropriation This phenomenon is likely to have major social economic and political consequences as the new corporatism becomes ever more intrusive and rapacious through its control over technology and innovation In his provocative book Technocapitalism Luis Suarez Villa addresses this phenomenon from the perspective of radical political economy and social criticism Grounded in the premise that relations of power influence how human creativity and technology are exploited by the new corporatism the author argues that new forms of democratic participation and resistance are needed if the social pathologies created by this new version of capitalism are to be checked Considering the new sectors affected by technocapitalism such as biotechnology nanotechnology bioinformatics and genomics Suarez Villa deciphers the common threads of power and organization that drive their corporatization These new sectors and the corporate apparatus set up to extract profit and power through them are imposing standards creating business models molding social governance and influencing social relations at all levels The new reality they create is likely to affect most every aspect of human existence including work health life and nature itself

Capitalist Patriarchy and the Case for Socialist Feminism Zillah R. Eisenstein, 2019-06-01 Fourteen provocative papers on the oppression of women in capitalist countries along with three articles on the subordinate position of women in two communist countries Cuba and China These important often path breaking articles are arranged in five basic sections the titles of which indicate the broad range of issues being considered Introduction motherhood reproduction and male supremacy socialist feminist historical analysis patriarchy in revolutionary society socialist feminism in the United States The underlying thrust of the book is toward integrating the central ideas of radical feminist thought with those pivotal for Marxist or socialist class analysis

Beyond Capital István Mészáros, 1995 Meszaros defines capital system as embracing private ownership and Soviet type postcapitalism both share the same hierarcical structure the same destructive tendencies and the same exploitation of the labour force Capitalism may appear to be triumphant world wide but Beyond Capital is a devastating

exposure of a system which can only renew itself at the cost of increasing its problems and can only delay but not avoid its eventual collapse The theoretical scope and intellectual rigour of *Beyond Capital* is matched by its practical importance *Beyond Capital* is a major contribution to the development of socialist strategies in these times of despondency and crisis of the historical left Back Cover [The Handbook of Media and Mass Communication Theory, 2 Volume Set](#) Robert S. Fortner,P. Mark Fackler,2014-05-05 The Handbook of Media and Mass Communication Theory presents a comprehensive collection of original essays that focus on all aspects of current and classic theories and practices relating to media and mass communication Focuses on all aspects of current and classic theories and practices relating to media and mass communication Includes essays from a variety of global contexts from Asia and the Middle East to the Americas Gives niche theories new life in several essays that use them to illuminate their application in specific contexts Features coverage of a wide variety of theoretical perspectives Pays close attention to the use of theory in understanding new communication contexts such as social media 2 Volumes **The Time of Their Lives** Julie Kimber,Peter Love,Lyn Beaton,Margo Beasley,Drew Cottle,Angela Keys,Helen Masterman-Smith,Charles Fahey,John Lack,Patricia Grimshaw,Nell Musgrove,Shurlee Swain,Claire Higgins,Rob Hitchcock,Val Noone,Ben Maddison,Bobbie Oliver,Mikael Ottosson,Calle Rosengren,Kerry Taylor,Jeff Rich,Barbara Webster,2007-07-01 On 21 April 1856 Melbourne building workers won an industry wide agreement to establish the Eight Hour Day In the 150 years since then the slogan Eight Hours Labour Eight Hours Recreation Eight Hours Rest has symbolised workers efforts to take control over the time of their lives and in doing so strike a civilised balance between work rest and play It was an assertion that they were not simply operatives in a labour market but also family members and citizens in what they hoped could become a civilised community This book offers historical perspectives on that continuing campaign to give readers a long term context for our current debates over the work life balance and power in the workplace *The Degradation of Work?* Stephen Wood,2024-09-02 Originally published in 1982 and now reissued with a new Preface by Stephen Wood the contributors of this book discuss the issues surrounding the organization of labour They use insights from industrial sociology historical research and Marxist Feminist debates In particular they stress that work organization cannot be seen simply as a reflection of the strategy of an omniscient management any examination of it must involve product and labour markets technology trade unionism and above all the way in which production systems are jointly created out of the interrelationship between management and workforces The Degradation of Work asks if there has been a general de skilling and routinization of jobs and if skilled jobs are really any different from semi skilled or unskilled ones *Work Engendered* Ava Baron,2018-05-31 In tobacco fields auto and radio factories cigarmakers tenements textile mills print shops insurance companies restaurants and bars notions of masculinity and femininity have helped shape the development of work and the working class The fourteen original essays brought together here shed new light on the importance of gender for economic and class analysis and for the study of men as well as

women workers After an introduction by Ava Baron addressing current problems in conceptualizing gender and work chapters by leading historians consider how gender has colored relations of power and hierarchy between employers and workers men and boys whites and blacks native born Americans and immigrants as well as between men and women in North America from the 1830s to the 1970s Individual essays explore a spectrum of topics including union bureaucratization protective legislation and consumer organizing They examine how workers concerns about gender identity influenced their job choices the ways in which they thought about and performed their work and the strategies they adopted toward employers and other workers Taken together the essays illuminate the plasticity of gender as men and women contest its meaning and its implications for class relations Anyone interested in labor history women s history and the sociology of work or gender will want to read this pathbreaking book

Information Technology in Librarianship Gloria J. Leckie, John E. Buschman, 2008-11-30 In the last 15 years the ground both in terms of technological advance and in the sophistication of analyses of technology has shifted At the same time librarianship as a field has adopted a more skeptical perspective libraries are feeling market pressure to adopt and use new innovations and their librarians boast a greater awareness of the socio cultural economic and ethical considerations of information and communications technologies Within such a context a fresh and critical analysis of the foundations and applications of technology in librarianship is long overdue

