God's Design for the Highly Healthy Teen Walter L. Larimore,2004-12-28 God s design for the highly healthy life provides a powerful balance of physical emotional relational and spiritual health even for the teen years Teens face choices every day that either enhance or threaten their whole health At school through the media and friends teens are hit with influences they have never faced before Your teen needs your help now more than ever How can you coach your teen through the threats of drugs alcohol addiction and sexually transmitted diseases What can you do about nutrition eating disorders self image and the frightening rise of obesity How does a parent respond to tattoos piercings and internet porn Is there a way to navigate the pressures of academics sports and over commitment to find the healthy balance of stimulation and rest What physical changes are normal When is it time to seek medical care How do you find the best doctor How does a parent ease fears and adjustments respect privacy and intervene when needed Good news The doctor is in Dr Walt Larimore has seen it all as a family physician a dad a medical journalist and now your doctor on call He equips you to powerfully protect and enhance your teen s health during these critical and often scary teen years **ASSESS YOUR TEEN S HEALTH** Use the simple 4 Wheels tool to identify the weakest spokes in your teen s health **FIND THE SPOKE THAT S BROKE** Zero in first where your teen s health is most out of balance Discover timeless principles coupled with late breaking research and answers to your questions **BENEFIT FROM IMMEDIATE ACTION** Follow practical achievable advice resulting in positive changes in your teen s life Discover how your teen can experience God s Design for the Highly Healthy Life Sticking Together Jaclyn S. Gerstein,2013-08-21 First published in 2000 Experiential family counseling is an action oriented approach to family therapy Through the use of

structured games and physical and intellectual challenges many clinicians find that they are able to gain insight into the behaviors and responses that perpetuate a family's problems. While traditional treatment methods often become bogged down in verbal sparring or blame placing between family members, experiential counseling calls for families to work together to succeed in overcoming obstacles that are set before them. And because many experiential activities can be designed as metaphors for a family's individual problems, counselors using this treatment method are given an excellent opportunity to help families practice actual solutions that can be used in their daily interactions and experiences.

In *Sticking Together*, Jackie Gerstein has given therapists and family counselors a wonderful tool for introducing experiential counseling into their own practices. In addition to a thoughtful overview of the general uses and benefits of this unique technique, she also provides practical guidelines for developing experiential family counseling sessions. Key features include:

- A core section of experiential activities, games, and exercises for family therapy.
- Cautions that should be observed when using these activities with certain populations.
- Detailed processing questions with each exercise that can help families to interpret the results of experiential activities.
- Suggestions to encourage family goal setting.
- A discussion on the need for ongoing assessment during the course of experiential therapy.
- Samples of important documents necessary in experiential therapy programs, including performance agreements and informed consent forms.

With an easy-to-use format, *Sticking Together* offers readers an extensive selection of family building initiatives that promise to introduce fun into the vocabulary of family therapy.

Family-Focused Treatment for Child and Adolescent Mental Health Paul Sunseri, 2023-12-22. This book is designed as a treatment manual for using family-based treatments with children struggling with mental illness, supporting both family therapists and the families they are helping. Based on over 40 years of research, it has been shown that involving the entire family in treatment is effective. However, family therapy is still not used as a first line of treatment. Paul Sunseri explains and explores why family-based approaches should be used with struggling young people and how this can be applied in practice. Chapters discuss the causes, contributors, and social determinants for the rise in childhood mental illness and provide empirical evidence and treatments for working with children and adolescents suffering from self-harm, suicidal ideation, anxiety, anger, and depression. Filled with case studies throughout the book, it also touches on mitigating the effects of screen time in our increasingly technological lives and interventions to help reluctant children participate in therapy. This book will be invaluable reading for graduate-level students, clinicians in training, and fully licensed clinicians such as psychologists, psychiatrists, marriage and family therapists, and clinical social workers. The book is also a practical resource for parents and other caregivers; it pulls back the curtain on therapy and teaches parents exactly what to do to best love and support their child at a time when they need it the most.
