## **Television Politics The Transition:**

*New Television, Old Politics* Hernan Galperin, 2004 This book examines the economic political and technological forces that are shaping the future of broadcasting in advanced industrialized nations by comparing the transition from analog to digital TV in the US and Britain Digital TV involves a major reordering of the broadcast sector that requires governments to rethink governance tools for the digital media era By looking at how the transition is unfolding in these nations the book uncovers the political underpinnings of the emerging governance regime for digital communications and explores the implications of the transition for the development of the Information Society in the US and Europe The findings challenge much conventional wisdom about media deregulation and the globalization of communications The transition to digital TV has not weakened but rather reinforced government control over broadcasting Moreover contrary to what many globalization theories would predict it has reinforced preexisting differences in the organization of media across nations *Television and*

*Politics in Evolving European Democracies* Lynda Lee Kaid, 1999 Throughout the world television has become an important part of the way in which political candidates and parties present their messages to voters during election campaigns This is particularly true in campaigns at the national level where voters have little personal contact with candidates and must rely on experiencing candidates through the media Despite the importance of the media for voter government interaction however many new reform governments in the post communist era in Eastern European countries failed to appreciate the demands of creating workable new media systems **Television, Democracy, and the Mediatization of Chilean**

**Politics** Harry L. Simón Salazar, 2017-12-26 After seventeen years as dictator of Chile in 1990 Augusto Pinochet ceremoniously handed the presidential sash to the leader of his legal opposition to formalize the peaceful transition to civilian rule in that country Among the many idiosyncrasies of this extraordinary transfer of political power the most memorable is the month long nationally televised campaign of uncensored political advertising known as the Franja de Propaganda Electoral the Official Space for Electoral Propaganda Produced by Pinochet's supporters and the legal opposition the 1988 Franja campaign set out to encourage voters to participate in a plebiscite that would define the democratic future of Chile Harry L. Simón Salazar presents a valuable historical account new empirical research and a unique theoretical analysis of the televised Franja campaign to examine how it helped the Chilean people reconcile the irreconcilable and stabilize a contradictory relationship between what was politically implausible and what was represented as true and viable in a space of mediated political culture This contribution to the field of political communication research will be useful for scholars students and a general public interested in Latin American history and democracy as well as researchers of media communication theory and cultural studies *Television Democracy and the Mediatization of Chilean Politics* also helps inform a more critical understanding of contemporary hyper mediated political movements such as the Arab Spring Occupy Wall Street Black Lives Matter and the particularly germane phenomenon of Trumpism **De-Westernizing Media Studies**

James Curran, Myung-Jin Park, 2005-07-05 *De Westernizing Media Studies* brings together leading media critics from around the world to address central questions in the study of the media How do the media connect to power in society Who and what influence the media How is globalization changing both society and the media      **Transitions to Democracy** Lisa Anderson, 1999 Are the factors that initiate democratization the same as those that maintain a democracy already established The scholarly and policy debates over this question have never been more urgent In 1970 Dankwart A Rustow's clairvoyant article *Transitions to Democracy Toward a Dynamic Model* questioned the conflation of the primary causes and sustaining conditions of democracy and democratization Now this collection of essays by distinguished scholars responds to and extends Rustow's classic work *Transitions to Democracy* which originated as a special issue of the journal *Comparative Politics* and contains three new articles written especially for this volume represents much of the current state of the large and growing literature on democratization in American political science The essays simultaneously illustrate the remarkable reach of Rustow's prescient article across the decades and reveal what the intervening years have taught us In light of the enormous opportunities of the post Cold War world for the promotion of democratic government in parts of the world once thought hopelessly lost of authoritarian and totalitarian regimes this timely collection constitutes an important contribution to the debates and efforts to promote the more open responsive and accountable government we associate with democracy

