Teilhard de Chardin Henri de Lubac,1965 Illuminating Teilhard s thought with excerpts from his unpublished notes and correspondence the author relates Teilhard s ideas to his spiritual life tracing the origin of his thought and its development This spiritual journey describes Teilhard s early years and family background his training as a Jesuit the preparation of his scientific career and his attainment of intellectual maturity during World War I Teilhard de Chardin Brenda Jackson,Penguin Books Staff,Ronald L McDonald,1968-07-01 *Teilhard de Chardin* Henri de Lubac (SJ),1966 Teilhard de Chardin, the Man and His Meaning Henri de Lubac (card.),1965 **Pierre Teilhard De Chardin on People and Planet** Celia Deane-Drummond,2017-07-05 Humanity s relationship to nature is central to the work of Pierre Teilhard de Chardin an influential priest and scientist of the twentieth century Teilhard believed that spiritual development must be viewed alongside material development and that evolutionary theory lies at the heart of humanity s understanding of its place in the world Pierre Teilhard de Chardin on People and Planet argues that Teilhard s cosmic mysticism and intense interest in both cosmological and evolutionary sciences are highly relevant to current debates about how best to construct a meaningful spirituality The book offers a critical revision of Teilhard s thought in the light of current debates in evolutionary science eco theology and environmental ethics The essays present fresh interpretations of Teilhard s work and point to the significance of his thought in the contemporary study of science and religion The Phenomenon of Man Pierre Teilhard de Chardin,2008-11-04 Visionary theologian and evolutionary theorist Pierre Teilhard de Chardin applied his whole life his tremendous intellect and his great spiritual faith to building a philosophy that would reconcile religion with the scientific theory of evolution In this timeless book which contains the quintessence of his thought Teilhard argues that just as living organisms sprung from inorganic matter and evolved into ever more complex thinking beings humans are evolving toward an omega point defined by Teilhard as a convergence with the Divine **America's Teilhard** Susan Kassman Sack,2019 America s Teilhard Christ and Hope in the 1960s is a study of the reception of Teilhard in the United States during this period and contributes to an awareness of the thought of this important figure and the impact of his work Additionally it further develops an understanding of U S Catholicism in all its dimensions during these years and provides clues as to how it has unfolded over the past several decades Susan Sack argues that the manner and intensity of the reception of Teilhard s thought happened as it did at this point in history because of the confluence of the then developing social milieu the disintegration of the immigrant Catholic subculture and the opening of the church to the world through Vatican II Additionally as these social and historical events unfolded within U S culture during these years the way Teilhard was read and the contributions which his thought provided changed This book considers his work as a carrier at times for an almost Americanist emphasis upon progress energy and hope in other years his teleological understanding of the value of suffering moves to center Additionally the stories of numerous persons scientists theologians politicians and scholars who became

involved in the American Teilhardian effort are detailed On the Origin of Consciousness Scott D. G. Ventureyra, 2018-11-29 Have you ever thought about how self consciousness self awareness originated in the universe Understanding consciousness is one of the toughest nuts to crack In recent years scientists and philosophers have attempted to provide an answer to this mystery The reason for this is simply because it cannot be confined to solely a materialistic interpretation of the world Some scientific materialists have suggested that consciousness is merely an illusion in order to insulate their worldviews Yet consciousness is the most fundamental thing we know even more so than the external world since we require it to perceive or think about anything Without it reasoning would be impossible Dr Scott Ventureyra in this ground breaking book explores the idea of the Christian God and Creation in order to tackle this most difficult question He demonstrates that theology has something significant to offer in reflection of how consciousness originated in the universe He also makes a modest claim that the Christian conception of God and Creation provide a plausible account for the origin of self consciousness He integrates philosophy theology and science in an innovative way to embark on this exploration

