The Teller and the Tale Wendell M. Aycock, Theodore M. Klein, 1980      **Nor Shall Diamond Die: american studies**  
Carme Manuel, Paul S. Derrick, 2003 Homenaje a Javier Coy catedrático jubilado del Departamento de Filología Inglesa y Alemana de la Universitat de València de 1990 a 2000 y uno de los primeros investigadores en introducir los estudios norteamericanos Se recogen 50 artículos de especialistas en este campo que reflejan el estado de los estudios sobre la cultura y literatura de los Estados Unidos contemporáneos      *Short Stories, Knowledge and the Supernatural* Amândio Reis, 2022-07-11 This book proposes a comparative approach to the supernatural short stories of Machado de Assis Henry James and Guy de Maupassant It offers an alternative to predominantly novel centric and Anglo centric perspectives on literary pre modernism by investigating a transnational and multilingual connection between genre theme and theory i e between the modern short story the supernatural and the problem of knowledge Incorporating a close analysis of the literary texts into a discussion of their historical context the book argues that Machado James and Maupassant explore and reinvent the supernatural short story as a metafictional genre This modernized and innovative form allows them to challenge the dichotomies and conventions of realist and supernatural fiction inviting their past and present readers to question common assumptions on reality and literary representation      Short Story Theories , 2015-06-29 Short Story Theories A Twenty First Century Perspective problematizes different aspects of the renewal and development of the short story The aim of this collection is to explore the most recent theoretical issues raised by the short story as a genre and to offer theoretical and practical perspectives on the form Centering as it does on specific authors and on the wider implications of short story poetics this collection presents a new series of essays that both reinterpret canonical writers of the genre and advance new critical insights on the most recent trends and contemporary authors Theorizations about genre reflect on different aspects of the short story from a multiplicity of perspectives and take the form of historical and aesthetic considerations gender centered accounts and examinations that attend to reader response theory cognitive patterns sociolinguistics discourse analysis postcolonial studies postmodern techniques and contemporary uses of minimalist forms Looking ahead this collection traces the evolution of the short story from Chaucer through the Romantic writings of Poe to the postmodern developments and into the twenty first century This volume will prove of interest to scholars and graduate students working in the fields of the short story and of literature in general In addition the readability and analytical transparency of these essays make them accessible to a more general readership interested in fiction      The Nineteenth-Century French Short Story Allan Pasco, 2019-07-03 The 19th Century French Short Story by eminent scholar Allan H Pasco seeks to offer a more comprehensive view of the definition capabilities and aims of short stories The book examines general instances of the genre specifically in 19th century France by recognizing their cultural context demonstrating how close analysis of texts effectively communicates their artistry and arguing for a distinction between middling and great short stories Where previous studies

have examined the writers of short stories individually The 19th Century French Short Story takes a broader lens to the subject and looks at short story writers as they grapple with the artistic ethical and social concerns of their day Making use of French short story masterpieces with reinforcing comparisons to works from other traditions this book offers the possibility of a more adequate appreciation of the under valued short story genre
