Handbook of Research on Entrepreneurship and Organizational Resilience During Unprecedented Times Aloulou, Wassim J., 2022-08-12 Managerial, organizational, and entrepreneurial scholars across disciplines have discussed the topic of resilience from developed economies, yet much remains unknown on its practice during modern times and the crises that have recently affected daily lives, business, and workplaces. Moreover, few experiences of economic instability have been reported from emerging countries where global competition, economic, social, environmental, and sanitary concerns remain as real challenges. It is essential that both researchers and practitioners explore new perspectives and tools to study resilience at many diverse levels and contexts. The Handbook of Research on Entrepreneurship and Organizational Resilience During Unprecedented Times explores experiences in different managerial, organizational, and entrepreneurial issues, particularly from the perspective of emerging countries. By investigating different levels with interdisciplinary approaches and integrative frameworks, it advances new perspectives for future research. Covering topics such as employee creativity, economic crisis, and supply chain management, this major reference work is an indispensable resource for entrepreneurs, business leaders, and executives, marketing managers, human resource managers, organization behavior specialists, consultants, government officials, politicians, librarians, students, and faculty of higher education.