Thomism and the ontological theology of Paul Tillich Donald J. Keefe, 2023-08-28 **How Great Thou Art!** Owen F. Cummings, 2024-08-09 Christian thinking about the theology of creation has received new impetus in recent decades This is due to among other things a more holistic approach to Holy Scripture fresh insights from the history of Christian doctrine the stimulus afforded by contemporary philosophies and the desire to praise and thank God the Creator for the gift of creation This little volume opens up all of those areas in an informed yet accessible way **Religion and the Philosophy of Life** Gavin Flood, 2019-02-14 Religion and the Philosophy of Life considers how religion as the source of civilization transforms the fundamental bio sociology of humans through language and the somatic exploration of religious ritual and prayer Gavin Flood offers an integrative account of the nature of the human based on what contemporary scientists tell us especially evolutionary science and social neuroscience as well as through the history of civilizations Part one contemplates fundamental questions and assumptions what the current state of knowledge is concerning life itself what the philosophical issues are in that understanding and how we can explain religion as the driving force of civilizations in the context of human development within an evolutionary perspective It also addresses the question of the emergence of religion and presents a related study of sacrifice as fundamental to religions views about life and its transformation Part two offers a reading of religions in three civilizational blocks India China and Europe the Middle East particularly as they came to formation in the medieval period It traces the history of how these civilizations have thematised the idea of life itself Part three then takes up the idea of a life force in part three and traces the theme of the philosophy of life through to modern times On the one hand the book presents a narrative account of life itself through the history of civilizations and on the other presents an explanation of that narrative in terms of life **God and Human Responsibility** Rufus Burrow, 2003 Walker took seriously God's expectation that justice be done in righteous ways and that persons respect the humanity and dignity of self and others

fundamental claims of the Hebrew Prophets *The Trinitarian Wisdom of God: Louis Bouyer's Theology of the God-World Relationship* Keith Lemna, 2022-12-16 Christian theology in recent decades has seen an explosion in the number of books published seeking a renewal of Trinitarian ontology There has also been a proliferation of studies dedicated to the theology of Wisdom Few if any of these books on the Trinity or on Wisdom have drawn for inspiration on the comprehensive vision of French Oratorian priest Louis Bouyer 1913-2004 one of the greatest theologians of the modern age Bouyer produced a comprehensive work of theology that integrated these two seminal concerns based on a vast re sourcing of the Christian tradition Dr Keith Lemna explores Bouyer's achievement in depth showing that at the heart of his venture was a deep contemplative penetration into God's mediation to the world his creation sustenance and redemption of creation in the Wisdom of the Eternal Son Bouyer is a decisive resource for theologians wanting to develop the Christian understanding of the Trinity and creation based on tradition but in dialogue with modern cosmological thought *The Trinitarian Wisdom of God* Louis Bouyer's *Theology of the God-World Relationship* gets to the heart of Louis Bouyer's theology of the God-World relationship more deeply than any other has done before In doing so Lemna recovers a great theologian at his best **A**

Companion to Jesuit Mysticism Robert Aleksander Maryks, 2017-03-06 In *A Companion to Jesuit Mysticism* Robert A Maryks provides thirteen unique essays discussing the Jesuit mystical tradition a somewhat neglected aspect of Jesuit historiography that stretches as far back as the order's co-founder Ignatius of Loyola his spiritual visions at Manresa and ultimately the mystical perspective contained in his *Spiritual Exercises* The volume's contributions on the most significant representatives of the Jesuit mystical tradition from Baltasar Alvarez to Louis Lallemant to Hugo Makibi Enomiya Lassalle aim to fill this lacuna in Jesuit historiography Although intended primarily as a handbook for scholars seeking to further their own research in this area the volume will undoubtedly be of interest to scholars and students of Jesuit studies more broadly

An Abrahamic Theology for Science Kenneth L. Vaux, 2007-01-01 Kenneth Vaux advocates an Abrahamic theology as a dynamic and ethical axis for science and technology and argues for its continuing salience for a vital and humane science He demonstrates a historical correlation between an Abrahamic theological tradition monotheism and venturism and the rise of science Vaux illustrates these developments in the work of six scientists Avicenna Boyle Schweitzer and Teilhard as well as contemporaries Amartya Sen and Leon Kass In the course of his discussion Vaux engages the contemporary dialogue between religion and science *The Splendor of the Church in Mary* Theresa Marie Chau Nguyen, 2023-05-05 Henri de

