**Ética en los medios de comunicación** López Talavera, María del Mar, 2016-11-08 Hablar de ética en los medios de comunicación en un momento histórico de crisis moral de valores no resulta tarea sencilla por lo que es imprescindible subrayar la importancia y actualidad de una deontología en este ámbito

Hoy en día tanto estudiantes como profesionales de las ciencias de la información se enfrentan con problemas éticos que exigen tomar decisiones desde el punto de vista moral. Es lo que los anglosajones denominan *making ethical decision*. A tal efecto, este libro aporta fundamentales contenidos y reflexiones para una correcta resolución de los dilemas éticos en el ejercicio profesional del periodismo y de la comunicación audiovisual. Se abordan temas de actualidad y aplicación práctica como son entre otros: el tratamiento ético de informaciones sobre violencia y terrorismo, la publicidad engañosa e información subliminal, la ética de los anuncios televisivos, la influencia de la televisión en los niños, la ética del fotógrafo en prensa y los paparazzi, la deontología del tertulio radiofónico, la importancia de la calidad de los contenidos en televisión, la telebasura y la responsabilidad social del cineasta.

**Medios de comunicación y democracia**, 1995 *The New Communications Landscape* Anura Goonasekera, Jan Servaes, Georgette Wang, 2003-09-02

The innovative and rapid growth of communication satellites and computer mediated technologies in the late 1980s and early 1990s combined with the deregulation of national broadcasting led many media commentators to assume that the age of national media had been lost. But what has become clear is that whilst there has been a limited growth in global media there has been an emergence of a strong localised television and communications industry. Mapping the world media market and using examples of programming from countries as diverse as Thailand, Hong Kong, Brazil, Taiwan, Spain and Britain, this volume explores theories of media globalization, examines the local culture of television programming and analyses the blurring of distinctions between the global and the local.
