American Nietzsche dramatically recasts our understanding of American intellectual life and puts Nietzsche squarely at its heart

Truth, Torture, and the American Way Jennfier Harbury, 2005-09-15 Jennifer Harbury's investigation into torture began when her husband disappeared in Guatemala in 1992 she told the story of his torture and murder in *Searching for Everardo For* over a decade since Harbury has used her formidable legal research and organizing skills to press for the U S government's disclosure of America's involvement in harrowing abuses in Latin America Southeast Asia and the Middle East A draft of this book had just been completed when the first photos from Abu Ghraib were published tragically many of Harbury's deepest fears about America's own abuses were graphically confirmed by those horrific images This urgently needed book offers both well documented evidence of the CIA's continuous involvement in torture tactics since the 1970s and moving personal testimony from many of the victims Most important Harbury provides solid convincing arguments against the use of torture in any circumstances not only because it is completely inconsistent with all the basic values Americans hold dear but also because it has repeatedly proved to be ineffective Again and again information obtained through these gruesome tactics proves unreliable or false Worse the use of torture by U S client states allies and even by our own operatives endangers our citizens and especially our troops deployed internationally

The American Review of Reviews Albert Shaw, 1922 **Shaman or Sherlock?** Gina Macdonald, Andrew F. Macdonald, 2001-11-30 Fictional depictions of Native American concepts of justice crime and the investigation of crime are explored in this original work Shaman or Sherlock explores depictions created by Native American authors themselves as well as those created by outsiders with mainstream agendas The most successful of these writers fuse authentic Native American culture with standard genre conventions thus providing an appealing empathetic view of little understood or underappreciated groups as well as insight into issues of cross cultural communication Dealing with such significant concepts as acculturation regional diversity and assimilation this unique study evaluates over 200 detective stories Though the crime novel began in Europe as a manifestation of Enlightenment rationality and scientific methodology the Native American detective story moves into the realm of the spiritual and intuitive often incorporating depictions of non material phenomena Shaman or Sherlock explores how geographical and tribal differences degrees of assimilation and the evolution of age old cultural patterns shape the Native American detective story *The American Florist* , 1914
