Telenovela Telenovelas:

Argentinian Telenovelas Gabriela Jonas Aharoni, 2015-07-01 This work explores the way in which telenovelas TV serial dramas give voice to contemporary and historical Argentinian social and political issues Telenovelas have multiple layers of socio cultural message local as well as global and are invariably laden with appealing drama and emotion and sometimes comedy The discussion focuses on how telenovelas reflect society's perception of and adjustment toward issues of globalisation They are a means of portraying how individuals and families rationalize and incorporate rapid social and economic changes The book explores how telenovelas might offer a subversive interpretation of reality or provide a channel of dialogue with the government's political aims The author challenges the assumption that they are merely a reflection of historical political and social circumstance One of the many telenovela examples addressed in this book is whether the serial Padre Coraje constructs a parallel between the current Kirchner government and that of Juan Peron fifty years earlier The serial explores the two leaders relationship with the Church and implicitly presents President Kirchner as Peron's successor Explaining telenovelas as cultural texts they are not soap operas provides the primary basis for this study backed by Argentinian newspaper articles and secondary sources on Latin American history culture and economy as well as TV and cinema studies The result is a more profound and nuanced interpretation than hitherto of Argentinian telenovelas Analysis enables identification of the links between the serials storylines and contemporary political and social events These popular culture texts bring new meaning to the Argentinian historical narrative and for TV viewers puts the processes and effects of economic and social globalisation on a local multi cultural level perspective

News and Novela in Brazilian Media Tania Cantrell Rosas-Moreno, 2014-06-25 Citizens everywhere are turning to multiple news sources to inform their daily decisions In Brazil an emerging global power and democracy those sources include the ever popular telenovelas and on a rising basis newspapers News and Novela in Brazilian Media Fact Fiction and National Identity examines how news issues help frame

telenovela plots comparing key issues across Brazilian media to highlight differing levels of progression associated with press freedom. Scrutiny of concurrent print news stories, print news photos, and telenovela scenes indicate that when a hit telenovela is compared to news, the novela becomes a more progressive storyteller. At least race, class, gender, and religious news issues seem more progressive. An Afro-Brazilian wins a local election, a favela or shantytown is idealized, a less popular African religion is heralded while Protestantism is marginalized and Catholicism continues as the right religion, and women achieving power leads to a more egalitarian society. In a diversifying media environment where lines between fact and fiction are increasingly blurred, Brazilian alternative news studies are critical measures of Brazil's state of media opening that inform national identity formation.

Telenovelas, a distinct variety of soap operas originating in Latin America, take up key issues of race, class, sexual identity, and violence, interweaving stories with melodramatic romance and quests for identity. Telenovelas to Netflix: Transnational, Transverse Television in Latin America Joseph Straubhaar, Melissa Santillana, Vanessa de Macedo Higgins Joyce, Luiz Guilherme Duarte, 2021-12-06 This book is about television in Latin America. Its national and regional industries create most television programming there, within genres developed over time in the region. However, part of the programming has always come from the U.S., Europe, and elsewhere. With cable, satellite, and now streaming TV, that inflow of foreign programming has increased substantially. While many in the audience still prefer national or regional programs for their cultural proximity, an increasing number among the upper middle and middle classes, particularly the young, are turning to the new foreign services like Netflix, Amazon, and Disney for class distinction, cosmopolitanism, or other motives. Among the television industries, global, regional, and national actors are creating a variety of programs and channels, broadcast, pay TV, and streaming, to segment and appeal to different parts of the audience.

Latin America's Contested Pasts in Telenovelas and TV Series Mónica Contreras Saiz, Stefan Rinke, 2024-12-30 In Latin America, the production of telenovelas and TV series about the region's recent and traumatic past has grown considerably in the last 20 years, affecting societal perceptions of the past, historical consciousness, and political culture. While these TV products are usually perceived as trivial, they do provide a historical framework to a wide audience which finds it easier to relate to the national past through fiction than through history books, journalistic articles, or documentaries. *Latin America's Contested Pasts in Telenovelas and TV Series* analyzes the historical culture of Latin American society embodied in telenovelas and TV series from the 1960s to this day.
