Art of the Story-Teller Marie L. Shedlock,2014-05-15 The Art of the Story Teller by Marie L Shedlock Storytelling is the
 conveying of events in words images and sounds often by improvisation or embellishment Story telling is almost the oldest
 art in the world the first conscious form of literary communication In the East it still survives and it is not an uncommon thing
 to see a crowd at a street corner held by the simple narration of a story There are signs in the West of a growing interest in
 this ancient art and we may yet live to see the renaissance of the troubadours and the minstrels whose appeal will then rival
 that of the mob orator or itinerant politician One of the surest signs of a belief in the educational power of the story is its
 introduction into the curriculum of the training college and the classes of the elementary and secondary schools It is just at
 the time when the imagination is most keen the mind being unhampered by accumulation of facts that stories appeal most
 vividly and are retained for all time **About Old Story-tellers** Donald Grant Mitchell,1877 *Educating by Story-telling*