Labour Process Theory David Knights, Hugh Willmott, 2016-07-27 How are we to make sense of the way work is organised and controlled To what extent is its design the result of technological demands the interests of capital or processes of negotiation and struggle In recent years labour process analysis revived by Braverman s Labor and Monopoly Capital has been most influential in shaping our thinking about this question With contributions from leading authorities in the field this book reviews the contribution of the labour process theory to the study of work organisation Providing a fresh response to criticisms of Bravermania and lost momentum the volume explores the theoretical foundations of labour process analysis and suggests new directions for its development

Lincoln's Unfinished Work Orville Vernon Burton, Peter Eisenstadt, 2022-05-18 In his Gettysburg Address Abraham Lincoln promised that the nation s sacrifices during the Civil War would lead to a new birth of freedom Lincoln s Unfinished Work analyzes how the United States has attempted to realize or subvert that promise over the past century and a half The volume is not solely about Lincoln or the immediate unfinished work of Reconstruction or the broader unfinished work of America coming to terms with its tangled history of race it investigates all three topics The book opens with an essay by Richard Carwardine who explores Lincoln s distinctive sense of humor Later in the volume Stephen Kantrowitz examines the limitations of Lincoln s Native American policy while James W Loewen discusses how textbooks regularly downplay the sixteenth president s antislavery convictions Lawrence T McDonnell looks at the role of poor Blacks and whites in the disintegration of the Confederacy Eric Foner provides an overview of the Constitution shattering impact of the Civil War amendments Essays by J William Harris and Jerald Podair examine the fate of Lincoln s ideas about land

distribution to freedpeople Gregory P Downs focuses on the structural limitations that Republicans faced in their efforts to control racist violence during Reconstruction Adrienne Petty and Mark Schultz argue that Black land ownership in the post Reconstruction South persisted at surprisingly high rates Rhondda Robinson Thomas examines the role of convict labor in the construction of Clemson University the site of the conference from which this book evolved Other essays look at events in the twentieth and twenty first centuries Randall J Stephens analyzes the political conservatism of white evangelical Christianity Peter Eisenstadt uses the career of Jackie Robinson to explore the meanings of integration Joshua Casmir Catalano and Briana Pocratsky examine the debased state of public history on the airwaves particularly as purveyed by the History Channel Gavin Wright rounds out the volume with a striking political and economic analysis of the collapse of the Democratic Party in the South Taken together the essays in this volume offer a far reaching thought provoking exploration of the unfinished work of democracy particularly as it pertains to the legacy of slavery and white supremacy in America **The**

Politics of Work Raelene Frances,1993-11-23 This book focuses on the workplace in Australia to look at how and why the nature of work changed during the period from the late nineteenth century to World War II *Music and Technology in the Twentieth Century* Hans-Joachim Braun,2002-09-16 Braun Universitat der Bundeswehr presents 13 contributions by scholars in two fields of history musicology and technology Topics include the role of Yamaha in Japan s musical development the social construction of the synthesizer the player piano as a precursor of computer music the musical role of airplanes and locomotives the origins of the 45 RPM record violin vibrato and the phonograph Jimi Hendrix the aesthetic challenge of sound sampling and others Originally published in 2000 as I Sing the Body Electric Music and Technology in the 20th Century Annotation copyrighted by Book News Inc Portland OR *Education and Power* Michael W. Apple,2013-10-31 In his seminal volume first published in 1982 Michael Apple articulates his theory on educational institutions and the reproduction of unequal power relations and provides a thorough examination of the ways in which race gender class dynamics are embedded in and reflected through curricular issues This second edition contains a re examination of earlier arguments as well as reflections on recent changes in education **Technology, the Economy and Education** Peter Watkins,1985

Between Labor and Capital Pat Walker,1979 The lead essay by Barbara and John Ehrenreich opens the debate about the nature of the middle class Do those who work between labor and capital constitute a third class or will different sectors tend to ally with either the working class or the capitalist class or is a whole new conception of the dynamics of social change necessary **Working in Steel** Craig Heron,1988-01-01 Here is the story of how mass production came to Canada and what it meant for Canadian workers Craig Heron s Working in Steel takes the reader inside the huge new steel plants that

were built in Sydney New Glasgow Trenton Hamilton and Sault Ste Marie at the turn of the century Amid massive fire breathing machines we meet the steelworkers many of them migrants from southern and eastern European villages or Newfoundland outports who braved the smoke noise and heat in gruelling twelve hour days seven days a week And we watch

the inevitable conflicts that developed when these workers began to make demands on their bosses Professor Heron presents a stimulating new analysis of the Canadian working class in the early twentieth century emphasizing the importance of changes in the work world for the larger patterns of working class life He examines the impact of new technology in Canada s Second Industrial Revolution but challenges the popular notion that mass production workers lost all skill power and pride in the work process He shifts the explanation of managerial control in these plants from machines to the blunt authoritarianism and shrewd paternalism of corporate management His discussion of Canada s first steelworkers sheds new light on the uneven unpredictable and conflict ridden process of technological change in industrial capitalist society

Power, Profits, and Patriarchy William G. Staples, Clifford L. Staples, 2001-08-07 Founded in 1791 and in existence for more than two hundred years the Kenrick iron foundry of West Bromwich England produced some of the finest cast iron hardware ever made William and Clifford Staples goal in studying the Kenrick case is to examine how taken for granted assumptions about class gender and familial relations contributed to the longevity of the firm The authors investigation uncovers three distinct political regimes of production that they characterize as successive forms of capitalist patriarchy Indeed it is contended that the Kenricks were able to maintain their power and their profits to a great extent because they were able to use patriarchy to solve pressing organizational problems By balancing a concern with both the materiality of production and its ideological cultural and political moments this book offers new insights into the nature of production politics patriarchy and the historical sociology of capitalism
