Jeannie Lum, 2018-04-19 In 1999 the UN instituted the Program of Action on a Culture of Peace leading to the Declaration of the International Decade for the Promotion of a Culture of Peace and Non Violence for the Children of the World 2001 2010 This represented a paradigm shift away from the prevailing conceptualization of peace as the absence of war to one of creating cultures of peace and indicated a significant opening for peace educators and the expansion of their mission and field in peace research and scholarship This book seeks to address several questions about the emergence present state and future of the field of peace education and to ground the definition of the discipline in its origins origins deeply set in informal grassroots movements of concerned citizens faith based communities and professional organizations who work for peace as well as those working in formal institutions These origins are vital in imparting identity and in nurturing the current growing collective consciousness that combines the academic discipline and the worldwide peace movement a collective that can unify fuel and inspire dialogue among scholars researchers activists educators government leaders and the myriad of individuals committed to creating cultures of peace throughout the world This book was originally published as a special issue of the Journal of Peace Education **Nonviolence** Mark Kurlansky, 2008-04-08 In this timely highly original and controversial narrative New York Times bestselling author Mark Kurlansky discusses nonviolence as a distinct entity a course of action rather than a mere state of mind Nonviolence can and should be a technique for overcoming social injustice and ending wars he asserts which is why it is the preferred method of those who speak truth to power Nonviolence is a sweeping yet concise history that moves

from ancient Hindu times to present day conflicts raging in the Middle East and elsewhere Kurlansky also brings into focus just why nonviolence is a dangerous idea and asks such provocative questions as Is there such a thing as a just war Could nonviolence have worked against even the most evil regimes in history Kurlansky draws from history twenty five provocative lessons on the subject that we can use to effect change today He shows how time and again violence is used to suppress nonviolence and its practitioners Gandhi and Martin Luther King for example that the stated deterrence value of standing national armies and huge weapons arsenals is at best negligible and encouragingly that much of the hard work necessary to begin a movement to end war is already complete It simply needs to be embraced and accelerated Engaging scholarly and brilliantly reasoned Nonviolence is a work that compels readers to look at history in an entirely new way This is not just a manifesto for our times but a trailblazing book whose time has come Peace Research Abstracts Journal ,2006 Arms Control Robert E. Williams Jr.,Paul R. Viotti,2012-05-15 Set against a backdrop of terrorism rogue states non conventional warfare and deteriorating diplomacy this encyclopedia offers a comprehensive multidisciplinary up to date reference on the recent history and contemporary practice of arms control and nonproliferation Arms Control History Theory and Policy features in depth expert analysis and information on the full spectrum of issues relating to this critical topic The first major reference on arms control in over a decade the two volume set covers historical context contemporary challenges and emerging approaches to diplomacy and human rights Noted experts provide a full spectrum of perspectives on arms control offering insightful analysis of arms control agreements and the people and institutions behind them Volume 1 provides an accessible historical overview of the subject and a more detailed conceptual analysis of the foundations of arms control Volume 2 covers the contemporary and practical issues of arms control focusing on global issues that arms control advocates have been forced to address with varying degrees of success a burgeoning international trade in conventional weapons a closely related flood of small arms and light weapons used to fuel intrastate conflicts and even genocide and the spread of nuclear weapons to potentially unstable regions of the world European Peace Movements and the Future of the Western Alliance Walter Laqueur,2017-09-08 This extraordinary compendium concerns the future of the Western alliance and the development of the peace movements in Europe and in the United States The peace movement is an old phenomenon given new life by NATO decisions concerning nuclear deployment in Europe and the Soviet responses along the same lines After a long postwar marriage Europeans and Americans alike are reexamining the premises of the Western alliance The contributors provide a variety of scenarios extending from the maintenance of the status quo to the complete dismantling of the Western alliance or at least of its NATO component In a context of rapid change and new challenges to the democratic bloc the editors and authors argue for higher levels of economic integration and caution that competition might spill over into political collapse The work deals with thorny security issues in a frank and policy oriented way While each contributor expresses a unique standpoint a surprising consensus emerges The need for democratic nations to move toward a higher

policy ground in order to preserve the fundamental alliance that led to the postwar consensus to begin with Some contributors feel this is still possible others that the time has passed and that national rather than regional interests will once more prevail The work contains an extraordinary array of talent from both the American and European perspectives Among the major contributors and their themes are Henry Kissinger on A Plan to Reshape NATO William G Hyland on The European Peace Movement and NATO Irving Kristol on What s Wrong with NATO Theodore Draper on The Western Misalliance Niels Haagerup on The Nordic Peace Movements Martin Ceadel on The British Nuclear Disarmers and Jeffrey Herf on The SPD and the Peace Movement in West Germany This is a well integrated text with no random essays **Nonviolence:**
