Telling Lies About Hitler The Holocaust History And The David Irving Trial:

Telling Lies about Hitler Richard J. Evans, 2002 Richard J Evans worked on the historical evidence on behalf of the defence during the Irving libel trial In *Telling Lies about Hitler* the author discusses the importance of historical writing and the social role of historians in such trials

Holocaust and Genocide Denial Paul Behrens, Olaf Jensen, Nicholas Terry, 2017-05-18 This book provides a detailed analysis of one of the most prominent and widespread international phenomena to which criminal justice systems has been applied the expression of revisionist views relating to mass atrocities and the outright denial of their existence Denial poses challenges to more than one academic discipline to historians the gradual disappearance of the generation of eyewitnesses raises the question of how to keep alive the memory of the events and the fact that negationism is often offered in the guise of historical revisionist scholarship also means that there is need for the identification of parameters which can be applied to the office of the genuine historian Legal academics and practitioners as well as political scientists are faced with the difficulty of evaluating methods to deal with denial and must in this regard identify the limits of freedom of speech but also the need to preserve the rights of victims Beyond that the question arises whether the law can ever be an effective option for dealing with revisionist statements and the revisionist movement In this regard *Holocaust and Genocide Denial A Contextual Perspective* breaks new ground exploring the background of revisionism the specific methods devised by individual States to counter this phenomenon and the rationale for their strategies Bringing together authors whose expertise relates to the history of the Holocaust genocide studies international criminal law and social anthropology the book offers insights into the history of revisionism and its varying contexts but also provides a thought provoking engagement with the challenging questions attached to its treatment in law and politics

The Holocaust Case William Cox, 2015-07-07 The Holocaust Case which ruled the gassing of Jews by Hitler was simply a fact and not reasonably subject to dispute was featured in the movie *Never Forget* but the real story has never been told Now for the first time the true facts are revealed by William John Cox the public interest lawyer who represented a Nazi death camp survivor and sued the radical organizations that denied the Holocaust In retaliation Cox was sued for defamation by the reclusive leader of a shadowy consortium that earned millions peddling historical lies and bizarre theories of racial superiority His recollection of these matters is supplemented by official court records In a poignant personal memoir the author details his path from an orphan named Billy Jack to a police officer to a representative of a secret client in the publication of the suppressed *Dead Sea Scrolls* Along his circuitous life path Cox meets another orphan one who could never forget the extermination of his entire family by the Nazis The survivor had been taunted by the deniers to prove the truth of the Holocaust Together the two accept the challenge and make history Cox discusses his unconventional practice of law in which he undertook these landmark cases without charging a fee and tells why he did it He derives lessons from the Holocaust and explains how the insights relate to current social and political conditions

Brutal treatments Russell T.

Moul,2025-05-13 Brutal treatments explores the role medical doctors played in the colonial counterinsurgency campaigns in British Kenya 1952 1960 and French Algeria 1954 1962 in the final years of empire It not only examines how these medical professionals became embroiled in the conflict but also how they used their knowledge to further the interests of the state The book makes a substantial and significant contribution to the history of medicine the history of medical ethics and the history of colonialism

Histories Written by International Criminal Courts and Tribunals Aldo Zammit Borda,2020-12-18 This book argues for a more moderate approach to history writing in international criminal adjudication by articulating the elements of a responsible history normative framework The question of whether international criminal courts and tribunals ICTs ought to write historical narratives has gained renewed relevance in the context of the recent turn to history in international criminal law the growing attention to the historical legacies of the ad hoc Tribunals and the minimal attention paid to historical context in the first judgment of the International Criminal Court The starting point for this discussion is that in cases of mass atrocities prosecutors and judges are inevitably understood to be engaged in writing history and influencing collective memory whether or not they so intend Therefore while writing history is an inescapable feature of ICTs there is still today a significant lack of consensus over the proper place of this function Since Hannah Arendt articulated her doctrine of strict legality in response to the prosecutor s expansive didactic approach in Eichmann the legal debate on the subject has been largely polarised between restrictive and expansive approaches to history writing in mass atrocity trials What has been noticeably missing from this debate is the middle ground The contribution this book seeks to make is precisely to articulate a framework that occupies that ground The book asks what are the lenses through which judges of ICTs interpret historical events what kind of histories do ICTs write and what kinds of histories should ICTs produce Its arguments for a more moderate approach to history writing are based on three distinct but interrelated grounds 1 Truth and Justice 2 Right to Truth and 3 Legal Epistemology Different target audiences may benefit from this book Court officials and legal practitioners may find the normative framework developed herein useful in addressing the tensions between the competing objectives of ICTs and in particular in assessing the value of the history writing function Lawyers historians and other academics may also find the analysis of the strengths constraints and blind spots of the historical narratives written by ICTs interesting This issue is particularly timely in view of current debates on the legacies of ICTs Aldo Zammit Borda is Director of the Centre for Access to Justice and Inclusion at Anglia Ruskin University Cambridge UK