**Power Shift? Political Leadership and Social Media** David Taras, Richard Davis, 2019-12-09 Power Shift Political Leadership and Social Media examines how political leaders have adapted to the challenges of social media including Facebook Instagram Twitter and memes among other means of persuasion Established political leaders now use social media to grab headlines respond to opponents fundraise contact voters directly and organize their election campaigns Leaders of protest movements have used social media to organize and galvanize grassroots support and to popularize new narratives narratives that challenge and sometimes overturn conventional thinking Yet each social media platform provides different affordances and different attributes and each is used differently by political leaders In this book leading international experts provide an unprecedented look at the role of social media in leadership today Through a series of case studies dealing with topics ranging from Emmanuel Macron and Donald Trump s use of Twitter to Justin Trudeau s use of selfies and Instagram to how feminist leaders mobilize against stereotypes and injustices the authors argue that many leaders have found additional avenues to communicate with the public and use power This raises the question of whether this is causing a power shift in the relationship between leaders and followers Together the chapters in this book suggest new rules of engagement that leaders ignore at their peril The lack of systematic theoretically informed and empirically supported analyses makes Power Shift Political Leadership and Social Media an indispensable read for students and scholars wishing to gain new understanding on what social media means for leadership

**Understanding the Populist Shift** Gabriella Lazaridis,Giovanna Campani,2016-11-10 During the European elections of 2014 one of the main issues raised by the media was the electoral performance of so called populist parties The electorate confirmed its deep dissatisfaction with mainstream political parties voting for far right parties in

parliamentary elections in Northern Europe Austria Denmark Sweden Eastern Europe Hungary where the deeply anti-Semitic Jobbik party gained votes and in France where the French National Front won about a quarter of the vote while in the Southern European countries battered by austerity policies it was the radical right and left in Greece Golden Dawn and Syriza and the radical left in Spain Podemos that obtained excellent scores This book examines the growing trend towards far and extreme right populism that has emerged prominently in Northern Finland Western Austria Denmark France the UK Southern Greece Italy and Central Eastern Europe Slovenia Bulgaria since the 1990s Providing a critical understanding of current European trends and analysing the complex phenomena covered by the notion of populism this book will be of interest to students and scholars researching right wing politics as well as European politics more generally

*Exporting Press Freedom* Craig L. LaMay, 2007-01-01 International media assistance is a small but important form of international democracy promotion aid Media assistance boomed after the 1989 transitions in Central Europe but now flows to virtually all regions of the world Today the media assistance industry is focused on the problem of sustainability How are free and independent public affairs media supposed to maintain their editorial mission while facing hostile political systems or the demands of the consumer marketplace Many media in developing countries have been or are grant dependent When grants are exhausted or withdrawn media that were funded to further democratic consolidation typically wither and die Some become mere grant chasers Others abandon public service to the demands of market competition or political patronage As a result governmental and non governmental grant makers now emphasize the need for sustainability in considering grants in the media sector Many grant recipients have grown frustrated sometimes bitter and have sought to take a much more active role in the way assistance programs are put together Just how is sustainability to be achieved while also ensuring a public service editorial mission *Exporting Press Freedom* examines the history and practice of media assistance and argues that the dilemma of media independence and sustainability is best understood as an economic problem rather than one of poor editorial standards or lack of will It includes profiles of news and public affairs media in developing and democratizing countries and also of two non governmental organizations that have pioneered the use of low interest loans in media assistance These profiles exemplify strategic and entrepreneurial approaches to developing and supporting public service media Such approaches may be of use not only in the developing world but in the consolidated Western democracies as well where concern has grown about poor journalistic performance and its consequences for democratic governance Craig L. LaMay is a journalist an assistant professor at Northwestern University's Medill School of Journalism an adjunct professor at Northwestern's School of Law and a faculty associate at Northwestern's Institute for Policy Research

**Reporting Political Islam and Democracy** Mohammed-Ali Abunajela, Nael Jebri, 2020-05-14 For over a decade Al Jazeera Arabic occupied an unprecedented position among Arab audiences and families Its attractive and daring news coverage has inspired millions of Arabs and led other news channels to follow suit by changing their reporting narrative and presentational style

However in the aftermath of the Arab uprisings in 2011 the close adoption of the Arab uprisings in general and the Egyptian one in particular made the channel fall into the eye of the public storm through its extensive 24 hour coverage This book assesses whether the channel systematically provided a platform for certain ideologies or ignored others and if and how Al Jazeera s language had shifted after the 2011 Arab uprisings It also explores the rationale behind adopting particular editorial principles featured in the analyses and scrutinises the findings within the framework of media religion and democratisation     Television Toby Miller,2003     Civil Society Before Democracy Nancy Gina Bermeo,Philip G.
