**Resources in Education** ,1997-07      The Digital City M. Laguerre,2005-08-02 Evolving out of a research project on information technology and society the book explores the digitization of the American city Laguerre examines the impact of changes to various sectors of society brought about by the advent of information technology and the Internet upon daily life in the contemporary American metropolis The book focuses on actual information technology practices in the Silicon Valley San Francisco metropolitan area explaining how those practices are remoulding social relations global interaction and the workplace environment      **Teleworking and Globalisation** Ursula Huws,Nick Jagger,S. O'Regan,1999 Inexpensive telecommunications the spread of computing and globalization are creating major change in the location of work within and between countries Because no tools have yet been developed to investigate the new spatial employment patterns a cluster analysis involving more than 50 variables and 206 countries was performed to group countries and identify their position in the emerging global division of labor in information processing work The analysis identified qualitative and quantitative changes occurring in the organization of distribution of work Special attention was paid to the following call centers centers in remote locations at which functionally specialized workers with a telecommunications link to customers are concentrated off shore data processing and development of the export software industry in countries such as India the Philippines Russia and Bulgaria Data about the numbers and characteristics of home based teleworkers in the United Kingdom that were drawn from the UK Labour Force Survey were also used in the analysis The following factors associated with high and low rates of teleworking were discussed cost and availability of information and telecommunications technology differing sectoral and occupational structures urbanization household size and structure and national regulatory context Nineteen tables are included The report contains 104 references MN      **Labour Market Trends** ,1998-07      Resources in Education ,1997 Business □□□□□□□□,2003      **Work in Challenging and Uncertain Times** Patricia Leighton,Tui McKeown,2020-07-12 This book was written as the Coronavirus COVID 19 pandemic began to have a devastating effect on employment across the globe The crisis has served to highlight many deepseated often longstanding challenges to employment relationships These include uncertainties and fears about the impact of technological advances concerns about safety and wellbeing and controversies around emerging business and employment models It is difficult to avoid the fear that the combination of these and other practices will lead to a race to the bottom The book calls for a radical rethink and reassessment of the core values underlying employment relationships In *Work in Challenging and Uncertain Times* the authors take a refreshingly realistic view of how contemporary work relationships are managed and look to how they will need to change in the future Some key questions are posed such as who is the employer in complex skills supply chains how do we ensure a skilled workforce in a context of fragmentation and increasing individualization in a context of AI robots etc what does it mean to be human and how do we achieve change and improvement Based on extensive research presented in an accessible and engaging style the

book provides insights valuable to students of employment relationships HRM and employment law as well as to practitioners and policy makers It draws on a range of academic disciplines and thoughts from interviews with key practitioners and commentators on workplace as well as students