The Gestapo Frank McDonough,2015-08-27 Name as a 2016 Book of the Year by the Spectator A Daily Telegraph Book of the Week August 2015 Longlisted for 2016 PEN Hessell Tiltman Prize Ranked in 100 Best Books of 2015 in the Daily Telegraph Professor Frank McDonough is one of the leading scholars and most popular writers on the history of Nazi Germany Frank McDonough s work has been described as modern history writing at its very best Ground breaking fascinating occasionally deeply revisionist by renowned historian Andrew Roberts Drawing on a detailed examination of previously unpublished Gestapo case files this book relates the

fascinating vivid and disturbing accounts of a cross section of ordinary and extraordinary people who opposed the Nazi regime It also tells the equally disturbing stories of their friends neighbours colleagues and even relatives who were often drawn into the Gestapo s web of intrigue The book reveals too the cold blooded and efficient methods of the Gestapo officers This book will also show that the Gestapo lacked the manpower and resources to spy on everyone as it was reliant on tip offs from the general public Yet this did not mean the Gestapo was a weak or inefficient instrument of Nazi terror On the contrary it ruthlessly and efficiently targeted its officers against clearly defined political and racial enemies of the people The Gestapo will provide a chilling new doorway into the everyday life of the Third Reich and give powerful testimony from the victims of Nazi terror and poignant life stories of those who opposed Hitler s regime while challenging popular myths about the Gestapo

No Free Speech for Fascists David Renton,2021-06-24 No Free Speech for Fascists explores the choice of anti fascist protesters to demand that the opportunities for fascists to speak in public places are rescinded as a question of history law and politics It explains how the demand to no platform fascists emerged in 1970s Britain as a limited exception to a left wing tradition of support for free speech The book shows how no platform was intended to be applied narrowly only to a right wing politics that threatened everyone else It contrasts the rival idea of opposition to hate speech that also emerged at the same time and is now embodied in European and British anti discrimination laws Both no platform and hate speech reject the American First Amendment tradition of free speech but the ways in which they reject it are different Behind no platform is not merely a limited range of political targets but a much greater scepticism about the role of the state The book argues for an idea of no platform which takes on the electronic channels on which so much speech now takes place It shows where a fascist element can be recognised within the much wider category of far right speech This book will be of interest to activists and to those studying and researching political history law free speech the far right and anti fascism It sets out a philosophy of anti fascism for a social media age

Rethinking Fascism Di Michele Andrea,Filippo Focardi,2022-01-19 This book takes up the stimuli of new international historiography albeit focusing mainly on the two regimes that undoubtedly provided the model for Fascist movements in Europe namely the Italian and the German Starting with a historiographical assessment of the international situation vis vis studies on Fascism and National Socialism and then concentrate on certain aspects that are essential to any study of the two dictatorships namely the complex relationships with their respective societies the figures of the two dictators and the role of violence This volume reaches beyond the time frame encompassing Fascism and National Socialism experiences directing the attention also toward the period subsequent to their demise This is done in two ways On the one hand examining the uncomfortable architectural legacy left by dictatorships to the democratic societies that came after the war On the other hand the book addresses an issue that is very much alive both in the strictly historiographical and political science debate that is to say to what extent can the label of Fascism be used to identify political phenomena of these current times such as movements and parties of the so called populist and souverainist right

Negotiating the Sacred Elizabeth Burns Coleman, Kevin White, 2006-06-01 This cross disciplinary exploration of the role of the sacred blasphemy and sacrilege in a multicultural society brings together philosophers theologians lawyers historians curators anthropologists and sociologists as well as Christian Jewish and Islamic and secular perspectives In bringing together different disciplinary and cultural approaches the book provides a way of broadening our conceptions of what might count as sacred sacrilegious and blasphemous in moral and political terms In addition it provides original research data on blasphemy sacrilege and religious tolerance from a range of disciplines

Perspectives on the Entangled History of Communism and Nazism Klas-Göran Karlsson, Johan Stenfeldt, Ulf Zander, 2015-07-15 The collective work deals with the problems of if how and why the histories of German Nazism and Soviet Communism should and could be situated within one coherent narrative As historical phenomena can Communism and Nazism fruitfully be compared to each other Do they belong to the same historical contexts Have they influenced reacted to or learned from each other Are they interpreted represented and used together by posterity The background of the book is twofold One is external There is an ongoing debate about the historical entanglements of Communism and Nazism especially about Auschwitz and Gulag respectively Our present fascination with the evil history of genocide has situated the Holocaust as the borderline event in Western historical thinking The crimes against humanity perpetrated by the Soviet Communist regime do not have the same position but are considered more urgent in the East and Central European states that were subdued by both Nazi and Communist regimes The other internal background is to develop an analytical perspective in which the comnaz nexus can be understood Using a complex approach the authors investigate Communist and Nazi histories as entangled phenomena guided by three basic perspectives Focusing on roots and developments a genetic perspective highlights historical process oriented connections A structural perspective indicates an attempt to narrow down operational parallels of the two political systems in the way they handled ideology to construct social utopia used techniques of terror etc A third perspective is genealogical emphasizing the processing and use of Communist and Nazi history by posterity in terms of meaning and memory What past is worth remembering celebrating debating but also distorting and forgetting The chapters of the book address phenomena such as ideology terror secular religion museum exhibits and denial

