That's not surprising when one considers that one out of every five small business owners in America is under 35 and that more young people are starting businesses than ever before. Right now in college dorm rooms and their parents' garages, the next generation of Sam

Walton's Bill Gates and Michael Dell are hard at work. If you are ever going to take risks in exploring your career options, this is the absolute best time to do it, says 26-year-old entrepreneurial expert Jennifer Kushell. Why wait until you have a semi-stable corporate job and major financial obligations to discover that you hate your career and need to make a big change? Kushell is the ideal mentor for young people thinking about taking the plunge. Her very successful Young Entrepreneurs Network educates teens and twentysomethings in 40 countries about forming their own companies. A born entrepreneur, her father and aunt are leading experts on franchising and trademark licensing, respectively. Kushell presided over her own company's growth while attending college full-time. Her book draws on her invaluable hands-on experience. It's not so much a how-to-start-a-business book as it is a how-to-cope-with-life-while-starting-and-succeeding-in-your-own-business book, the author says. All I can say is that this is the real deal, the real story. With wit, candor, and exuberance for her subject, Kushell gives practical and personal insight from a young entrepreneur's point of view to help new business owners get through their first few years. The book also teaches you tricks of the trade that you can rely on to compete successfully in a business world with people twice your age and companies God knows how many times as big, she adds. The Young Entrepreneur's Edge addresses key topics such as trying to obtain capital and writing a business plan, which the author says are among the biggest obstacles for young entrepreneurs. But the book also tackles critical areas that other business books rarely address: how to get older people to take you seriously, how not to starve when you're broke, how to win your family's approval, how to get out and meet important people, how not to get carded when entertaining clients, and other unique situations faced by young business people. Praise for The Young Entrepreneur's Edge: Fresh college graduates frustrated by the job search should pick up a copy of this book. Los Angeles Times. Can help both job seekers and job holders rethink their idea of gainful employment. Mademoiselle. Entertaining, fast reading and immensely sensible. Kushell is a human dynamo. Sacramento Bee. Every young entrepreneur needs good ideas, and this book is full of them. Fred Deluca, founder and president of Subway Restaurants. It is a must-read for my students. Kathleen R. Allen, Ph.D., The Entrepreneur Program, University of Southern California.

**The Growth Mindset: A viewpoint of a youth entrepreneur** Maneesh Vallurupalli, Have you ever had a dream of being successful? Everybody in this world has imagined themselves in executive positions such as chief executive officer or president of a billion-dollar company. Everyone has their own dreams and ambitions, but many do not achieve them due to a lack of hard work and vision. This book, The Growth Mindset, elaborates on the importance of the simple concept of growth and how a youth entrepreneur, Maneesh Vallurupalli, was able to become a serial entrepreneur at just 17 years old. From the beginning to the end, this book heavily motivates and encourages the reader to pursue their dreams, work hard, and accomplish them. It takes you on a step-by-step process on what is required to be a top-level executive and includes case studies of three billionaire entrepreneurs who have worked hard by embodying the growth mindset. If you have a big dream, this book is definitely a must-read.

Kourilsky,William B. Walstad,Andrew Thomas,2007 The Entrepreneur in Youth offers one of the most comprehensive assessments to date of African American Latino and white high school students aspirations knowledge opinions and educational views related to

entrepreneurship and philanthropy A key strength is its longitudinal approach to analysis and interpretations made possible by extensive surveys of over 11 000 respondents from high school youth and other groups including adults and business owners The key findings exhibit an extraordinarily high level of interest in entrepreneurship among youth as well as a strong desire to give back to their communities However they lack the knowledge and experience to achieve their aspirations The book s major recommendations and guidelines include challenges to education and other policymakers to expand and enhance opportunities to access entrepreneurship education and early entrepreneurship mentoring shadowing experiences especially for those who demand it the most African Americans and Latinos Meeting these challenges not only will contribute to economic growth and social reform initiatives but also will increase economic and social mobility and access to opportunity for a still largely untapped pool of future entrepreneurs This book will appeal to academics in entrepreneurship economics business and education as well as policymakers educators and business leaders