Lubac SJ 1896-1991 is one of the most renowned theologians of the twentieth century Numerous studies have been undertaken to examine his many contributions to theology but little attention has been paid to the specific topic of the relationship of the Blessed Virgin Mary and the Church in his writings This was a topic that gave rise to contentious discussion at the Second Vatican Council and although the Council fathers approved the integration of Marian doctrine into the Dogmatic Constitution on the Church this synthesis of Mariology and ecclesiology has been largely neglected in theology

today *The Splendor of the Church in Mary* retrieves de Lubac's Marian ecclesiology and revives an understanding and appreciation of its enduring influence at the Vatican Council and beyond. The first part examines de Lubac's pre-conciliar works which evince a steady biblical and patristic ressourcement of Marian themes. It also explores his writings on Teilhard de Chardin's Eternal Feminine, Christian mysticism and Amida Buddhism and discovers in them the essential building blocks of his Marian thought. The second part turns to the Second Vatican Council and post-conciliar developments. Rereading the debates and texts of *Lumen Gentium* through a Marian lens brings to light the extent of de Lubac's influence. Meditation sur l'Eglise 1953, his principal work on Mary and the Church, anticipated the structure and content of *Lumen Gentium* a decade before the Council. De Lubac's writings provided a theological compass for the Council fathers and they continue to provide direction and orientation for ecclesiological discourse today. *The Splendor of the Church in Mary* culminates in a constructive analysis of one of the most pressing pastoral and ecclesiological questions of our times: the question of the relationship of the universal and particular churches. Directly engaging the crucial debate between then Cardinal Ratzinger and Cardinal Kasper, it proposes that de Lubac's Mariology effectively offers a new perspective and a refreshing path forward. Attentive to the mystical identification of Mary and the Church, de Lubac's ressourcement has the potential to re-enchant and advance contemporary theology in new and significant ways.

Man's Place in the Universe H. James Birx, 1977 *Theology in History* Henri De Lubac, 2013-06-05 The unique insight and impressive scholarship of the eminent French theologian Cardinal Henri de Lubac are clearly evident in this volume of collected articles and essays. An article of great timeliness on the priesthood according to St John Chrysostom as well as an important study of the long debate over the salvation of Origen are among the texts included in the first section devoted to patristics and Christian humanism. The second section comprised entirely of an unpublished work on tripartite anthropology tracing the body-soul-spirit distinction from St Paul, the patristic tradition, St Augustine and St Thomas Aquinas up to the modern period will prove an invaluable guide for further study and reflection. The section concludes with a beautiful text entitled *The Light of Christ*, a prayerful meditation written during the dark hours of Nazi domination. Section three deals with disputed theological questions such as the internal causes of the disappearance of the sense of the sacred, the mystery of the supernatural and the development of dogma. He also has a section on Christian resistance to Nazism and anti-Semitism as well as two sections on the thought and writings of several important modern spiritual writers.

From the Dust of the Earth Matthew J. Ramage, 2022-05-06 In this book the author's fourth dedicated to applying Joseph Ratzinger, Benedict XVI's wisdom to pressing theological difficulties. Matthew Ramage attempts to square advances in the field of evolutionary biology with the Bible as interpreted through the teaching of the Catholic Church. Distinguishing between evolutionary theory properly speaking and materialist philosophy, Ramage's work both addresses the challenge of evolutionary science to Catholic teaching on human origins and argues that discoveries in evolutionary biology yield precious insight into the mystery of God's saving plan in Christ, applying Ratzinger's principles to

such issues as the meaning of man's special creation the relationship between sin and death and the implications of evolution for eschatology **In Search of the Whole** John C. Haughey, 2011-09-29 The contributors to this inspiring anthology meet the challenge that everyone faces that of becoming a whole person in both their personal and professional lives John C Haughey SJ has gathered twelve professionals in higher education from a variety of disciplines philosophy theology health care business and administration What they have in common reflects the creative understanding of the meaning of catholic as Haughey has found it to operate in Catholic higher education Each essay in the first six chapters describes how its author has assembled a unique whole from within his or her particular area of academic competence The last six chapters are more autobiographical with each author describing what has become central to his or her identity All twelve are anticipating an entirety with each contributing a coherence that is as surprising as it is delightful