Four Days in Hitler's Germany Robert Teigrob, 2019-05-09 In 1937 Canadian Prime Minister Mackenzie King travelled to Nazi Germany in an attempt to prevent a war that to many observers seemed inevitable The men King communed with in Berlin including Adolf Hitler assured him of the Nazi regime's peaceful intentions and King not only found their pledges sincere but even hoped for personal friendships with many of the regime's top officials *Four Days in Hitler's Germany* is a clearly written and engaging story that reveals why King believed that the greatest threat to peace would come from those individuals who intended to thwart the Nazi agenda which as King saw it was concerned primarily with justifiable German territorial and diplomatic readjustments Mackenzie King was certainly not alone in misreading the omens in the 1930s but it would be difficult to find a democratic leader who missed the

mark by a wider margin This book seeks to explain the sources and outcomes of King's misperceptions and diplomatic failures and follows him as he returns to Germany to tour the appalling aftermath of the very war he had tried to prevent

The Coming of the Third Reich Richard J. Evans, 2005-01-25 The definitive account of Hitler's rise to power and the collapse of civilization in Nazi Germany from the author of *The Third Reich in Power* *The Third Reich at War* and *Hitler's People* The clearest and most gripping account I've read of German life before and during the rise of the Nazis A S Byatt *Times Literary Supplement* Impressive in its command of an immense literature perceptive in analysis fluent in style and humane in judgment this work could only have been produced by a master historian Sir Ian Kershaw Brilliant Richard Cohen *The Washington Post* There is no story in twentieth century history more important to understand than Hitler's rise to power and the collapse of civilization in Nazi Germany With *The Coming of the Third Reich* Richard J Evans one of the world's most distinguished historians has written the definitive account for our time A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations Evans's history restores drama and contingency to the rise to power of Hitler and the Nazis even as it shows how ready Germany was by the early 1930s for such a takeover to occur *The Coming of the Third Reich* is a masterwork of the historian's art and the book by which all others on the subject will be judged

The Warlord and the Renegade James Wyllie, 2007-02-01 There is a continuing interest in the history of Hitler's Third Reich This is a quirky untold story of Hitler's Third Reich that uncovers the Goring brothers bizarre relationship It is illustrated with many rare archive photographs

Fifty Key Thinkers on History Marnie Hughes-Warrington, 2014-09-04 *Fifty Key Thinkers on History* is an essential guide to the most influential historians theorists and philosophers of history The entries offer comprehensive coverage of the long history of historiography ranging from ancient China Greece and Rome through the Middle Ages to the contemporary world This third edition has been updated throughout and features new entries on Machiavelli Ranajit Guha William McNeil and Niall Ferguson Other thinkers who are introduced include Herodotus Bede Ibn Khaldun E H Carr Fernand Braudel Eric Hobsbawm Michel Foucault Edward Gibbon Each clear and concise essay offers a brief biographical introduction a summary and discussion of each thinker's approach to history and how others have engaged with it a list of their major works and a list of resources for further study

An Analysis of Richard J. Evans's In Defence of History Nicholas Piercey, Tom Stammers, 2017-07-05 Richard Evans wrote *In Defence of History* at a time when the historian's profession was coming under heavy attack as a result of the cultural turn taken by the discipline during the late 1980s and the 1990s Historians were being forced to face up to postmodern thinking which argued that because all texts were the product of biased writers who had incomplete information none could be privileged above others In this reading there could be no objective history merely the study of the texts themselves While *In Defence of History* addresses all aspects of historical method its key focus is on an extensive evaluation of this postmodern thinking Evans judges the acceptability of the reasoning advanced by the postmodernists and finds it badly wanting He is strongly critical both of the relevance and of

the adequacy of their arguments seeking to show that ultimately they are guilty of failing to accept the logic of their own position All texts are equally valid or invalid they suggest while insisting that the products of their own school are in fact more true than those of their opponents Evans concludes by pointing out that this same argument could be advanced to suggest that the works of Holocaust deniers are just as valid as are those of historians who accept that the Nazis set out to commit genocide So why he demands is no postmodernist willing to say as much A devastating example of the usefulness of relentless evaluation

Re-Forming History Mark Sandle, William Van Arragon, 2019-05-23 Does the discipline of history need a reformation How should Christian faith shape the ways historians do their work This book written for students considers the how of doing history The authors first examine the current liturgies of the historical profession and suggest that the discipline is in crisis They argue for re formed Christian practices and methodologies for history The book asks important questions why do we do history and for whom How should faith shape how we do our research and tell stories What do we owe the dead How should Christian historians practice dangerous memory And how can Christian historians do justice love mercy and walk humbly with God How might we rethink reform renew reimagine and re practice the study of the past Christian historians must be sentinels of hope against the world s forgetfulness the authors argue and this book offers some pathways for rethinking our practices from a Christian perspective
