**Women's Culture** Mary Ellen Brown,1990-06-15 In this book an international team of contributors examines critically the relationship between television and women s culture Although they recognize that television frequently distorts and oppresses women s experience the authors avoid a simplistic manipulative view of the media Instead they show how and why such different genres as game shows police fiction and soap opera offer women opportunities for negotiation of their own meanings and their own aesthetic appreciation Not for sale in Australia or New Zealand Handbook of the Sociology of

Gender Janet Saltzman Chafetz,2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapsychic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while incorporating some cross disciplinary material this volume focuses specifically on socio logical theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines **The International Encyclopedia of Media Effects, 4 Volume Set**
