**Fighting the US Youth Sex Trade** Carrie N. Baker,2018-09-27 Campaigns

against prostitution of young people in the United States have surged and ebbed multiple times over the last fifty years. *Fighting the US Youth Sex Trade: Gender, Race and Politics* examines how politically and ideologically diverse activists joined together to change perceptions and public policies on youth involvement in the sex trade over time, reframing juvenile prostitution of the 1970s as commercial sexual exploitation of children in the 1990s and then as domestic minor sex trafficking in the 2000s. Based on organizational archives and interviews with activists, Baker shows that these campaigns were fundamentally shaped by the politics of gender, race and class and global anti trafficking campaigns. The author argues that the very frames that have made these movements so successful in achieving new laws and programs for youth have limited their ability to achieve systematic reforms that could decrease youth vulnerability to involvement in the sex trade.

*Gangs and Girls* Michel Dorais, Patrice Corriveau, 2009. *Gangs and Girls* is the first major piece of qualitative research specifically aimed at understanding and analyzing the involvement of street gangs in female juvenile prostitution. Organized around a number of direct central questions, Michel Dorais and Patrice Corriveau document how street gangs control the lucrative trade in underage girls. They discuss how young men are drawn to gang life, how young girls become attracted and attached to the gang members who eventually sell them into prostitution, and why it is so hard to infiltrate and dismantle the distinct but interrelated worlds of the procurer, victim and client. Rooted firmly in first person testimony, this research deepens our understanding of juvenile prostitution by identifying and exploring the types of motivations and circumstances that lead teenagers into prostitution rings. The ultimate focus is on prevention; the authors provide essential tools for parents and those trying to help adolescents in peril, support and intervention strategies for practitioners, and the tools and information necessary for policy makers to reflect on and design innovative social policy. **Confronting Child and**
