we naturally sense all the dangers of our environment through our body and subconscious we no longer know how to use these perceptions in order to ensure our own safety Animals are still able to do this and this enables them to be warned and to flee before the outbreak of natural disasters However by learning to benefit from their dreams humans can surpass animals in this field The fruit of more than 20 years of research this book explains a method that is accessible to everyone that enables the links between the body conscious and subconscious to be re established in order to receive more information on the dangers of our environment Once communication has been re established between the body and the subconscious it turns out that human beings are far superior to animals and to all existing technologies in sensing all kinds of dangers whether they be natural human or technological By using the technique that is explained in this book you will learn how to retrieve information available to you in dreams that is important for the safety of you and the people close to you Through this you will also be able to for example avoid accidental death by escaping before the outbreak of a natural disaster earthquake volcanic eruption landslide flood storm tidal wave avalanche tornado etc foil the plans of attackers terrorists thieves rapists or burglars know before going away for example by boat or plane if you are going to arrive safe and sound at your destination or if it would be better to cancel this trip because of an attack shipwreck accident or natural disaster sense many other traps and dangers and avoid them the most gifted among you will also be able to develop a greater sensitivity and intuition directly in a waking state which will enable you to react even more effectively to the dangers of your environment you will also learn not to become anxious for no reason when you have simple nightmares because you will have learnt to detect what triggers them in you and you will thereby know how to distinguish them from true warning dreams of natural disasters attacks burglaries accidents at nuclear power stations etc
